

U. S. Must Cut Use Of Wheat by One-Half

America Consumed 42,000,000 Bushels Monthly. From Now Until Harvest Must Use Only 21,000,000.

RATION PER PERSON IS 1 1/2 POUNDS OF WHEAT PRODUCTS WEEKLY

Military Necessity Calls for Greater Sacrifice Here—Allied War Bread Must Be Maintained—Our Soldiers and Sailors to Have Full Allowance.

If we are to furnish the Allies with the necessary proportion of wheat to maintain their war bread from now until the next harvest, and this is a military necessity, we must reduce our monthly consumption to 21,000,000 bushels a month, as against our normal consumption of about 42,000,000 bushels, or 50 per cent. of our normal consumption. This is the situation as set forth by the U. S. Food Administration at Washington. Reserving a margin for distribution to the army and for special cases, leaves for general consumption approximately 1 1/2 pounds of wheat products weekly per person. The Food Administration's statement continues: Many of our consumers are dependent upon bakers' bread. Such bread must be durable and therefore, requires a larger proportion of wheat products than cereal breads baked in the household. Our army and navy require a full allowance. The well-to-do in our population can make greater sacrifices in the consumption of wheat products than can the poor. In addition, our population in the agricultural districts, where the other cereals are abundant, are more skilled in the preparation of breads from these other cereals than the crowded city and industrial populations.

With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk, and we have ample corn and oats for human consumption. The drain on rye and barley, as substitutes, has already greatly exhausted the supply of these grains.

To effect the needed saving of wheat we are wholly dependent upon the voluntary assistance of the American people and we ask that the following rules shall be observed:

1. Householders to use not to exceed a total of 1 1/2 pounds per week of wheat products per person. This means not more than 1 1/2 pounds of Victory bread containing the required percentage of substitutes and one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, all combined.
2. Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present. In addition thereto, not to serve to any one guest at any one meal an aggregate of breadstuffs, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, containing a total of more than two ounces of wheat flour. No wheat products to be served unless specially ordered. Public eating establishments not to buy more than six pounds of wheat products for each ninety meals served, thus conforming with the limitations requested of the householders.

3. Retailers to sell not more than one-eighth of a barrel of flour to any town customer at any one time and not more than one-quarter of a barrel to any country customer at any one time, and in no case to sell wheat products without the sale of an equal weight of other cereals.

4. We ask the bakers and grocers to reduce the volume of Victory bread sold, by delivery of the three-quarter pound loaf where one pound was sold before, and corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond 70 per cent. of the average monthly amount purchased in the four months prior to March 1.

5. Manufacturers using wheat products for non-food purposes should cease such use entirely.

6. There is no limit upon the use of other cereals, flours, and meals, corn, barley, buckwheat, potato flour, et cetera.

Many thousand families throughout the land are now using no wheat products whatever, except a very small amount for cooking purposes, and are doing so in perfect health and satisfaction. There is no reason why all of the American people who are able to cook in their own households cannot subsist perfectly well with the use of less wheat products than one and one-half pounds a week, and we specially ask the well-to-do households in the country to follow this additional programme in order that we may provide the necessary marginal supplies for those parts of the community less able to adapt themselves to so large a proportion of substitutes.

In order that we shall be able to make the wheat exports that are absolutely demanded of us to maintain the civil population and soldiers of the allies and our own army, we propose to supplement the voluntary co-operation of the public by a further limitation of distribution, and we shall place at once restrictions on distribution which will be adjusted from time to time to secure as nearly equitable distribution as possible. With the arrival of harvest we should be able to relax such restrictions. Until then we ask for the necessary patience, sacrifice and co-operation of the distributing trades.

FACE the FACTS

LET us face the facts. The war situation is critical. Unless the Allies fight as they never yet have fought, defeat threatens. Hungry men cannot fight at their best; nor hungry nations. France, England, and Italy are going hungry unless we feed them.

Wheat Savings—They must have wheat. It is the best food to fight on. It is the easiest to ship. We alone can spare it to them. By saving just a little—less than a quarter of what we ate last year—we can support those who are fighting our battles. And we can do it without stinting ourselves. We have only to substitute another food just as good.

The Corn of Plenty—Corn is that food. There's a surplus of it. Providence has been generous in the hour of our need. It has given us corn in such bounty as was never known before. Tons of corn. Trainloads of corn. Five hundred million bushels over and above our regular needs. All we have to do is to learn to appreciate it. Was ever patriotic duty made so easy? And so clear?

America's Own Food—Corn! It is the true American food. The Indians, hardiest of races, lived on it. Our forefathers adopted the diet and conquered a continent. For a great section of our country it has long been the staff of life. How well the South fought on it, history tells. Now it can help America win a world war.

Learn Something—Corn! It isn't one food. It's a dozen. It's a cereal. It's a vegetable. It's a bread. It's a dessert. It's nutritious; more food value in it, dollar for dollar, than meat or eggs or most other vegetables. It's good to eat; how good you don't know until you've had corn-bread properly cooked. Best of all, it's plentiful and it's patriotic.

Corn's Infinite Variety—How much do you know about corn? About how good it is? About the many delicious ways of cooking it? And what you miss by not knowing more about it? Here are a few of its uses:

There are at least fifty ways to use corn meal to make good dishes for dinner, supper, lunch or breakfast. Here are some suggestions:

- | | |
|-------------------------------|--------------------------|
| HOT BREADS | DESSERTS |
| Boston brown bread. | Corn-meal molasses cake. |
| Hoccake. | Apple corn bread. |
| Muffins. | Dumplings. |
| Biscuits. | Gingerbread. |
| Griddle cakes. | Fruit gema. |
| Waffles. | |
| HEARTY DISHES | |
| Corn-meal croquettes. | Corn-meal fish balls. |
| Meat and corn-meal dumplings. | |
| Italian polenta. | Tamales. |
- The recipes are in Farmers' Bulletin 565, "Corn Meal as a Food and Ways of Using It," free from the Department of Agriculture.

FANGOLLANO ITEMS

FANGOLLANO, Ore., June 19. — There will be no hay in Mud Flat this year owing to the continued dry weather. John W. Owens however is lucky enough to have half of a good sized stack left which will help out some.

S. H. Corliss came home from Barren Valley Sunday, where he is working, to attend school meeting Monday.

L. Bruere is harrowing his ground to get it in shape to hold as much moisture as possible for fall sowing. Sam Moore of Mooreville, one of "our boys" left for training camp this week. We all wish him the best of luck.

Mrs. E. L. Wilsey was visiting at the home of her parents, Mr. and Mrs. S. H. Corliss, Sunday.

Mr. and Mrs. S. R. Copeland were in Fangollano Sunday on business. Mr. Copeland says he will have little hay as he didn't get enough water in his reservoir to irrigate his crop.

Mildred Copeland and Warren Mc-

BIG FILM COMING

Theater Will Show "The Kaiser The Beast of Berlin."

One of the biggest films of modern times and intensely interesting just at this time is the film play "The Kaiser

the Beast of Berlin" which will be shown at the Rex theater in Vale, June 29, and at the Deamland theater in Ontario, June 27. The film is an exposure of the life of the German ruler and has drawn record houses in

the cities. It is a new film and is coming to the local theater after being shown but a short time in the cities. Local managers should be congratulated upon securing the film and should have record houses on the evening of the play.

Kaffir Boys Close Chautauqua

To Chautauqua direct from the darkest of the Interior Jungles of Africa, resplendent in the glamorous trappings of native regalia, come Balmer's Wonderful Singing Kaffir Boys. These ebony-hued youngsters, with their sparkling eyes, shiny teeth and beaming faces, are marvelous singers, famous the world over for the remarkable richness and clarity of their voices. Besides singing, the Kaffir Boy choir give native dances and ceremonies. They sing songs in native and English tongue. The most unique of all Chautauqua offerings, the Kaffirs at Chautauqua, New York, divided honors with ex-President Roosevelt in drawing the greatest audiences of the season. Their appearance on the closing night of Chautauqua will be the biggest event of the week.
