RESUME OF WORK OF OREGON LEGISLATURE

Prompt Organization of Both Houses Augury of Successful Session.

Prohibition Amendment Ratified—Soldiers' and Sailors' Commission Formed—No Conflict Over Consolidation—Would Suppress Criminal Syndicalism—State Police Department Proposed—Compulsory Employment of Soldiers.

(Special to the Enterprise) The following letter comes the first week of the session telling the important considerations before the legislature up to Monday morning, January 20th.

Salem.—If the prompt manner in which the legislature organized and started to work is an indication of the manner in which the law-making business is going to be conducted it augurs well for a successful session.

There was no bickering in either house over organization. Both the president of the senate, W. T. Vinton of Yamhill county, and the speaker of the house, Seymour Jones of Marion county, were elected without opposition.

The legislative mill began to grind promptly after organization was completed, with less useless debate than during the first week of any session for many years.

The first important action of the legislature after organization was the ratification of the national prohibition amendment.

The bill passed provided for the creation of a soldiers' and sailors' commission for the relief of returning soldiers, appropriating \$100,000 for that purpose.

Consolidation Plans Harmonious. For a time there were indications of a clash between the house and senate over the consolidation program.

Members who have been here for several sessions declare that never before have they seen the legislature as a whole in such a seeming state of harmony on the consolidation question.

Radicals to Be Curbed. A bill was introduced in the senate by Senator Dimick and a somewhat similar bill in the house by Mr. Kubli directed at criminal syndicalism.

Land Settlement Act introduced. The soldiers land settlement bill recommended to the various states by Secretary of the Interior Lane was introduced in the senate by Senator Eddy.

Briefly, the bill provides a plan whereby the state is to furnish the land and the United States is to furnish the money for the development of homes for soldiers.

Legislative Brevities. Governor Withycombe's veto of senate bill No. 242, of the 1917 session, proposing an increase in the salaries of certain officials in Hood River county, was sustained by the senate.

Amendment to the inheritance laws so that they shall apply to estates which pass by dower and courtesy, or because of any deed, grant or gift as an advancement or division of the decedent's estate, along with greatly increased rates, are included in the provisions of a bill introduced

in the house by Representative Schuebel. Having procured Oregon's ratification of the national prohibition amendment by a total vote of 87 to 3 in the combined branches of the legislature, the prohibition forces of the state now are to train their "dry" guns on the patent medicines and so-called tonics containing a generous portion of alcohol.

State Police is Created By Bill. Creation of the department of state police is proposed in a bill introduced by Senator Orton, of Multnomah.

Provides for Employment of Soldiers. First of the reconstruction bills to be introduced in the senate was that of Senator Huston, making employment of war veterans, either soldiers or sailors, compulsory by the state, counties and municipal corporations.

Tax Limitation Repeal Proposed. The repeal of the 6 per cent tax limitation amendment adopted by the people at the general election of 1916, is provided for in a joint resolution introduced in the house just before adjournment by Brownell of Umatilla county.

Want Road Work Started. A joint resolution introduced in the house by Mr. Bean, calling upon the state highway commission to immediately start work on one or more units of highway work to provide employment for at least 1000 men was passed in both houses.

Prevent Teaching Foreign Languages. Representative Dodd of Umatilla introduced a bill in the house, making it unlawful for any board of school directors to permit the teaching of any subject, other than foreign languages, in any of the public or private schools of the state except in the English language.

Market Commission is Proposed. Standardization of the sale of all farm and manufacturing products and furthering the market for Oregon goods is proposed in a bill introduced by Senator Huston, of Multnomah county, providing for the creation of a state market commission.
