VALE, OREGON, SATURDAY, NOVEMBER 1, 1919.

To call the attention of the thinking men and women of Malheur County to various problems of the day effecting their prosperity, welfare and happiness is the sincere aim of the Editorial policy of the Malheur Enterprise. What benefits may be derived depend upon what action you take. Talk, writing, thinking must be followed by action to accomplish any results. Are you doing your part?

WE NEED A RIGBY, A TROW, A BROGAN.

The big Warm Springs storage reservoir will hold ample water for 15,000 acres of land in addition to the 30,000 acres within the boundaries of the present project. The storage cost of this additional water has been paid and its use is necessary to justify this expenditure. But what is more important is the possible benefits this water will bring to 15,000 acres of now unproductive land in the Malheur Valley. The newly organized Harper district will use a part of this extra water and the balance should be placed on the bench land west of Vale. 8,000 or more thirsty acres of fine bench land now lay parched and useless within a few miles of the city of Vale. This land can be reached by a practical distribution system using the surplus storage water from the Warm Springs dam.

The Bully Creek project is another water problem which will some day be solved and bring many thousands of acres of other fine bench lands under cultivation.

Besides these projects there is sufficient water lost each spring in the run off from the North Fork of the Malheur River to provide water for thousands of acres of land. The Warm Springs project is just the first step toward the development of the irrigation possibilities in the Malheur Drainage Basin. What we need is some men with courage, back bone and foresight, men with ability and leadership to break the self-satisfaction attitude of the people and lead them to further efforts in accomplishing the development of the Malheur Valley. Where are the Rigbys, the Trows, the Brogans of the present generation. Nothing can be done by the lazy, the indifferent, the slacker. Everything is possible to the courageous, the energetic, the hard worker. Who will take up the work of future development?

FARMERS TO CALL LABOR TO ITS SENSES.

Can labor enforce a shortage of all manufactured necessities, keep wages at a level beyond any reasonable average by working 5 and 6 hours a day—and force the farmers to cut the price of raw products to the point that farmers will be compelled to work 12 or 14 hours a day to make a decent living?

Not after the farm bureau organizations become federated on a national scale and the power of 30 or 40 million ranchers have an authorized medium to place their collective opinion before the public. We want to call to the attention of the labor leaders and the middle men and others to the rising political influence of the farmer. The farmer is the backbone of America and as soon as he gets organized thru the Farm Bureau he is likely to take over the thinking for America. If the farmer in the new power which is sure to be his very soon, can withstand the temptation of class aggrandizement, and can uphold the principles of true, simple Americanism, he can lead this nation and the world to safety thru the midst of the present industrial chaos.

PROGRAM FOR MALHEUR COUNTY

1. The successful completion of the Warm Springs project.
2. Government appropriation for the larger Owyhee project.
3. Clear way for construction of Bully Creek project.
4. Settlement of 4,000,000 acres of tillable and grazing homestead lands. (Artesian Well experiments should be made.)
5. Settlement of Warm Springs and Jordan Valley project lands (Establish State Experiment Farm in Malheur County.)
6. Construction of adopted County road system serving and connecting all parts of the County.
7. State and federal aid in highway construction.
8. Completion of Central Oregon Railroad System.
9. Improve marketing conditions and secure equitable reduction in freight rates. (Farm Bureau should be organized for County.)
10. Foster development of industrial possibilities.
11. Encourage development of mineral resources.
12. Improve educational and social advantages.
13. Decrease Taxes by natural increase in property values.
14. Give Malheur county for home use and as an outside representative the best county Newspaper in the State.

PROGRAM FOR VALE

1. Adopt New Charter Based on Managerial Commission Form of Government.
2. Organize Chamber of Commerce on basis for Active Work and Paid Secretary.
3. Erection of Community Hall for Chautauqua and Conventions.
4. Street Improvement Thruout Entire City.
5. Develop Vale's Schools toward an ever higher standard.
6. Provide ample irrigation system to make "City Beauty" possible.
7. Secure more equitable Freight Rates.
8. Encourage New Commercial and Industrial Enterprises.
9. Push a sensible building campaign to keep Housing Conditions normal.
10. Reestablishment of Women's Civic Club to build up Library, improve City Parks and Help Make Better City.

If you spend wisely

YOU'LL buy home products, because they are the finest made.

And because keeping Oregon dollars at home, means prosperity for the manufacturer, the workman and the producer. Boost your home industries. Increase Oregon payrolls. Encourage the producer.

THE ELECTRIC WAY THE MODERN WAY

The American Woman is waking up. No longer is she a drudge with old fashioned germ laden mops and brooms. She cleans, washes, mends, cooks and does all household tasks electrically at a wonderful saving of strength and vitality. She then has more time to make her home a place of delight to her family.

ELECTRIC WASHER—Makes washday a pleasure. No rubbing, no soaking, no handling of clothes. Put them in the washer, turn on power and go about your other duties while the washer works.

ELECTRIC IRON—Always clean and ready, keeps at constant "just right" heat and operates at less cost than the old fashioned heavy irons.

ELECTRIC STOVES—For cooking and heating—no coal, no dirt, but ever ready glowing heat at the touch of a button. Let us show you the many sizes and kinds.

VACUUM SWEEPER—Does the work in hours less time, raises no dust and is so easy to operate, a child can clean with one. Ask us for price and terms.

IN ADDITION—There are a hundred and one electrical conveniences for your home, sewing machines, water heaters, bed warmers, curling irons, percolators, fans, grills, toaster, plates etc. Visit our wonder store and let us show you how they run and how little money is necessary to own them.

— LET US DEMONSTRATE —

A ONE-ACT PLAY ENTITLED "DON'T ENVY THE HOME OWNER—BE ONE."

This little playlet is being enacted almost every day. The scene is vividly pictured. The place is any city in the United States. Time: Present. The characters are Mr. and Mrs. Renter.

(Mr. and Mrs. Renter are discovered on the sidewalk on a blustery fall day, gazing longingly at a happy family group, seated at their dinner table.)

Mr. R.—Gee! but that's a comfortable looking home. Just look at that happy looking bunch. Wish we had a home like that. Don't suppose that place would ever be for rent. Looks too homey.

Mrs. R.—No, dear, don't worry about us finding a place like that. When they look that good you never find a rent sign hanging on them. Come on, let's keep on looking. We must find something to-day.

Mr. R.—We sure must. Honestly, if the time ever comes when I can spend a whole Sunday without house hunting, I believe it would add ten years to my life. And if that landlord of ours keeps kiting the rent as he has been doing, it will be "over the hills to the poorhouse" for us.

Mrs. R.—Well, you know what I told you last Sunday when I read that "Own Your Home" advertisement. Here we are paying out good money year after year and not a thing to show for it.

Mr. R.—Somehow, I can't get that picture out of my mind. What do you say, let's take the plunge? Let's see that B. P. Lumber Company man tomorrow. We can buy a lot and build something like this, by using the money in the bank and making small monthly payments. What about it?

Mrs. R.—What about it? If you'll stand perfectly still, I'll kiss you regardless of the on-looker public. I was never so happy in all my life. I saw a perfectly lovely bungalow the other day just being finished and the contractor told me "The Home Payette Lumber Company had hundreds of different designs to choose from."

Mr. R.—Fine! Then it's settled. Since we have made up our minds, I feel like I imagine a "fire tender" would with a sudden pardon facing the world with his life before him, knowing that his home were broken.

MORAL: OWN YOUR OWN HOME. AND LET US HELP BUILT IT. Free Blue Printed Plan and Building Service to Customers.

Camel CIGARETTES

Cigarettes made to meet your taste!

Camels are offered you as a cigarette entirely out of the ordinary—a flavor and smoothness never before attained. To best realize their quality compare Camels with any cigarette in the world at any price!

Camels flavor is so refreshing, so enticing, it will win you at once—it is so new and unusual. That's what Camels expert blend of choice Turkish and choice Domestic tobacco gives you! You'll prefer this blend to either kind of tobacco smoked straight!

As you smoke Camels, you'll note absence of any unpleasant cigarette aftertaste or any unpleasant cigarette odor. And, you'll be delighted to discover that you can smoke Camels liberally without tiring your taste!

Take Camels at any angle—they surely supply cigarette contentment beyond anything you ever experienced. They're a cigarette revelation! You do not miss coupons, premiums or gifts. You'll prefer Camels quality!

18 cents a package

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages—200 cigarettes in a glassine paper covered carton. We strongly recommend this carton for the home or office supply as it keeps your Camels.
