chopped hay, silage, shelter, etc. Also
winter feeding of calves and year-
lings. A special visit will be made to
the state experimental farm at
Union. Union county has become
one of the best cattle counties in the
state due to the courage of the stock-
men and farmers who have built up
pure blooded herds and given special
attention to feeding problems. It
would certainly be advisable for as
large a delegation from Malheur
county to attend this feeding school
as possible.

GRADUATE 1000.
Service Course Offered By Big Motor
Company To Repair
Men.
During the first year of its exist-
ence, the Ford Service Course, orga-

nized January 1, 1918, by the Ford
Motor Company, graduated more
than 1000 service men who came to
Detroit from Ford dealers in various
parts of the United States to learn
the proper and most efficient way to
repair Ford cars. It is the intention
of the company to eventually have
every service man and mechanic em-
ployed by Authorized Ford dealers
come to Detroit to take the course.

Appointments are made through the
Ford branches, one of which sends
five delegates each day. The time oc-
cupied is one month and it is divided
between theory and practice. The
students are paid by the Ford com-
pany for their time--a part of which
is spent doing actual work on cars in
the factory. In the present class are
120 students, and every state is re-
presented.
