they have to travel:

BOOKS BRING AID

RESULTS.

Not only for former service men who are sick or disabled in the association working. The value of books proved so great to men in camps that efforts are still being made to connect discharged soldlers and sallors with libraries wherever they may be. Hundreds of letters have reached A. L. A. headquarters from former service men telling of the lack of library facilities in particular localities to which those men have returned.

Direct Service Provided.

In many cases there is a state library commission or a nearby library to which a man can be referred for the books he needs, but if there is no such organization through which he can be served, books for almost any serious purpose may be borrowed directly from the A. L. A. War Service, 24 West Thirty-ninth street, New York city. The only expense in connection with these loans is prepayment of return postage on books borrowed.

The A. L. A. has published lists of books to help ex-service men who are studying to advance themselves in their work. "Five Hundred Business Books," "One Thousand Technical Books" and reading courses on practical subjects are now in preparation.

Other Work Being Done. Other branches of work which the A. L. A. War Service is carrying on include service to the Merchant Marine, Coast Guard and lighthouses, service to industrial communities which are resultant from the war, service to United States forces overseas. This work is carried on with money received from the United War Work funds, the use of which is limited by the conditions of the gift to these specific purposes.

Forest Grove to get new \$15,000 prune packing plant.

Good Samaritan Hospital, Portland adopted for teaching to the American war blind, literature printed in it is raising \$300,000 for new wing.

DREWSEY

I. M. Davis made a trip to his ranch on Muddy Creek Sunday. Mrs. Mable Hess resigned her position as postmistress to Mrs. H. J. Clark who took charge of the office Sunday. Mrs. Jesse Davis is visiting her

sister Mrs. John Geerheart at Jun. tura this week.

Mrs. John Scheekter of Silvies Valley is with her mother Mrs. August Muller ths week.

C. C. Mueller

First National Bank Building

The B. P. Round Roof Solves the Barn Problem

Perhaps you need a new barn to properly protect your stock and crops. That means a building problem that we can help you solve in the best way.

The barn shown above has been designed with great care. The practical needs of the farmer have been kept in mind as well as the necessity for economy. The result is a barn that is easy to build, is strong and substantial and provides large unobstructed storage space for hay.

Heavy beams and braces have been done away with. The mow space is large and open and the Round Roof construction gives you more room for the same amount of side wall and floor space.

THE BEST SIZE FOR YOU

We are prepared to provide you with plans and specifications to build a Round Roof barn of any size you may need. The cost of construction is more reasonable than you imagine. Come in and talk it over--we're always glad to see you.

SE-PAYETTE LUN F. L. Gilbert, Sales Manager, Vale, Ore.

in back in 1910

TEN years ago you might A have seen one or two automobiles waiting outside the station, when the weather was pleasant.

Today the square is crowded with them. And most of the cars you generally see there are moderate-price cars.

Anybody who tells you that owners of moderate-price cars are not interested in the quality of their tires has never met very many of them.

We come in contact with the small car owner every day and we have found that he is just as much interested as the big car owner.

BULLOCK & HOTCHKISS

The Ford Doctors

United States Tires

There is one tire, at least, that makes no distinction between small cars and large cars so far as quality is concerned-the U.S. Tire.

Every U. S. Tire is just like every other in quality -the best its builders know how to build.

Whatever the size of your car, the service you get out of U.S. Tires is the same. It isn't the car, but the man who owns the car, that sets the standard to which U.S. tires are made.

We feel the same way about it. That's why we represent U. S. Tires in this community.
