Fruit Color is Sunlight

The color of fruit is the result of chemical action, in which sunlight is transformed into red or yellow or orange or purple coloring matter. This chemical action takes place best when the alterations between the heat of day and the cold of night are most marked; in the fall, that is to say, with the spring closely following.

Country Girl's Ideals of Big-City Fascinations Shattered by Treachery

"KINGDOM OF DREAMS" ANITA STEWART SHOWS UP BIG TOWN FOLKS
How Judith Rutledge's idealistic conception of life in the great cities was, sent crashing on the rocks of a harsh reality is the theme of "Her Kingdom of Dreams" starring Anita Stewart and which will be seen at the Rex Theatre on Thursday September 16th.
As a young girl living with her invalid father in a small western town Judith frequently longed for the wonders and beauties of the large cities. And, as a reward for that longing, it seemed an opportunity came to her to visit her Utopia. She was to be a private secretary to James Warren, prominent Wall Street, banker.
Once in the employ of Warren, Judith's sincere services led Warren to believe that she could be trusted with his most masonic secrets. On his deathbed he made a final request—that Judith marry his rather unsteady son, Fred.
How this marriage, entered into in a spirit of dogged compliance with the elder Mr. Warren's wishes, developed into a fervent love-match spiced with episodes revolving about the wrecking of a great financial power, and the exposure of shameful women makes "Her Kingdom of Dreams" replete with tense dramatic scenes that cannot fail to please the patrons of the Rex Theatre.
