ELECTRICITY

Will Save Your Back

Electricity is ready to do all the hard work of your home—the washing, ironing, cooking, sewing, dish washing and cleaning.

Electric appliances in your home will save you hours of hard work—and they will perform your household tasks subtly and quietly.

An electric vacuum cleaner gains all the dirt—yet your linoleum gets cleaner than ever. An electric wringer saves hours of hard work, yet makes less dirt. It is easy to operate, making the household duties easy, and can be left to run while you do other work.

Electric iron saves countless hours and figures your ironing better and more quickly than the old-fashioned, troublesome iron.

We have many other electric appliances that will help you to get your work done. Come in and let us tell you how you can buy them at easy terms.
