STATE TAX WILL BE LOWER NEXT YEAR
COMMISSION ASSURES LITTLE ADJUSTMENT WILL BE MADE
RATIO FOUND TOO LOW
FUTURISTIC DEED VALUATION CAUSING STATE TAX TO BE UNREASONABLE.

Malheur County's state tax bill will be lower next year than it was last year. It is not the result of any change in state law, but is the result of the county by District Auditor A. D. Elise, who has found that the value of the real estate in Malheur County is lower than it was last year.

The amount of money collected from county real estate, however, will remain the same. The county's tax rate, which is determined by the county board of supervisors, has not changed. Therefore, the total tax bill for Malheur County will remain about the same as last year.

Malheur County's tax rate for the year is 20 mills. This means that every dollar of assessed value, which is the value of the property, will be taxed at the rate of 20 cents. The assessed value of property in Malheur County is about $150,000,000, which means that the total tax bill for the county will be about $3,000,000.

The county treasurer, A. D. Elise, said that the tax rate will remain the same next year, but that the total tax bill will be lower because the assessed value of property in the county has declined.

The county treasurer said that the decline in the assessed value of property is due to the fact that many of the manufacturers and builders in the county have had to close their doors because of the depression. This has caused the value of the property to decline.

The county treasurer also said that the county has not changed its tax rate because it wants to give the taxpayers a break. The county treasurer said that the county is trying to do its part to help the taxpayers during the depression.

In addition to the state tax, the county also taxes property at the rate of 10 mills. This means that every dollar of assessed value will be taxed at the rate of 10 cents. The total tax bill for the county will be about $1,500,000.

The county treasurer said that the total tax bill for the county will be lower next year because the assessed value of property in the county has declined.

The county treasurer also said that the county has not changed its tax rate because it wants to give the taxpayers a break. The county treasurer said that the county is trying to do its part to help the taxpayers during the depression.
