

Farm Bureau Meeting Draws Large Crowd

The fourth annual meeting of the Malheur County Farm Bureau held Friday at the Cairo Grange Hall drew a big attendance of farmers from all points of the county...

The big attraction of the day was the speech of Walter M. Pierce, the governor-elect of Oregon. Mr. Pierce held his audience for an hour and a half in a characteristic speech...

The election of officers resulted in returning V. V. Hickox to the office of president of the County Farm Bureau. A. A. Reed was elected executive committee member for district No. 1...

Several resolutions were passed in the latter part of the afternoon, bearing upon various matters of interest to the farmers. The most important of these perhaps was one commending the officials of the bureau for support given the cooperative marketing movement during the past three years...

Another resolution declares that the practice of private firms and individuals of using misleading terms which are intended to imply that they are in fact an association of farmers is not only an unfair practice but a detriment to legitimate organizations and should be remedied by legislative action...

Be it further resolved, whereas the Malheur County Farm Bureau at its annual meeting that a copy of this resolution be sent to our senator and representative asking them to see that the law is so amended to make it possible for irrigation districts to get their share of school money where the proper security is given...

dependent upon marketing the farm products of this industry at a price which will enable the producers to continue and to expand production...

Whereas, the system of marketing these farm products through private agencies conducted for profit has failed to return the cost of production to the grower in most instances and has proven to an unbearable degree, unreliable, untrustworthy and insufficient now therefore be it resolved that we deem it imperative that a system of non-profit, grower-controlled, legally incorporated, co-operative marketing associations of the commodity type, be set up in competition with or submitted for, the private agency type of marketing service as conducted for profit...

Whereas, certain private firms and individuals have from time to time solicited business from the people of Malheur county under the misleading trade names carrying the inference that they were in fact the producers associations, and Whereas, we deem this unfair and deceptive method of doing business and especially objectionable because of the discredit cast upon legitimate organizations, because of the questionable method usually employed by such self-styled associations...

Be it further resolved, that the Farm Bureau go on record as condemning the sales of livestock by auction or otherwise more especially dairy cattle until the requirements of the laws as to tuberculin tests have been complied with.

School Funds. Whereas, the attorney General of the State has held that school funds cannot be legally loaned on lands in Irrigation Districts holding that the bonds are a first lien, and as a result the State Land Board is withdrawing school funds from Irrigation Districts, and Whereas, it is contrary, we believe, to the intent of the law and works an injustice against land owners in irrigation districts, now therefore...

Be it resolved, the Malheur County Farm Bureau at its annual meeting that a copy of this resolution be sent to our senator and representative asking them to see that the law is so amended to make it possible for irrigation districts to get their share of school money where the proper security is given.

Drainage and soils. Whereas, it is estimated that there are from thirty to forty thousand acres of alkaline lands in Malheur county now having water rights or which it is possible to water at a reasonable cost, and Whereas, the reclamation of these lands would add very much wealth to the county and add from one to one and one-half to two million to the assessment roll, and the experimental work on these lands now being carried on by the Q. A. C. has demonstrated a method of draining much of these lands at a small cost and is showing results in working out a system of reclaiming these lands, and now, Therefore...

Be it resolved, by the Malheur County Farm Bureau at its annual meeting that the authority in charge be urged to ask the budget committee to include funds for carrying on this experimental work and that a copy of this resolution be sent to our representative and senator.

We wish to express our appreciation of the splendid numbers by the musicians, the good dinner, and the use of the Boulevard Grange Hall, and unselfish assistance of those who helped to make this meeting so successful.
