## Doings of Our Neighbors

BREEZY ITEMS CONTRIBUTED BY HERALD REPORTERS AT NEARBY POINTS

### CHERRYVILLE

The good old summer time! June days, June roses and June brides.

Strawberry short-cake and strawberries, sugar and cream.

Strawberries are not only nearly a month earlier than common but they are an uncommonly heavy crop if a wet spell does not rot them.

Great numbers of autos came out on Decoration Day and proceeded up into the mountains.

Appropriate exercises were held at the cemetery here on Decoration Day in memory of the soldiers of the Republic. The program consisted of singing National anthems, strewing the graves with flowers, reading Lincoln's Gettysburg Address by Dr. Botkins; recitations by George Couper and Robert Murray; remarks by Rev. Runyan, concluding with a flag salute and singing America.

The writer received a letter from U. S. Senator Lane last week in which he expressed some doubt as to his vote on the Canal Tolls Repeal Bill now pending in the Senate as he seemed to think we had made a fool bargain with England in the Hay-Pauncefote Treaty and were in a measure bound to stick to a bad bargain. Late papers however state that Lane has concluded to vote against the Repeal, this being more in accordance with the wishes of the great majority on the coast.

### CORBETT

Miss Ethel Smith came out from Portland Saturday morning and spent the week-end at home.

Mrs. Brink of Troutdale visited her daughter, Mrs. Lee Evans, Saturday.

Mr. Fleury of Portland was out Sunday. He expects to erect a bungalow on his lots just north of the dwelling he built on the Trowbridge farm. By a mistake in the survey Mr. Fleury built his house just across the line on the Trowbridge farm which will necessitate his building again.

Died, on Wednesday, May 27, Mrs. Arthur Johnson, eldest daughter of Mrs. A. E. Evans, aged about 25 years. Funeral services were conducted by Rev. Reeder at the Christain Church on Thursday at two o'clock, a large crowd being in attendance. The many floral tributes show of the high esteem which Mrs. Johnson was held in this community. Deceased is survived by her mother, husband, four year old son, three sisters and two brothers.

Died, on Friday, May 29, at 4 o'clock p. m., Norton Evans, son of Mrs. M. A. Evans and a brother of Mrs. Arthur Johnson who died Wednesday. Deceased had been a long and patient sufferer, and the death angel was a welcome caller at his bedside.

Born to Mr. and Mrs. W. Hicks, Monday June 1, a daughter.

R. P. Rasmussen was in Portland on business Monday.

### A TRANSFORMED FARM.

Ten years ago Professor Cyril G. Hopkins, the soil chemist and expert of the Illinois Agricultural college, set about to find the poorest and most run down farm in twenty counties in the southern part of his state, where a majority of the farmers had been skinning their land for years. He paid \$20 per acre for a 300 acre farm dubbed "Poorland Farm," which was known for centuries around as the poorest and most run down agricultural proposition in the state. Those who knew the farm laughed in their sleeves when Professor Hopkins bought it, while the owner thought he had slipped a good one over on the "lead pencil" farmer. The first thing the new proprietor did was to make a chemical analysis of the soil from the different fields. He found it sadly deficient in phosphorus and more or less sour. He divided the farm into six fields of forty acres each and adopted a six year rotation of corn, oats and cowpeas, wheat and three years of meadow and pasture in timothy and clover. The soil was plowed deeply and carefully and all available straw and manure returned to the land. The past season the poorest tract of the entire farm yielded 1,320 bushels of wheat, or an average of nearly thirty-five bushels per acre. The treatment which was given this and the other tracts was one ton of ground rock phosphate per acre applied the two years when the tract was in corn, while during the years of 1904 and 1905 two tons of limestone were applied to each acre, while on the tract in question two tons more of limestone per acre were applied in 1912 just before the land was plowed for wheat.

The cost of two tons of limestone was \$2.25 delivered at the railroad station, the raw rock phosphate cost on the average \$6.75 per ton, while the cost of hauling each ton of material to the farm was 50 cents. This made the average annual cost of phosphate and limestone \$1.75 per acre. To determine even more definitely the effect of the application of the minerals to the land a three acre strip along one side of this forty was given the same manure and rotation as the forty, but to one-half of it no phosphate was applied and no limestone until the fall of 1912. One and one-half acres with farm manure alone produced eleven and one-half bushels of wheat per acre. A similar tract that had received farm manure and one application of ground limestone yielded fifteen bushels per acre, while thirty-six acres of land that had been given the same manure as the smaller tracts and two applications of finely ground rock phosphate produced thirty-five and one-half bushels per acre. It is Professor Hopkins' judgment in view of his own experiments that all that is required to restore a run down farm is lime to sweeten it, rock phosphate to restore the supply of phosphorus exhausted, the growing of clover and alfalfa and the conservation of all straw and manure produced on the place. Owners of run down farms might with profit make careful note of the methods used in the transformation of this farm.

### A SELECTION OF BULBS.

For those who have not yet secured their supply of bulbs for winter and spring, a suggestion as to varieties may be found helpful. The writer has found the following very satisfactory: Tulips—La Reine (white), Queen of the Netherlands (pink), Yellow Prince, Rose Grisdell (white with pink tips), Couronne d'Or (orange), Murillo (pink) and Rubra Maxima (deep red). Of those named the blossoms of the first four are single, and of the last three double. Of the narcissi, the double Von Sion and Orange Phoenix are among the best, while of the single varieties the Emperor and Empress are very satisfactory. Of the hyacinths the Gigantes (blush pink), La Grandesse (white), General Pellissier (bright red) and L'Esperance (bright deep violet) are among the choicest. The bulbs should be put in rich sandy earth, in pots or in groups in boxes about an inch below the surface, and the pots and boxes containing them submerged in earth in still larger boxes. They should be watered enough to keep the earth moist, but not wet. After the roots have developed well the pots may be brought up as desired, depending upon whether one wishes early or later bloom. The bulbs are easily handled, and no family should be without a few to give bloom when other flowers are scarce.

### A NEW EGG CASE.

An Oregon inventor has tackled the proposition of devising a method of packing eggs for shipment that will reduce breakage in transit. Sheets of molded pulp board are used for this purpose, each sheet having holes evenly spaced and of such a diameter as to fit firmly over an egg a short distance from the end. When packed each egg projects slightly through two adjacent sheets, the spacing of the holes being such that no two eggs are in contact. A case of eggs packed with handmade sheets of this description was loaded over the rear axle of an express wagon, hauled rapidly over a rough plank logging road and dumped on the station platform as a package of unbreakable merchandise would be. Only one egg out of the fifty dozen which the case contained was broken, and it is claimed that this was the result of an imperfection in the handmade sheet.

## Tremont, Kern Park and Arleta

A new market will be opened up in the Firland Market Building within the next week.

Geo. F. McCulloch recently made a trip to LaPine and while there took a 320 acre homestead.

The Webfoot Athletics got the "stuffin'" knocked out of them last Sunday by the St. Andrews College team. Just 20 to 8, that was all.

Mr. Meyers of 6340 Foster road has bought the Ice Storage building on Foster road, moved it next his establishment and will retail ice this summer.

A warrant was issued yesterday for Charlie Boles of 3909 Sixty-fifth street, charging him with raising a check issued by his landlady, Mrs. Bryant.

A chimney fire at 6149 Foster Road in the Staub property caused considerable commotion last Thursday evening about ten o'clock. The local fire department responded and put it out.

As suggested last week, Morrison Lumber Company will miss Miss Bernice Cone from next Saturday. Plans are maturing for her marriage on that date to I. M. Pollard of Riverton, Nebraska.

Fred Gillstrap, the popular Kern Park barber has just finished painting his skyscraper. He is now contemplating a modern roof garden and a few fire-escapes for the safety of his customers on tenth story.

The proposed Post Office substation at Gray's Crossing has been delayed a month on account of pressure of business in the Department at Washington and consequent inability to complete arrangements. It is thought that it will be opened up for business about the first of July in the Gray's Crossing Pharmacy.

John Barrett of Woodland, Wash., sixteen years of age, was killed last Saturday by a shock from an exposed electric wire. The wire was not known to be a "live" one and so the accident resulted which caused his sudden death. His body was brought to Arleta and buried at Multnomah Cemetery.

Mrs. Blanchard of 5262, Sixty-ninth street S. E., was run down at Sixth and Stark streets Wednesday evening by a wagon driven by W. Looor of the Seeley Dresser Co. Three ribs were broken and her jaw bone fractured. The wagon tongue struck her in the side and knocked her down and the horses fell on her. Patrolman H. H. Stark jumped to the woman's rescue and dragged her to safety. Mrs. Blanchard will probably recover.

Arleta Eagles are drawing their campaign for membership to a close. Only fifteen more days for those who wish to get into this popular organization at the special organization rate of five dollars. Persons considering uniting with the new organization should see Charlie Parker within the next week. If the membership is continued as started it will be one of the best lodges in the district. It contains as prospective members the names of Lewis Silkworth, O. H. Clark, R. A. Leisy, G. F. McCulloch, P. Larsen, T. I. Hickey, and about 25 others who are well known in Arleta lodge circles.

### A Piano Opportunity

We find ourselves in a position where we are forced to raise a large sum of money in a short time. In order to accomplish this we have greatly reduced the price of every piano and player-piano in our store.

You can get a dandy little Weber for \$150, another for \$125 and another for \$65. If you are interested in a piano that anyone can play you can find them here at prices from \$335 and up.

Terms to suit your convenience.  
Soule Bros., Piano Co., 388 Morrison Street.

### Always Lead to Better Health

Serious sickness starts in disorders of the stomach, liver and kidneys. The best corrective and preventive is Dr. King's New Life Pills. They Purify the Blood—Prevent Constipation, keep Liver, Kidneys and Bowels in healthy condition. Give you better health by ridding the system of fermenting and gassy foods. Effective and mild. 25 cts. at your Druggist.

Bucklen's Arnica Salve for All Hurts.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

P. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists.

Take Hall's Family Pills for constipation.

### Hot Weather Tonic and Health Builder

Are you run down—Nervous—Tired? Is everything you do an effort? You are not lazy—you are sick! Your Stomach, Liver, Kidneys, and whole system needs a Tonic. A Tonic and Health Builder to drive out the waste matter—build you up and renew your strength. Nothing better than Electric Bitters. Start to-day. Mrs. James Duncan, Haynesville, Me., writes: "Completely cured me after several doctors gave me up." 50 cts. and \$1.00 at your Druggist.

Bucklen's Arnica Salve for Cuts.

### Coughs and Colds Weaken the System

Continued Coughs, Colds and Bronchial troubles are depressing and weaken the system. Loss of weight and appetite generally follow. Get a 50 ct. bottle of Dr. King's New Discovery to-day. It will stop your cough. The first dose helps. The best medicine for Stubborn Coughs, Colds and All Throat and Lung Troubles. Mr. O. H. Brown, Muscatine, Ala., writes: "My wife was sick during the hot summer months and I honestly believe Dr. King's New Discovery saved her life." Good for children. 50 cts. \$1.00, at your Druggists.
