NOTES OF THE W. C. T. U.

Some very pathetic heart stories are being revealed to the house to house canvassers in the Oregon Dry campaign for registration and votes.

One poor woman who came here crying by waiting, when told that some women said it was foolish to them and they did not intend to register.

"You tell such as these to register for me. They can do that much to help me." This woman's husband is a pretty good man, ordinarily, but when he gets a taste of liquor he will come home and steal from her pocket the money she has earned washing clothes and spend it for the drink which renders him a brutal drunkard.

Can we live for ourselves alone? Here is a woman who asks for the help her sisters can render by simply registering and voting the saloon out of commission. Can any Christian woman refuse to do it? Another answer the canvassers receive is:

"Times are hard enough now." That seemed quite a formidable statement before Mr. Regan delivered his address Monday night.

With bits of chalk in his fingers and demonstrated facts on the tip of his tongue Regan made that "hard times" cry a laughing matter. It is a fine thing to listen to a man who has been all through the "Dry" business and knows it from top to bottom.

When such a man tells you to study the bung hole of a whiskey barrel for the truth it tells, with the picture he had drawn of it before your eyes it seems easy to understand the bung hole says there's nothing in it.

Mr. Regan has made a study of the tax question in Oregon. He is to publish his findings and we will all get a copy and fly with it to our fearful sisters that they too may see there is nothing in the hard times cry.

J. A. Dunbar, Mrs. L. F. Additon and Mr. and Mrs. Heald went out to Gilbert Sunday evening and held a temperance rally. Mrs. Additon spoke from Isaiah 13:12. "I will make a man more precious than gold."

There is more cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly telling us more and more that it was incurable, it kept our eyes from being cured. It is now known that cataract is a constitutional disease, and that the only constitutional treatment is the only cure.
