the Trouble, But It Got All the Blame.

By H. M. LOME. Mr. Ben Blanchard was a small,

chubby man, baby-stare eyes and an infantile smile. He called himself a community promoter. This, as must be admitted, was a more taking title than that of land boomer, especially when much of the land so boomed was productive of little else than sandburs, sage-brush, cacti, jack-rabbits, and a fair sprinkling of rattlesnakes.

That is by the way, however. If you make inquiries among his eastern friends-especially in Montague street, Brooklyn-you will gather some pictuesque estimates of M. Blanchard's business abilities. Financial persons of Brooklyn pride themselves on being possessed of a certain Yankee shrewdness which steers them clear of the wiles of the average schemer.

Apart from that, no man is considered reliable until he has been properly introduced by an old Brooklynite. This once done, he is established in their confidence.

Now, Ben Blanchard managed to make his entry into Montague street under the auspices of a certain Brooklynite of ancient and honorable lineage. Through the introduction thus afforded him, the community promoter made a number of acquaintances of a highly beneficial sort.

Among the communities which Blanchard had brought into being I am the skeleton in every nation's were a couple in western Kansas. At closet. I hide myself in the dark re- various points farther west he was cesses behind the silent uniforms in touch with other promoters to whom swaying in the dark. While the guests he introduced "good things" from the make merry and the householders ply East, receiving in return a percentage of the ensuing plunder.

Once a year he was accustomed to guests go out to kill, then I start forth issue invitations for a western trip in the gray shadows of early morning, to the rich and "easy" people whom he met in the East. The junket was done in fine style. A special car with attendants was provided, the food was excellent, at Topeka and the stopping places beyond, the local boards of trade did honor to the distinguished visitors, and so did the local news-My comrade, War, true to his eter- papers to the extent of many columns.

During the very last trip engineered by Blanchard I acted as "historian"-to use the Blanchardian term. In reality, I was his press agent Thus it was that he happened to have a certain experience with railroad superstition.

The party, after visiting Denver and Manitou, was on its way east. At Pueblo, one afternoon, there was a change of engines, and, as it subse-The speaker was Miss Gladys Un- quently turned out, the engineer had orders to "let her lick" across the prairie so as to show the eastern gentry that there was nothing slow about that particular section.

An old-time 'dobe house, not far I like you very well, Gaston, all from the depot had excited the interawaiting their return the writer walked 'But,' said Gaston hotly, 'don't you up the platform, carrying a kodak of into the cab. His fireman followed. wiping his fingers on a clout of greasy by hypodermic injections, and some waste. The camera was made ready for action.

> Dell wheeled sharply as the bellowscatch of the camera clicked. Then he frowned at the instrument and its

"You're sure thinkin' of gettin' a plo ture of this here machine?"

I said that was my plan. "And of me and my pardner?" I nodded.

"Well, I'm saying this, I am. The machine can't get away from you, I But then the unhappy child began s'pose. But I'll be durned if you get to howl with pain. His brother, a year my face or Bill's inside the contrapolder, was likewise distressed, and tion. Why? For reasons-good reasons! I've never had my picture took by one of them black boxes that was owned by a passenger but what trouble of several sorts followed. Ain't that the truth, Bill?"

Bill grunted assent. Then the pair clambered hastily into the cab, and even as they did so the bulb was pressed, and a good negative of two greasy rear-facades was secured.

Dell followed instructions in the matter of speed, as a roaring, swirling wake of dust and dried cactus attested. But the going was too good

Whether the hoodoo in the "black box" bestirred itself, or whether Bill got too busy with the fire shovel, the narrator knoweth not. The fact re-Mrs. Deere-How modestly she mains, however, that less than fifty miles from the starting point the engine and the car came to a jagged

### Infantry Decides the Battle.

While there have been many discussions as to the relative value of the different branches of an army there is little doubt, according to a writer in the Scientific American, that it is the infantry that wins battles.

While it is probable the success of a battle will depend to a large extent The growth of vivisection is indi- on the support of the field artillery, it cated in a White paper just issued. is certain that the principal and most The total number of experiments on important arm is the infantry, which gineer—tall, lank, and sunburnt to living animals in 1913 in England was in practically every case must decide the hue of an Indian—was just getting 88,158 or 4,559 more than in 1912. Of the final issue. The cavalry may be these 81,869 consisted of inoculating the first to be drawn into a battle, and the artillery may destroy the enfew other proceedings performed with emy's artillery, but a battle is never won until the infantry has driven back

The usual mode of advancing for the infantry is to deploy them in a be kept under an anesthetic during line with a long interval between each soldier. This, naturally, is for the purpose of offering a smaller target for the enemy, but makes it more difficult, however, for the leaders to keep as good control over the men, and for that reason one of the objects emy's troops deploy early.

The infantry soldier is armed in all the countries with a rifle and bayonet. The rifle is the weapon upon which reliance is placed, the bayonet being used only as a last means, when in a hand-to-hand encounter with the en emy.

# No Loafing Allowed.

A well-known theatrical manager, more famous, if possible for the "breaks" he made than for his many Samuel C. Reid, ran the blockade of successes, attending the rehearsal of British warships off Sandy Hook and one of his plays, noticed that a man put to sea on what was destined to in the audience who had to play the be her last voyage. # **Rheumatic Throat Is Common Trouble**

opener .- Boston Transcript.

# Should Be Treated in Blood To Prevent Recurrence.

There are successful gargles that stop soreness in the throat, but to prevent their incessant return, the blood must be put in order. The best remedy is S. S. S., as it influences all the functions of the body to neutralize the irritants or waste products and to stimulate their excretion through the proper channels.

Miggs—Courtesy helps business.
Wiggs—Yes, and good business makes a man feel a heap more polite, too.

How It Happened.
"How did the accident happen?" asked the sympathetic friend.
"Well, I'll tell you," replied the man on crutches. "The automobile was going pretty fast and all of a sudden we struck a wet place on the asphalt and there was a noise and the doctor said: "He'll be able to be around in about four weeks."

Immunces all the functions of the body to mand to stimulate their excretion through the proper channels.
Rheumatic sore throat is a dangerous ladication, as it means that the blood is loaded with more uric acid than the kid-toos serious general disturbance.
The action of S. S. S. S. stimulates cellular activity. It prevents, the accumulation of irritants in 'local spots.' It enables the arterles to supply quickly the new red blood to replace worn-out tissue.
For this reason uric acid that finds the throat an easy prey to its breaking-down influence, is scattered and eliminated. In other words, S. S. S. prevents chronic conditions by enabling all the mucous linings of the body to secrete healthy mucus. Its influence is shown in a marked improvement of the bronchial tubes, whereby the huskiness of voice with thick, grayish expectorations is overcome. S. S. S., well diluted with water, means a blood bath, since it is welcome to any stomach and at once gets into the blood.
S. S. S. is free of all minerals and contains ingredients wonderfully conducive to well-balanced health.
You can get it at any drug store, but do not accept anything else. There is danger in substitutes. S. S. S. is prepared only by The Swift Specific Co., 528 Swift Bidg., Atlanta, Ga. Our Medical Dept. will give you free instruction by mail on any subject of blood disorders. Write today.
