Safeguard Against Freak Laws

(Elbert Bede in the Cottage Grove Leader.)

It is said that already plans are being made to place the eight hour law, single tax, proportional representation, and other defeated freak laws on the ballot again at the next election.

All the expense of submitting these measures to the people is to be born again at the next election and at every election thereafter until the measures are carried.

This emphasizes the need of throwing some safeguard and restrictions about the Initiative.

From an economical standpoint a measure that has been overwhelmingly defeated should not be allowed on the ballot again for at least six years.

In order to get any of the worthy measures passed by the initiative it is necessary that there be but a few on the ballot. This result cannot be obtained by permitting the same measures, or similar ones, to be submitted year after year.

The curing of this abuse is going to be a difficult problem, for the reason that authors of measures could change the wording of a defeated measure so slightly as not to affect its provisions materially, yet sufficiently to be able to claim that it is a new measure.

The Empire Mfg. Co., Spokane, and Pendleton Iron Works, have asked Pendleton citizens to subscribe for stock of consolidated company formed to manufacture rotary pump, iceless refrigerator, split wood pulley and other articles.

According to figures compiled by the Salem commercial club, the average monthly payroll of the combined industries of the city amounts to a total of \$151,181.85.

The Douglas county grand jury returned an indictment charging Roy Farnum, suspected murderer of Edna Morgan, of Glendale, with a statutory offense. Bail was fixed at \$5000.

An appropriation of \$75,000 has been made by the federal government to purchase farm machinery, livestock and grain for the Indians on the Warm Springs reservation in central Oregon.

No fatal accidents were reported to Labor Commissioner Hoff during the week from the several lines of industrial activity throughout Oregon. Forty-nine were injured, the railroad, lumbering and paper industries reporting the greatest share. Twelve were hurt in railroad work, 10 in lumbering, and 11 in paper mills.

Secretary Lane, after a long conference with Representative Sinnott and Senator Chamberlain, expressed his willingness that congress should appropriate, without condition, \$450,000 for the construction of a government irrigation project in eastern Oregon, and said he possibly might favor the appropriation of a larger amount, if it should develop that \$450,000 would be inadequate. He gave assurance to both members of the Oregon delegation that he would not insist on a new appropriation by the Oregon legislature to match the amount appropriated by congress.

One of the most gigantic private development projects ever put forward in Oregon was initiated last week when Jason C. Moore, head of a New York syndicate, was granted by the state land board a 45-year lease on Lakes Summer and Abert, in the Deschutes country, for the construction of plants that will manufacture nitrate, potassium, sodium carbonate, bicarbonate, and other materials obtainable from the rich salt deposits in the lakes.
