Rheumatism

Just put a few drops of Sloan's on the painful spot and the pain stops. It is really wonderful how quickly Sloan's acts. No need to rub it in—laid on lightly it penetrates to the bone and brings relief at once. Kills rheumatic pain instantly.

Mr. James E. Alexander, of North Harpswell, Me., writes: "Many strains in my back and hips brought on rheumatism to the extent of nerves. I had it so bad one night when sitting in my chair, that I had to jump on my feet to get relief. I at once applied your Liniment to the affected part and in less than ten minutes it was perfectly easy. I think it is the best of all Liniments I have ever used."

Remembered That. Jock Robinson, having been making merry with some boon companions, finally took his leave and got aboard a street car. Soon he was fast asleep, but was finally aroused by the conductor calling "Robinson street!" Sleepy and befuddled, Jock made answer, "It's no. I treated last time."

Quick Relief When Utterly Worn Out

Getting the Blood in Order Is Required By Most People.

If you think you have gone to smash and fit only for the discard, try S. S. S. for the blood. It will surprise you to know what can be done for health once the blood is released of the excess of body wastes that keep it from exercising its full measure of bodily repair.

If you feel played out, go to any drug store and ask for a bottle of S. S. S. Here is a remedy that gets at work in a twinkling; it just naturally rushes right into your blood, scatters germs right and left, up and down and sideways.

You feel better at once, not from a stimulant, not from the action of drugs, but from the rational effect of a natural medicine.

The ingredients in S. S. S. serve the active purpose of so stimulating the cellular tissues of the body that they pick out from the blood their own essential nutriment and thus repair work begins at once. The relief is general all over the system.

Do not neglect to get a bottle of S. S. S. today. It will make you feel better in just a few minutes. It is prepared only in the laboratory of The Swift Specific Co., 520 Swift Bldg., Atlanta, Ga. Send for their free book telling of the many strange conditions that afflict the human family by reason of impoverished blood.

PROVED CLEVER SPY

Baden-Powell Tells of One of His Experiences.

Equipped as a Butterfly Hunter English Officer Obtained Complete Plans of the Forts That Commanded City of Cattaro.

In the British army we do not make a very wide use of field spies in service, though their special use at maneuvers has shown what they can do. My own work has been largely that of a tactical or military agent, whose business is to study details of armament and equipment in peace time. Now that the war is in progress and many of the methods of spies have been disclosed, there is no harm in going more fully into the subject.

It was once my business to investigate the forts commanding Cattaro, capital of Dalmatia—their positions, strength and armaments. The city lies at the head of a narrow loch some fifteen miles long, in a deep trough between mountains. High above, the mountaintops are studded with batteries—from which, during the present war, Cattaro has been repeatedly bombarded.

I went armed with most effective weapons for the purpose, which have served me well in many a similar campaign. They were a sketch book, with numerous pictures—some finished, others only partly done—of butterflies of every degree and rank, from a "Red Admiral" to a "Painted Lady;" a color box, and a butterfly net. I was "hunting butterflies," and thus equipped I was ready to meet anyone on the lonely mountainside, even in the neighborhood of the forts.

Quite innocently, with my sketch book in hand, I would ask whether he had seen such-and-such a butterfly in the neighborhood, as I was anxious to catch one. Ninety-nine out of a hundred did not know one butterfly from another—any more than I do—so I was on fairly safe ground, and they thoroughly sympathized with the mad Englishman who was hunting these curious insects.

They did not look sufficiently closely into the sketches to notice that the delicately drawn veins of the butterflies' wings were exact representations, in plan, of their own fort, and that the spots on the wings denoted the number and position of the guns and their different calibers.

These are usual enough tactics for an English spy. Sometimes, instead of a butterfly, it is the veining of a

leaf in a botanist's notebook that hides the important military details, sometimes the convolutions of a stained glass window. In any case, the reputation of being a "mad Englishman" is a genuine asset in spying.

—Sir Robert Baden-Powell in Everybody's Magazine.

Where Responsibility Ends.

During the time of the Boer war, a letter had been received by the sergeant major in an artillery regiment from the war office with reference to one Gunner Brown, who reported dead, had arrived at Woolwich. Could a full and satisfactory explanation of same be forwarded? The noncom. thereupon sought the officer commanding the battery, who dictated the following reply:

"Brown was an old comrade of mine. I visited him when dying, and afterwards attended his funeral. Hence, I know that he is dead, and am considerably surprised to hear of his return to Woolwich, but please exonerate me from further blame, inasmuch as I am not responsible for his subsequent movements."

Sermons With "Points."

Canon Hannay maintains that nowadays the most dramatic sermons are preached in Ireland. A friend of his heard a preacher in a Connaught village expatiating on the terrors of hell.

"The lion will roar at yez," he told the congregation. "The owls will hoot at yez, the serpents will hiss at yez, and the hyenas will laugh yez to scorn."

Another Irish preacher, having described how Jezebel painted her face, decked her head, and looked out of the window at Jehu, remarked:

"And would you believe it 'the hussy was nigh on sixty years of age?"

Various Companionships. If one's intimate in love or friendship cannot, or does not, share all one's intellectual tastes or pursuits, that is a small matter. Intellectual companions can be found easily in men and books. PHYSICAL WRECK RESTORED TO HEALTH BY GREAT KIDNEY REMEDY.

I feel it my duty to furnish you with my testimonial as to what your remedy Swamp-Root did for me when I was a physical wreck from kidney and bladder trouble.

Some years ago I was not able to do any work and could only just creep around and am satisfied that had it not been for Dr. Kilmer's Swamp-Root I would not have lived. After using the preparation for one month I was able to work some and when I had used \$5.00 worth of Swamp-Root I could do a good day's work. I used about \$10.00 worth altogether and would not take \$10,000 for the good that it did me. I consider it a God-send to suffering humanity for the diseases for which you recommend it and have recommended it to many sufferers.

N. L. HUGGINS, Sobol, Okla. Personally appeared before me this 20th of September, 1909, N. L. Huggins, who subscribed the above statement and made oath that the same is true in substance and in fact.

Helps Get Three Cents More.

Once a tightwad went to the store to get a piece of rope. The storekeeper sold his rope at eight cents per pound. Mr. Tightwad said as he only wanted to tie up a calf he would take five cents worth. He got the rope. That evening his folks found him hanging in the barn dead.

Sound Advice.

"Don't ax de good Lawd ter send prosperity. Let him see you wid yo' coat off an yo' sleeves rolled high, tryin' ter pitch hard times over de fence, an' prosperity will be settin' at yo' breakfas' table nex' mawnin', and yo' needn't wonder how he got dar!"—Atlanta Constitution.

Alpaca.

In spite of attempts to introduce the alpaca into countries away from its native habitat, failure has attended them. It is rarely found below an altitude of 5,000 feet. Its wool is of an exceedingly fine luster and quality, and occasionally attains a length of six inches.

Ancient Writing Implements. When writing, Confucius used a small brush, like a camel's-hair brush, for a pen, and so did his ancestors for centuries before his time. The reed came into use for writing in the marshy countries of the Orient. It was hollow and cut in short lengths.

The Word "British." "The United Kingdom of Great Britain and Ireland" has, since January 1, 1801, been the official title of the political unity composed of England, Scotland and Ireland. In this sense the word "British" applies to Ireland, but in no other. Politically the "British Isles" include England, Scotland and Ireland.

Useful Cement. To make cement for stopping leaks and holes in iron pipe, etc., secure about two pounds of iron shavings or borings from a foundry; add one ounce of powdered sal ammoniac and one ounce of sulphur. Mix with water to a paste and use at once, as it hardens very fast. This will resist heat and water and will be found useful for many purposes. Steel wool or shavings may be secured from any paint or drug store.

LOSING HOPE WOMAN VERY ILL

Finally Restored To Health By Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Woman's Precious Gift.

The one which she should most zealously guard, is her health, but it is the one most often neglected, until some ailment peculiar to her sex has fastened itself upon her. When so affected such women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Unpopular Listeners. "I really dislike to talk to her; she has such a habit of finishing one's sentences for one. You know the kind?" "Yes; they listen faster than you can talk to them."

Wives! Mothers! Daughters! Just a Word With You!

A woman's organism is a very delicate thing—it very easily gets out of order—just like a delicate piece of machinery, it requires more than ordinary care and attention.

There are many signs which point to disorder, such as headaches, unaccountable pains in various parts of the body, listlessness, nervousness, irritability, dizziness, faintness, backache, loss of appetite, depression, and many others.

Dr. Pierce's Favorite Prescription has been the means of restoring thousands of suffering women to natural health and strength. For more than forty years it has been successfully carrying on this great work. Today it is known throughout the length and breadth of every land. Women everywhere look upon it as a helpful friend. Let it aid you.

Old Valencian Industry. The making of glazed tiles or "azulejos" is the only ancient Valencian industry which has retained its importance through the centuries up to the present day. To Remove Mildew Stains. Mix a small quantity of soft soap with the same proportion of powdered starch and salt and the juice of a lemon. Apply this mixture to both sides of the stain with a small brush, and, if possible, let the article lie on the grass all day and night until the stains have quite disappeared. Then wash in the usual way.

Attacked in Front and Rear. A youngster of our acquaintance who has a faculty for getting into scrapes recently expressed the wish that he was a postage stamp. When asked why, he answered: "Because a postage stamp can only be licked once." Whereupon we pointed out that the stamp received, besides the licking, a severe punch in the face.

Came Together. George and Robert are twins. One day when they were about eight a little playmate neighbor boy of about the same age came running up to where they were playing in the yard with this startling exclamation: "Oh, say, I got a little brother at my house; he came last night." "Hub, that's nothing," said George. "I brought my brother with me when I came."
