8 p. m. Thursday, choir practice.
Rev. Wm. H. Amos, Pastor.

St. Peter's Catholic Church

Sundays:
8 a. m. Low Mass.
10:30 a. m. High Mass.
8:30 a. m. Sunday School.
12 M. Choir rehearsal.
Week days: Mass at 8 a. m.

Seventh Day Adventist Church

10 a. m. Saturday Sabbath School.
11 a. m. Saturday preaching.
7:30 p. m. Wednesday, Prayer meeting.
7:45 p. m. Sunday preaching.

German Evangelical Reformed Church

10 a. m. Sunday School.
10 a. m. Saturday, German school.
8 p. m. Wednesday, Y. P. S.
11 a. m. Sunday worship.
Th. Schildknecht, Pastor.

Kern Park Christain Church

Corner 69th St. and 46th Ave. S. E.
10 a. m. Bible School.
11 a. m. and 8 p. m. preaching service.
7 p. m. Christain Endeavor.
8 p. m. Thursday, mid-week prayer meeting.
8:45 p. m. Thursday, Bible Study Class.
A cordial welcome to all who will attend any all services.
R. Tibbe Maxey, Minister.

St. Pauls Episcopal Church

One block south of Woodmere station.
Holy Communion the first Sunday of each month at 8 p. m. No other services that day.
Every other Sunday the regular services will be as usual.
Evening Prayer and sermon at 4 p. m. Sunday School meets at 3 p. m. B. Boatwright, Supt., L. Maffett, Sec. Rev. O. W. Taylor, Rector.

Lents Evangelical Church

Sermon by the Pastor, 11 a. m. and 7:30 p. m.
Sunday School 9:45 a. m., C. S. Bradford, Superintendent.
Y. P. A. 6:30 p. m. Eva Biehoff, President.
Prayer meeting Thursday 8 p. m.
A cordial welcome to all.
T. R. Hornsuech, Pastor.

MT. Scott Center of Truth.

Meeting every Sunday evening at 8:00 p. m. Three doors east of 82d St., Grays Crossing, Portland, Ore.

Lents Friend's Church

9:45 a. m. Bible School, Clifford Barker Superintendent.
11:00 a. m. Preaching services.
6:25 p. m. Christian Endeavor.
7:30 p. m. Preaching services.
8:00 p. m. Thursday, mid-week prayer meeting.
Junior Christian Endeavor meets Friday after school.
A cordial welcome to all these services.
Rev. John Riley, Pastor.

Lents Baptist Church

Lord's Day, March 28, Bible School
9:45 a. m.
Morning worship, 11 a. m.
Elmo Heights Sunday School, 2:30 p. m.
B. Y. P. U., 6:30 p. m.
Evening worship, 7:30 p. m.
A cordial welcome to these services.
J. M. Nelson, Pastor.

Lents M. E. Church

Preaching 10:45, subject: "Dreadful Effects of Sin."
Sunday School 9:45.
Epworth League 6:30.
Prayer meeting Thursday 7:45 p. m.
Evangelistic services 7:45.
Special meetings will begin Thursday, April 1. The speakers that will assist in these meetings are: Drs. E. O. Eldridge, R. E. Smith, C. C. Rarrick, Frank L. Loveland, C. O. McCulough, T. B. Ford, C. L. Hamilton, and Rev. J. Stanford Moore, W. H. Hampton and the local ministry of the church.
W. Boyd Moore, Pastor.

Letter heads, envelopes, cards, bill heads, auction notices and posters, dodgers, announcements, etc, at Mt. Scott Pub. Co., office, Lents.

BREEZY ITEMS CONTRIBUTED BY HERALD REPORTERS AT NEARBY POINTS

CHERRYVILLE

The sun has crossed the line, and the weather is certainly fine. It is a pleasure to be alive in Oregon this spring, all winter in fact. An unusual fine show for fruit of all kinds at this time, and nothing but late frosts or a very protracted period of cold rains will destroy it and then only in part. Lane, the Watkins medicine man of Gresham, was in town this week and says he finds very little—almost no money in fact—in the hands or pockets of the people. Hardly anyone is prepared to pay their little bills. In the meantime the banks are stuffed full of money and they won't loan it out even at the most frightful terms. A big bluffer recently passed through town, who said we would have but little improvement in times until the "Old-standpatters" got fully reinstated in power, which would not be until after the next national election. This is a long time to go hungry. One of our young men was arrested this week for taking fish out of a trap at the dam by the man in charge at the hatchery, who claimed he saw him carrying away fish early Sunday morning. He was returning from a dance in company with another young man and three young ladies and crossed the river at the dam. At the trial all the young people swore they took no fish and the accused was released. This trial was a jury trial and after the verdict was rendered the fish wardens were very nearly hooted out of town. People are getting in that condition that they have little respect for law as it is administered. They know that it is in the interest of the favored few and that the large mass—who are fast becoming reduced to poverty—have no more show than a rabbit.

The interest at the Literary Society and Debating Club has kept up wonderfully well all winter and spring and each meeting the house the has been filled. A great many questions of national importance have been settled to the minds of some at least, and a great deal of information has been diffused. One of our neighbors secured a loan not long ago by giving a cut-throat mortgage at eight percent with a \$50 bonus added which he never got, but upon which he has to pay also 8 percent. In Ireland the wretched tenants along the shore of the Irish sea are required to pay \$5 and \$10 an acre rent for miserable sandy sea-shore land which they are compelled to fertilize in order to have it produce and as they are too poor to keep stock they drag help of the sea for which they are also charged, to make into potash to put on the land. When they fail to pay they are instantly thrown out of their wretched hovels into the road. The only way for them to pay is to get money from friends in America while the men work in the haying and harvesting fields in England and the women knit stockings and other knit goods. And yet these cannibal landlords are all orthodox christians, attend church regularly and pay the preacher promptly for hollering about the virgin birth and the proper way to baptize. They are yearly building bigger churches and cathedrals with money wrung from wretched and ruined peasants. It is small wonder that they are involved in a frightful war but the worst misery falls on the poor after all.

PLEASANT VALLEY

Mr. and Mrs. Geo. Taylor have returned from a three month's stay at Detroit, Ore. Gus Richey is down from Corvallis and will spend a couple of weeks visiting with relatives and friends hereabouts. Mr. and Mrs. Clyde Sager of Lents visited Sunday afternoon with Mr. Sager's brother, G. N. Sager. Mr. and Mrs. T. P. Campbell motored up to Latourell Falls last Sunday and report a fine trip. Mr. and Mrs. I. F. Coffman of Lents were out to their Valley farm Monday. Mr. and Mrs. W. G. Rogers entertained friends from the city Sunday. Mrs. E. L. Bort and sons Frank, Florin and Neal, left last Thursday for Mrs. Bort's old home in Minnesota. Mrs. Frank Stevens and daughter, Miss Laura, visited with friends in the Valley Monday. Mr. and Mrs. W. F. Garrison transacted business in Gresham last Wednesday.

P. L. Bliss has about completed an up to date milk house. Mr. Bliss is building up a splendid dairy herd. Will Richey is assembling material on the ground for a new barn which he expects to have ready in time for the new crop that is coming on. The old Boone Johnson farm has again changed hands. We have not learned the new owner's name nor any particulars of the transfer other than it was a cash sale. P. F. Uhlig has invested in a new "Ideal" spraying outfit which certainly does the work in a satisfactory manner. Pleasant Valley Grange meets in an all day session Saturday. The question for

discussion during the lecture hour is, "the relation of a payroll to the community." Mr. Himebaugh will lead in the discussion. Miss Laura Moore will have charge of the young people's part of the program. The question of road bonds will probably be discussed briefly.

Mrs. Thomas A. Edison, as social leader of West Orange, N. J., has been instrumental in getting the moving picture shows closed on Sunday. "It would be well" said Mrs. Edison "for the people of West Orange as well as everywhere else, to hark back to the example of our forefathers and stay quietly at home on Sundays. We should not be so anxious for amusements at all times, but try to cultivate the home idea, especially on Sundays." We would all be better citizens if we followed the example of the West Orange people.

GILBERT

The new school building is nearing completion and promises to be a modern up-to-date piece of architecture, something which the District can look upon with pride and pleasure.

The road which has recently been opened and which is to be the entrance, has been named Park Drive by the residents and is being graded by the road commissioners. We understand a walk will be added. It is to extend from Buckley Avenue, on the west, to Gates Road in the east.

Mr. S. E. Johnson, who has been living on Foster Road, in the house of Mr. E. D. Hurrell, has moved near Bellrose on the Gates Road. The place he vacated was filled immediately by Geo. S. D. Feran, of Portland, who we understand is an accomplished Auto Mechanist. There are no empty houses, heads or hands in this vicinity.

The special meetings held at Bennett Chapel are deeply indebted to Mr. Geo. L. Carr, for the strong, earnest and inspiring sermons which he has given. Mrs. W. Boyd Moore, also deserves the unanimous thanks of the people here for her loyal and effective help. We believe the Pastor has not spared himself in any sense, but has devoted himself faithfully and fully to the work.

Magazines For The Taking

The following magazines are now taken at the Lents Library. All except the last number of each can be taken out for one week.

Century, Child Welfare, Current Opinion, Current Events, Delineator, Garden Magazine, Good Housekeeping, Harper's Magazine, Harper's Weekly, Home Needlework, Independent, Ladies' Home Journal, McClure's Modern Priscilla, National Geographic Magazine, Outlook, Outlook, Pacific Poultry Craft, Popular Mechanics, Readers' Guide, St. Nicholas, Scientific American, Sunset, Survey, Technical World, World's Work, Youth's Companion.

Electric Bitters a Spring Tonic.

Human Levers.

All man made machinery runs with wheels. Yet there is not a single wheel in the human body. And the human body is the most perfect piece of mechanism in the world. It seems strange that man has developed mechanics along all lines but those with which his own body works. Practically every motion we make is performed by the direct operation of levers, and living creatures are the only machines so built. Almost all these human levers are of one kind, that commonly called the third. There are three kinds of levers: (1) that in which the fulcrum is between the power and the weight, or resistance, as in a pair of scissors; (2) that in which the fulcrum is between the fulcrum and the weight, as in a pair of grass clippers. It is true that each of these forms of levers is used in mechanics, but no great machine has ever been built on the purely lever principle.—New York World.

Gave Napoleon Advice.

Napoleon Bonaparte had no more devoted and disinterested friend than Gaspard Monge, the illustrious academician and founder of L'Ecole Polytechnique. On one occasion he demonstrated his regard by giving the great general some unwelcome advice. Napoleon announced his intention of reading a paper to the French institute. Monge frankly expressed his disapproval of the plan. "You have not time to write a good paper, and you cannot afford to write a poor one. The eyes of the world are upon you. Whatever you write will be severely criticised." Napoleon was astonished and indignant at this plain speaking, but he never wrote the paper.

HOW TO MAKE THE FARM KITCHEN AN EFFECTIVE WORKSHOP

Improvement in the arrangement of the farm kitchen will result in saving the energies of some 8,000,000 people and make their work less heavy and more enjoyable, according to Farmers' Bulletin No. 607, issued by the U. S. Department of Agriculture.

This Bulletin, entitled "The Farm Kitchen as a Workshop," discusses not merely the proper location of the kitchen with reference to other parts of the house, but gives details as to the best methods of treating its floors and walls, and gives well tested floor plans for the step-saving arrangement of the sink, stove, table, and other kitchen utilities.

The author of the bulletin states that a small, compact kitchen saves many steps and much useless labor in the preparation of food. This, however, is in homes where the kitchen is merely a workshop, and not used also as a general purpose room where meals are served and where the family gathers to enjoy the warmth of the stove. Even where a large kitchen is needed for such purposes, however, a logical arrangement of its various features with relation to each other will enable the housewife to do her work much more efficiently.

Whether the chief exposure of the kitchen shall be north, east, south, or west, is a matter governed by individual preference and local conditions. A kitchen which receives the morning light is usually desirable. Effort should be made, however, to secure light from two directions and cross ventilation. For this purpose, the kitchen should be located either in a corner of the house or in a narrow part where there can be windows on opposite sides. It is well, also, to locate the kitchen so that clouds of dust may not be blown in from the road, and it is of even greater importance that the kitchen be so located with reference to barns and other out-buildings that the prevailing winds will not bring unpleasant odors or flies from them.

In many farm houses a very large kitchen is provided, because it must handle the unusual cooking for harvest hands. The writer points out that it will be better to provide a temporary shed or a kitchen on the porch, with oil stoves or other cooking devices, to handle this unusual rush and thus allow the housekeeper to have a smaller kitchen during the rest of the year.

The size of the kitchen, unless a large pantry or a storeroom is provided, is also governed somewhat by the amount of supplies which must be stored. In the case of a farm distant from town, supplies necessarily must be bought in bulk and need sufficient storage space. In such cases, it is sometimes wise to provide an extra pantry or storage room. In arranging the pantry, however, especially if it be between the kitchen and dining room, care should be used not to make it too large, as a long passageway between these two rooms adds necessarily to the labor of the woman.

The kitchen, should be so located that it will be especially convenient to the pantry, dining-room, storeroom, cellar and wood shed. At the same time, access to other parts of the house should be easy from the kitchen, although, as the writer points out, it is unfortunate if the kitchen is made the principal entryway to the house. She particularly urges that it be on the same level with the pantry and dining room, as steps, even if only one or two, mean the extra work of lifting and lowering the body up and down them many times a day and lead inevitably to greater breakage of crockery. The bulletin is very specific in condemning kitchens in basements. It very emphatically urges that general traffic through the kitchen be reduced as much as possible, and especially that it be not made a place where outer clothing and hats are hung.

The floors, walls and ceilings should have a plain surface and be free from cracks, ridges, moldings, or other raised ornaments which catch dust and dirt, are difficult to keep clean, and afford harboring places for insects. Walls covered with washable paint or washable wall paper are easier to clean than those simply tinted, though the latter can be readily renewed. Light colors are preferable, greenish grays being desirable if the exposure is toward the south, and light yellows or creams if the kitchen gets its light principally from the northeast.

Of course, tiling or vitrified brick or metallic tiling are better than paint, tint, or wall paper, which have to be renewed, but these are more expensive. Where the walls are painted, a better surface results when a coat is applied every year or two than when several coats are applied at once. A final coat of enamel paint or outside varnish is desirable for woodwork that needs cleaning frequently. The ceiling may be finished with whitewash or one of the commercial preparations.

Unfinished wooden floors are one of the great burdens of the housewife, as they can be kept clean only by frequent scrubbing, and in spite of care shows spots and stains. Soft wood quickly becomes rough and splintered. Soft woods can be bettered by the application of special floor paints. Hard woods

can be made less absorbent by the applications of wood fillers which are common commercial preparations. Where unseasoned boards are used, cracks are likely to occur from shrinkage, and these should be filled, putty being sometimes used—and sometimes commercial preparations designed for this purpose.

Lighting, ventilation and heating are particularly important in the kitchen. For ventilating purposes, a window that goes to the top of the room, with a top sash that can be readily raised and lowered, is especially good, as it lets out the hot air which naturally rises. A window pole can be provided for closing the top sash. In lieu of a window opening at the top, small windows for ventilating purposes may be provided near the top, over the cupboard, table or sink. These will be most convenient if they are hinged and arranged so that they can be opened and closed by pulley and rope. There can hardly be too many windows in a kitchen. Glass panels in doors also allow light to penetrate into dark places in closets or passageways. Where there is danger of breakage, wire glass should be used, and where privacy is desirable, frosted or similar glass can be selected.

In the Northern States during cold weather the windows in the kitchen should be provided with a board which fits below the lower sash of the window, with the lower sash shut upon it. This arrangement will admit air between the two sashes without drafts. Very good ventilation without great loss of heat may be obtained by the use of window screens covered with cotton cloth. These allow the outside air to enter without a draft, and also keep out dust and dirt.

NOTES OF THE W. C. T. U.

At 1:30 o'clock on Friday afternoon of this week occurs the medal contest offered by the Mt. Scott Union to the Lents public school. This work was inaugurated last year at which time three separate entertainments were held and three silver medals awarded. It was decided this year to hold the contests of the different grades on the same afternoon, and this will be done next Friday, at which time three silver medals will be awarded to the contesting pupils. This medal contest work is the work in which Mt. Scott Union takes a greater interest than in any other now before it, and it is hoped that every patron of the Lents school who can possibly do so will be present Friday afternoon and witness the exercises. The winning of three medals at this time will make it possible to hold a gold medal contest later in the school year.

The meeting of Mt. Scott Union was held this week at the home of Mrs. Donaldson. Refreshments were served. Mrs. H. A. Bonnette presided at the piano and Mrs. Mary Mallet spoke on "Loyalty to the Work and Plans of Leaders," which thought she applied to all leaders in all works: having chosen your leaders be loyal to them. Mrs. Mallet has been given the medical temperance work in the state, Martha M. Allen, M. D. having charge of the National Department. "The moral aspect of temperance work," Mrs. Mallet said, "first appealed to temperance workers, then the financial aspect—the great loss to the family and to society through the liquor traffic; now the physical side of the question—the injury to the bodily structure of the individual—is the appealing phase," the one to which she is bending her energies. Mrs. Lola G. Baldwin was quoted as saying that the great need in the city of Portland today is a detention home for intoxicated women; women who now are put in jail and then turned out to go and get drunk again. With a detention home these women could be retained there until their systems are freed from alcohol taint and they be given an opportunity to start a better life. Of all horrors, an intoxicated woman is the most repellant, and every opportunity to rid society of these abominations should be encouraged. The vice-president, Mrs. Sommerfeldt, conducted this meeting.

At a recent meeting of the state executive, held in Portland, greetings were sent Mrs. Lucia Faxon Additon. Mrs. Annette Brown, of Albany, has charge of the Institute work in the state and is particularly anxious that every local union shall hold at least one institute during the year. If Mt. Scott does this, now is the time to get busy. Mrs. Sommerfeldt and Mrs. Scott attended this executive meeting.

At some date soon to be announced a special meeting will be held at the home of Mrs. McKinley, at which time Prof. Morris, the phrenologist, will give a character reading of such subjects as may appear before him. This is to be a mother's meeting, mothers being expected to bring their children with them to be examined by the lecturer.

The next meeting of Mt. Scott Union will be held at the home of Mrs. E. M. Scheuerman on April 13th.

WANTED—A good reliable man or woman to solicit subscriptions. Enquire at Herald office.

The Herald \$1 per Year

TREMONT, KERN PARK, ARLETA

W. J. Jeffries is building a new residence at 69th street and 57th avenue.

Mrs. Jacque Willis of Kenton spent Friday with Miss D. Ethel Woodham Friday.

Mrs. Wm. Smith of the Rex Arms apartments spent Wednesday with friends at Kern Park.

Mr. and Mrs. Bates of New York, enroute to Frisco, are visitors of Mr. and Mrs. Ed Griffiths of 67th street.

Mrs. E. J. Howard visited her daughter at Forest Grove, last Saturday, visiting a college operatta Monday evening.

Rev. Spriggs and wife of the Baptist Church entertained fourteen guests at dinner on Wednesday evening of last week.

Wm. Woodham has been entertaining his brother and family of Long Beach and sister, Mrs. Mary Spurrell of Woodlawn, Wash.

Rev. Taylor of St. Paul's Episcopal Church of Woodmere was unable to occupy his pulpit Sunday on account of illness.

The Arleta W. C. T. U. will meet at the home of Mrs. Snider, 4418, 79th street, Tuesday, March 30. The leader of the afternoon is Mrs. V. Spriggs.

A fire at 85th and Powell Valley Sunday afternoon in a one story, frame barn belonging to J. D. Small, destroyed property estimated at \$2500. It is thought that boys set the fire.

The Ladies Guild of the St. Paul's Episcopal Church at Woodmere meet every alternate Wednesday afternoon. On the 20th of this month it met at the home of Mr. Harris on 73d avenue and tied a comfort for the Ladies Home.

A basket social was given at the Franklin high school on St. Patrick evening. It was the first basket social at the school and it proved a great success. Over \$40 was cleared. This money goes to buy the girls basket ball suits.

A union prayer service will be held next Tuesday at the U. B. Church, 67th street and 37th avenue. Mrs. Meyers is leader. Everybody welcome. The slogan is: "Bigger—Better—Busier East Side."

The C. E. of the Laurelwood Congregational Church are to hold a stereopticon lecture and social Friday evening at Lucky Cottage. All the young peoples' organizations of Arleta are asked to attend. The C. E. state officers are to be present.

Department 31 of Kern Park put in a busy week, just past. A fire at 5622, 65th street destroyed a three room, one story house belonging to Mrs. M. Compton, a widow with three children, Saturday evening. The fire was caused by an over-heated stove. The department was unable to save it.

The Y. P. B's are planning a moonlight hike for next week. The young people are doing a good work in Arleta and we hope that any of the problems for young people's amusement could be laid before us as it is our aim to remedy the same.

The Kern Park Christian Church is preparing a special Easter program. The choir leader has been preparing a good program for the morning service. The public is invited to attend. The church is enjoying good conditions and the Bible school under the direction of Mr. Swope is in a prosperous condition.

The R. C. Gollings home at 74th street and 58th avenue was ruined by fire at one o'clock Saturday morning. Building and furniture both went. It was insured for \$2000. No cause for the fire can be given. The next house west was also set on fire but was only a partial loss. Department 31 was on the scene as soon as could be after being called and did good service as did also the Volunteers from Grays Crossing and Tremont.

No Use to Try to Wear Out Your Cold It Will Wear You Out Instead

Thousands keep on suffering Coughs and Colds through neglect and delay. Why make yourself an easy prey to serious ailments and epidemics as the result of a neglected Cold? Coughs and Colds sap your strength and vitality unless checked in the early stages. Dr. King's New Discovery is what you need—the first dose helps. Your head clears up, you breathe freely and you feel so much better. Buy a bottle today and start taking at once.
