Starvation.

What is it? What occurs? What part of the human mechanism falls first or last, when a person is deprived of food for a certain period of time? This is what takes place: During starvation the body loses weight, the various functions (walking, sitting up, etc.) become weaker, the body temperature first rises, then falls, and death supervenes after the loss of about 40 per cent of the body weight. The loss is not equally distributed among the various tissues, as the muscles and fat lose the most, then the bones, skin and liver, and (least of all) the heart, brain and spinal cord. Some persons starve without actually being denied food. Certain constitutional diseases bring on conditions which cause loss of weight and great weakness of every portion of the organism; the food eaten does not feed the disease ridden tissues and a state of starvation follows. Thus a person may starve even in the midst of plenty. Marked loss of weight, while in seeming good health, is a positive indication of some serious systemic disorder, which if treated in time will prevent further loss of weight and avert starvation and death.

SELLS-FLOTO-BUFFALO BILL SHOWS IN PORTLAND

The circus is coming; coming with its wagons of gilt and glitter, with its strange animals, with its beautiful women on horseback and everthing else that goes to make up a wonderful, happy day beneath the great spreading tents. For on May 24 and 25 there will arrive in Portland the Sells-Floto Circus and Buffalo Bill's Original Wild West for two day's exhibition, afternoon and night.

Many features are with the circus this year, principal among which are Col. William Frederick Cody (Buffalo Bill) with his entire retinue of Indians, riders, ropers, cowboys, cowgirls, rangers, soldiers and vaqueros; and Rosa Rosalind, the Maid of Mystery. Never in the history of America has there been an equestrienne like Rosa Rosalind. One after another she turns airsets, "flips" and somersaults upon the back of a plunging horse until it is almost impossible for the eye to follow her.

Then, too, there are many other features to be seen with the big show this year. Captain Recardo and his lions, Lucia Zora and her three herds of performing elephants, Devlin's Zouaves, the forty clowns, Rhoda Royal and his horses, and hundreds of acrobats, aerialists, contortionists and tumblers.

The price of the circus this year? The same as ever, a general admission of 25 cents, including a seat. Two performances are to be given, one at 2:15 in the afternoon and another at 8:15 at night. Doors will be opened an hour earlier.

A Daily Spectacle in Spain Between Alcala and Seville.

Bread made in Alcala, Spain, is of such exceptional goodness that the village is famous throughout the country as "Alcala of the breadmakers." Each loaf is carefully stamped with the trademark of the town before baking.

An early train leaves Alcala daily for Seville, and before daylight long lines of pannier laden mules begin to arrive from all directions. At the station the panniers are removed and placed in freight cars, the donkeys being driven into similar cars, and mules, drivers and bread are all transported by train to Seville.

Here amid scrambling, hallooing and shrill cries the animals are unloaded, panniers adjusted, and the bread sellers go forth into the streets of Seville, calling their wares and boasting of the fineness of the Alcala bread. They return at midday, pack their empty panniers into the cars, drive in the mules, light their cigarettes and enter the third class carriages to be taken back to their home town, ready for the following day's trade.

A charge of 18 cents is made by the railway company for the round trip of donkey, man and bread.—Argonaut.
