#### By Peter Radford.

This country is suffering more from tainted politics than from any other malady at the present time. There is scarcely a campaign speech made, a platform demand written or a measure enacted into law that does not carry the taint of personal gain of some politician or political faction thereof.

There is more "blue sky" in campaign promises of many politicians running for office than was ever contained in the prospectuses of the boldest promoters of chimerical business schemes. There are more secret combinations formed by politicians in the name of "My Country" than were ever formed under any and all other aliases. There are more political rebates hidden in the phrase "Be it enacted" than were ever concealed under any and all other disguises.

The inordinate thirst for political power and unrestrained passion for mastery has caused more distress in this nation than the greed for gold, and it ought to be regulated by law. No business combination ever pursued their competitors as relentlessly or visited more heartless cruelty upon their customers than a political party that seeks to make junk of an industry, or cripple a business for party success, through tariff measures, political supervision and ofttimes destructive legislation. Many political platforms are as alluring to the voter as the story of the rainbow with its pot of gold and their consummation about as far-fetched. Self-gain is the first law in politics. There are many men in office today who, if they could not shake plums off the tree of American liberty or cut a melon taken from Uncle Sam's commissary, would have less desire to serve the public

The country is surfeiting with patriots, who will bare their breast to bullets in defense of their country, but there are few men in public life who will bare their breast to voters or run the gauntlet of party disfavor in defense of agriculture or industry. No representative of the people, who will permit personal prejudice to dethrone justice, party success to disfranchise reason or the rancor of a political campaign to influence judgment can render capable service.

The preservation of our prosperity depends upon wisdom, courage and honesty in government, and the American voter should seek these attributes as implicitly as the Wise Men followed the Star of Bethlehem and they will often be found to rest over the stable; the plow or the staff of the Shepherd. The surest cure for tainted politics and machine rule is fresh air and sunshine and these important elements are most abundant upon the farm, and when farmers, bankers and merchants are elected to membership in legislative bodies, much of the trouble in government will dis-

TAINTED POLITICS WHY IS WOMAN **BESTI FSS?** 

> DESYINY OF NATIONS DEPENDS one old-timer here says we are to have UPON CONTENTED HOMES.

### By W. D. Lewis.

President Texas Farmers' Union. Chinooks were at the foot of the dam Why is woman dissatisfied? Why when the rack was removed and they does she grow restless under the soon began to climb the fish ladder for crown of womanhood? Why is she weary of the God-given jewel of mothfarther up. erhood? Is it not a sufficient political achievement for woman that future rulers nurse at her breast, laugh in her arms and kneel at her feet? Can ambition leap to more glorious heights than to sing lullables to the world's greatest genuises, chant melodies to master minds and rock the cradle of human destiny?

God pity our country when the handshake of the politician is more grati- Europe and Asia Minor and for which a fying to woman's heart than the pat- fabulous price is paid. ter of children's feet.

#### Woman Is Ruler Over All.

Why does woman chafe under ro it is an excellent keeper. Young trees straint of sex? Why revile the hand here have made an astonishing growth of nature? Why discard the skirts and it is the intention of parties to plant that civilization has clung to since the beginning of time? Why lay aside this hallowed garment that has wined the tears of sorrow from the face of childhood? In its sacred embrace every generation has hidden its face state, Albert Brownell, is better adaptin shame; clinging to its motherly folds, tottering children have learned to play hide and seek and from it also the climate. Mr. Brownell is deyouth learned to reverence and respect womanhood. Can man think of his mother without this consecrated garment?

Why this inordinate thirst for power? Is not woman all powerful? Man cannot enter this world without her consent, he cannot remain in peace without her blessing and unless she sheds tears of regret over his departure, he has lived in vain. Why this longing for civic power when God has made her ruler over all? Why crave authority when man bows down and worships her? Man has given woman his heart, his name and his money. What more does she want?

Can man find it in his heart to look with pride upon the statement that his laced it takes on even a higher finish honorable mother-in-law was one of the most powerful political bosses in cedar. These chests are moth proof, the country, that his distinguished grandmother was one of the ablest filibusters in the Cenate or that his mother was a noted warrior and her name a terror to the enemy? Whither are we drifting and where will we land?

#### God Save Us From a Hen-Pecked Nation.

I follow the plow for a living and which is being used more and more for my views may have in them the smell a wood preservative, and 65 percent of the soil; my hair is turning white heretofore used has been imported from under the frost of many winters and Europe which now the war shuts out. perhaps I am a little old-fashioned. At the same time unlimited quantities but I believe there is more moral in- of this creosote can be distilled from fluence in the dress of woman than in the fir trees which extend for miles in all the statute books of the land. The Herald \$1 per Year

Much has been said and more written about the evils of watered stock in big business concerns and the farmers of this nation believe that every dollar written into the life of any business organization, should be able to say "I know that my Redeemer liveth," but farming is the biggest business on earth, and there is more water in its financial transaction than that of any other industry. There is as much water in a farmer's note drawing eight or ten per cent interest when other lines of industry secure money for four or five per cent per annum, as there is in a business paying a reasonable compensation upon the face value of securities representing an investment of only fifty

By Peter Radford.

cents on the dollar. The only difference is, the water is in the interest rate in one instance and in the securities in the other.

The promoter ofttimes takes chances and his success is contingent upon the development of the property involved but the usurer, as a rule, takes no chances and his success cripples the property involved. There may be industries that cry louder but none that suffer more severely from financial immorality in both law and custom than that of agriculture.

The farmers of America today are paying \$200,000,000 per annum in usury on real estate and chattel loans, and this interest capitalized at five per cent, represents \$4,000,000.-000 of fictitious values which the farmer is paying interest on. This sum of money is almost equal to the annual value of crops produced in the United States.

The earning power of the farmer's note based upon his interest rate very nearly divides likes the earth's surface-three-fourths water and onefourth land. The largest body of water that floats upon the financial hemisphere now rests upon the farms and its waves are dashing and its billows are rolling against seven million homes threatening ruin and disaster to the prosperity of the nation. Will our public servants who under-Local 2011 stand how to drain the liquid off industrial properties turn the faucet and let the water off the farms?

> It is an admitted economic fact that there can be no permanent prosperity without a permanent agriculture.

Agriculture is recognized as the greatest of all industries and a prosperous, progressive and enlightened agricultural population is the surest safeguard of civilization.

an agency for morality, I wouldn't every direction. wouldn't give one prayer of my saintly poor people at work. mother for all the women's votes in Christendom. As an agency for good government, I wouldn't give the plea of a mother's heart for righteousness for all the oaths of office in the land. There is more power in the smile of woman than in an act of congress. There are greater possibilities for good government in her family of laughing children than in the cab-States.

The destiny of this nation lies in the coming year at an advanced salary, the home and not in the legislative but as yet he has not accepted the posihalls. The hearthstone and the fam- tion ily Bible will ever remain the source of our inspiration and the Acts of the Apostles will ever shine brighter than the acts of Congress.

This country is law-mad. Why add to a statute book, already groaning served. under its own weight, the hysterical cry of woman? If we never had a chance to vote again in a lifetime and Ira Byers home. did not pass another law in twentyfive years, we could survive the ordeal, but without home, civilization would wither and die.

God save these United States from becoming a hen-pecked nation; help us keep sissies out of Congress and forbid that women become stepof the farmers of this country.

#### A DIVINE COVENANT.

God Almighty gave Eve to Adam with the pledge that she would be his helpmeet and with this order of companionship, civilization has towered tionship, God has blessed woman and man has honored her and after four thousand years of progress, she now proposes to provoke God to decoy man by asking for suffrage, thereby by amending an agreement to which she was not a party.

Woman, remember that the Israelite scorned a divine covenant, and as a result wandered forty years in the wilderness without God. Likewise man should remember that it is a dangerous thing to debase woman by law. Rome tried lowering woman's standard and an outraged civilization tore the clothes off the backs of the human race and turned them out to roam in the world naked and unashamed.

A retort for distillin give my good old mother's home- this product and other by-products can made gowns for all the suffragette's be purchased for something over a \$100. constitutions and by-laws in the world.
