\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ABOUT POULTRY.

The hens should be dusted with a good insect powder. Many of the powders that are sold are no better than dry earth, having lost most of their efficiency. You can make a good lice powder by taking three parts gasoline and one part crude carbolic and mixing it with plaster of paris. Put a little of the liquid on to the plaster of paris and mix thoroughly till it is dry. Then apply to the feathers of the hens.
Geese ought to be shut up to fatten for a month before they are killed. To get a successful result it is most essential to keep them eating all the time, and to do this they must be carefully watched at feeding times, and any bird which does not respond to the call of the pail should be given a teaspoonful of warmed castor oil at once.
Have you plenty of good clover or alfalfa hay, and have you been buying wheat bran for your hens? If so you have been throwing away your money. Not all of it, but you have wasted a good deal nevertheless. Alfalfa is virtually as rich a feed as bran. Good clover hay is almost as rich. In some respects these feeds are preferable to wheat bran, for they are not so irritating to the bowels.
