"It is astonishing how many business men can be talked into taking space in a chart, or frame, or register, or some other thing that has no excuse for existence. A salesman will get more for his worthless card than a country publisher would. Is it people who have been thus duped who complain that advertising does not pay?"

AVOID SPRING COLDS
Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. It is already prepared, no mixing or fusing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.

Muck Makes Statement
(Continued from page 3)
tire time to politics and to the perpetuation of themselves on the public payroll instead of improving their opportunities to be of real service to their fellow citizens of Multnomah County.
I believe in giving the freest publicity to all county affairs and in that way keeping the voters of the county advised at all times regarding the county administration. Any acts of the Board of County Commissioners that cannot be given the widest publicity are condemned in the public mind and should not be tolerated. There should be no mysteries about the Court House.
I desire to have the road department

of the county devote more attention and effort to the improvement of roads serving the farmers and reaching the undeveloped parts of the county, and in that way open up for use the fertile and productive lands which today are either idle and unproductive or else are being tilled under most adverse conditions.
I believe in the most open competition in making the county purchases and particularly in buying pavement and road machinery and supplies. I believe that all types of pavement should be considered on a parity and bought strictly upon their merits as pavements. Other things being equal, I will prefer Oregon manufactured products, and the employment of Multnomah County people, in all lines of county work and disapprove the sending of county work to outside cities when our own workmen and merchants can supply equally as serviceable articles at as advantageous prices.
If elected, I will see to it that steps are taken that will make it possible to provide for the unfortunate children confined in the Frazier Detention Home in a manner more in keeping with the ideas of red blooded men and right thinking fathers and mothers.
If elected, I will personally supervise the work of the county board of relief and not leave the administration of this office, where approximately \$18,000 is distributed annually, to the entire discretion of a single clerk, as is done at present.
I shall make every effort to co-operate in securing the location of factories in Multnomah County.
At present there is no centralizing of responsibility in the conduct of county affairs. I favor a distribution of the work, giving each county commissioner the supervision, subject to the final decision of the entire board, of certain departments and holding each to strict accountability the departments under his supervision.

Juvenile Temperance Notes
THE HARM IN USING TOBACCO
By Dorothy Snider, age 10, of the Hoffman School
Tobacco was first introduced by the Indians, but the poor ignorant Indians did not do it all. No indeed!
The white race spread the filthy habit of smoking and chewing tobacco and I wonder if they knew the harm there is and the poison that is in that nasty weed.
I wonder if they knew the poison called nicotine. I wonder if they know how it stunts the growth, how stupid and nasty and untidy it makes a person, and how it creates a thirst for that still worse and more poisonous whiskey. Yet the nicest, cleanest, healthiest young men in Portland, and not only in Portland and our state but all over the world, chew this demoniac poison and say, "It's good." No, boys, you don't want to use it, why not?
Did you say Lincoln freed the slaves and you knew there are no more slaves? Nay. He freed the land, not the people, but he didn't free our American slaves.
When you hold a piece of it out in your hand it doesn't seem as if it could do any more harm than a kiss on your cheek, but it does.
It seems to me the white race would be ashamed of themselves if they knew after they know it isn't the thing to do to make them strong.
Did you ever see a man or boy who didn't want to be strong? Did you ever see a man or boy who was unwilling to wrestle another man or boy to show his strength? I never did. Certainly this will not make him strong. Don't you think if you were a man or boy you would feel rather guilty to go along the street smoking it?
Come on boys, don't stay where you can get a whiff of it. Be strong and stay away from it! Don't let a weed pull you down!

TREMONT, KERN PARK, ARLETA
On Monday evening the Sunday School workers of the Millard Avenue Presbyterian Church met at the home of Mr. and Mrs. W. J. Jefferies 6848-57th Ave. S. E., for their regular monthly workers conference. Following the transaction of routine business, encouraging reports of various committees were listened to and plans were outlined for the observance of Children's Day, by the Sunday School, Sunday, June 4. Mrs. J. F. McLoney, Supt. of the Junior Department, outlined a plan of work for that Department to be developed during the summer, leading up to a promotion and rally day in the fall. A committee was appointed to outline and report, at the June conference, plans for the annual Sunday School picnic. The Jefferies home was beautifully decorated for the evening with cut flowers and potted plants. Miss Gladys Crum, Keanth Jefferies and Arlington Crum assisted Mrs. Jefferies in serving refreshments. The Pollyanna (glad) Club met at the home of Mrs. W. J. Hollingsworth, Friday afternoon, April 28. Over the tea-cups and fancywork the ladies made plans for extending the influence of the club, which has for its object the gladdening of those who are confined to their homes by illness or affliction. At roll-call reports were made by the members as to how many calls on such had been made, and the interest in those shut-in was decidedly stimulated. All ladies of the Laurelwood M. E. church and congregation who are willing to play the "glad game" or to help some one else to, are invited to join the club. If you do not know what the game is read "Pollyanna" and you will find out. The Club is going to take up the reading of this book at successive meetings.

Miss Inez Knox spent the week-end with her parents at 4812-66th St., S. E.

J. H. Donelson has begun to enlarge his grocery business. He has rented all the corner rooms in the Lents building and the process of tearing out the partitions was begun Tuesday afternoon. Donelson will occupy the entire west front and two of the former spaces on the north, facing the car track.
