Report on Eugene Re-union

The first business in order for the Department Encampment at Eugene June 14-15-16 was a session of the council of administration at 2:30 p. m. on the 14th. At 4:30 p. m. a grand parade of about 500 were in the line of march. At 8 p. m. there was speaking and singing in the Armory. There was not much doing on the morning of the 15th, but in the afternoon the rules were suspended and we had election of officers. Comrade Dr. J. E. Hall was elected Department Commander; Comrade Frank Hess, S. V., and E. F. Socks, J. V.; Comrade Chambers, Medical Director, and W. P. Cerr, Chaplain. All officers were elected by acclamation. The meeting was very harmonious, with a good attendance.

Mrs. Bell Ellwood of Shiloh Circle was elected Department Treasurer of the Ladies of the G. A. R.

Installation was held on the 16th and a good visit was the order of the day.

The city of Eugene was nicely decorated and citizens contributed the use of autos to enable the visitors to properly see the city and nearby country.

Forest Grove was chosen for the place to hold the next Encampment.

The Ladies of the G. A. R. and Relief Corps also had their election and had a joint installation with the Grand Army. A Comrade.

CHERRYVILLE

Johnny get your gun! Uncle Sam got mad at last. It can't be said but what you Uncle Sam is slow to anger.

It is the best possible thing that can happen to the Mexican people that they will be put under the control of a strong, just government and made to stop their everlasting scrapping.

The Kaiser said recently that he never journeyed to his port at Wilhelmshaven on the North Sea with such pride and pleasure as he did after the naval battle on the Skager Rack. He only lost 13 war vessels and 3500 men and it is to be supposed that if he had lost his entire navy and all his sailors he would have been tickled to death. That fine salary of \$5,000,000 a year and those 51 palaces to live in are in great danger of being lost to Billy the Kaiser. Of all the flap-doodle nonsense that was ever conceived in the mind of man this king-craft business is the limit. A bran new uniform for every day in the year, a handsome income settled on every one of his children as soon as they are born and hosts of servants to wait on them every day of their lives, while the poor people who pay all the bills, work hard all their lives and finally die in some bloody battle.

The standpatters are already rejoicing over their victory this fall at the polls. Don't count your chickens before they are hatched. How are you going to explain your candidates' vote on the income tax? When he was Governor of the State of New York this income tax was submitted to the states for ratification as two-thirds of the states must ratify any amendment to the Constitution. The income tax amendment passed the Legislature by more than a two-thirds vote, yet Hughes vetoed it because the clause "all income from whatever source derived" would cover incomes derived from state and municipal bonds. Oh dear me! This would catch some greedy rich who are lousy with bonds of all kinds which are a burden on the struggling poor. How are the standpatters going to excuse Hughes veto of the 2 cent passenger fair in New York State?

The gentle rain of the past few days has done a world of good. Now if it will only stop in time to let the farmers cut and cure the big crop of clover which ought to be cut before long.

The Boy Scouts, nearly 40 in number, from Portland, are camped out a short distance north of town. Their camp is conducted with military precision and when they hiked from Bull Run the rear guard bugles were playing, "It's a long way to Tipperary," and after mess the bugles struck up, "There will be a hot time in the Old Town." The headquarters tent is in care of Gen. Randall is at the head of the military street of over 20 tents and the boys are detailed for camp duty and practice drills as well as hikes over the country with all the accuracy of military life.

People are coming out to settle on this railroad land from Portland and elsewhere and soon every piece of land will have an inhabitant. It is inconceivable that this land has been held out of use so long, keeping poor people in our cities and working them at starvation wages and the cold charity of "inspired millionaires." The railroad company said the land was not fit for agricultural purposes as their excuse for not selling, although it was expressly stated in their contract with the Government that they would sell it to any purchaser for \$2.50 an acre. If any one thinks this land will not raise anything the writer would like to show them a garden nearly one acre in extent, planted and cared for by an old lady long past the prime of her life. If lots of strong men had the get up of this old lady they would not stay in towns and put up with paltry sums that are paid them for hard work.

Mahuer county will build crushed rock roads at \$750 per mile.

Mt. Scott Boys Answer Call

Quite a number of Mt. Scott boys were included when the call for the mobilization was issued. They were members of local organizations that responded. Ed Collins and Alec and Wm. Christensen were members of Company C. James Wands is a member of Battery A. Arthur Dearlord belongs to Co. G. Joe McKay is another Lents boy included in the call. Herbert Peterson was a member of the Hospital Corps, but was discharged, and Fred Peterson enlisted to fill the place. Dr. V. C. Burney, familiar to many Lents people, is First Lieutenant of a hospital company. Clarence N. Amato of Arleta was among the called, and Martin Garrett is another, but Garrett was seriously crippled some time ago and he will not go. Whether they ever get away from the Caekamas camp or not this is causing a lot of anxiety on the part of their families and friends. It is to be hoped the readiness of preparation will be sufficient to convince the Mexicans that the United States is ready for them.

To The Public

In our New Meat Market we will use the PENNY CHANGE SYSTEM, whereby you pay for exactly what you get—no more, no less. For example, if a piece of meat comes to thirty-seven cents or thirty-eight cents when placed on the Penny Springless Computing Scale, you will not be asked to pay forty cents, which is the old way and has cost the public thousands of dollars; but we will charge exactly what the meat amounts to in pennies. Think of how many dollars this will save YOU in a year.

Take Care of the
Pennies and the Dollars
will take care of themselves

We will at all times handle the best of fresh and smoked meats at lowest prices

This is Our Motto:

Sanitation, Fair Prices, Exact Penny Change, and Good Meat, Weighed on the Toledo Springless Honest Weight Scale.
