Mending Amber.
To mend amber requires a certain amount of care, though the process is a simple one. Apply some linseed oil to the broken edges and then hold the oiled parts over a gas jet, covering the rest of the amber meanwhile with a cloth. As soon as the oiled parts become sticky with the heat press the edges which are to be united together and hold them very carefully till cold.—Exchange.

An Accent That Survives.
The cockney has survived for many centuries in the midst of speech that is deemed more cultured. It is a curious fact that in the Bahama Islands, which were settled more than 200 years ago by Londoners, the cockney speech is as strong as it is in Cheap-side.
