Paint Your Roofs Now

CONTRARY to the Prevailing custom, painting should be done in the Spring and early Summer. The **SUN** is what **Damages Your Roof**--not the rain. **A COAT** of Paint applied

NOW to the roofs--either prepared--sometimes called paper--shingles, galvanized iron or tin--of your house, barns, garage, or other buildings will not only improve the general appearance of your place but will add **YEARS** to the life of the buildings.

PABCO PAINT

IN THREE COLORS—BLACK, RED AND GREEN

Is made expressly for roofs by the **PARAFFINE PAINT CO.**, the largest manufacturers of **Preservative and Waterproofing** paints in the West, and is the result of mere than thirty years' experience in the manufacture of

Paints suitable for California climatic conditions. **SEE OUR BIG WINDOW DISPLAY OF PABCO PAINTS** and let us show you how **Little it Will Cost** to paint your roofs.

The Handy Farm Paint

PABCO PAINT is a wonderful **PRESERVATIVE** for Water Troughs, Tanks, Irrigation Boxes, Wooden and Iron Flumes and Pipes, Steel or Wooden Fences, Building Foundations, Silos, and in fact, Metal or Wooden Surfaces of all kinds.
