Athletic Mosquitoes.

Singapore is on the Malay peninsula, that shoe tongue that hangs down from the southeast corner of India. A Singapore mosquito will lie slothfully around all day, not turning a hand, but the moment it sees you retire for the night and pull down the bed netting it leaps to its feet, trembling with eagerness. They will pass up thousands of Chinese and Malays a few blocks away, sleeping without cover of any kind, to come and work and plan the whole night through to get just one taste of white meat. Their persistence is wonderful. An ant in comparison to a Singapore mosquito is a happy-go-lucky creature, with no thought of the morrow. Here in the luxurious tropics mosquitoes grow to splendid proportions, perfectly formed and splendidly muscled, and in any catch-as-catch-can conflict can defend themselves against all comers, irrespective of nationality. In a clinch they have a way of balancing on their tails and leaping on to their opponent and tearing him with their hind feet, after the manner of the cornered Australian kangaroo. — Homer Croly in *Tattle's*

The Epworth League service at the Laurelwood M. E. Church was of special interest last Sunday evening, for Miss Curtis, Superintendent of the Methodist Deaconess work in this city, discussed the topic of the evening, Bible Study. Mr. J. O. Leake, of the Sunny-side M. E. Church, sang two splendid gospel solos. Miss Curtis spoke also at the regular evening service which followed the young people's meeting. Her subject was Methodist Deaconess work, and the congregation became deeply interested as she told of the efforts of these Ladies of the White Ties, who spend their lives in trying to remedy, or at least alleviate, the suffering of the poor, sick, and needy. Several were so impressed by the greatness of the work that they slipped contributions into the deaconess' hand when they greeted her after service. Miss Curtis has recently come from Chicago to take up the work of superintending deaconess work here in this city. It is hoped that a deaconess auxiliary may be formed among the ladies of the Laurelwood church.

The winners were as follows: Girls running race, Sarah Buel; Children's running race, May Badley; Men's sewing, Mr. Freeman; Young women's race, Joy Badley; Young Men's race, Mr. Chigo.

CHERRYVILLE

Another spell of weather. The Fall season began with falling weather all right.

A late number of the Metropolitan contains a very interesting account of Henry Ford, entitled an "Industrial Miracle Worker," by John Reed of Portland. There is only one Henry Ford. No one ever lived like him and it is to be hoped that men of great business ability will follow his example and use their employees with the same generosity. His great plant now covers 273 acres and he is planning to make it larger in every way. Plans are on foot to build an immense factory out at Dearborn, ten miles from Detroit where Ford lives, on a magnificent farm of 2000 acres. This factory will be devoted to making farm tractors of all sizes, many of them for small farmers. He says he will revolutionize agricultural pursuits and make the farmer independent. He has a formula for making motor fuel to be made by the farmers at home to drive these tractors. He says it takes nearly half the crop to feed the teams which stand idle half of the time and have to be fed when not at work. His success reads like magic, and instead of his being afraid of the banks not giving him credit for his gigantic business plans the banks in all the big cities are afraid that he will withdraw his big deposits and cause them difficulties.

Edison and Ford, easily the greatest living Americans, especially in their line, are both supporting Wilson, while Rockefeller, J. P. Morgan, Penrose, and other big business buccaneers are supporting Hughes. Where does the poor man line up?

Hawley is at his old tricks again. He refused to vote at all on the eight hour law but "Pat" McArthur of Portland listened to Big Business and voted against it. Of course!

Andrew Oaks, who lives up near the Bull Run reserve, with Ezra Trueman, discovered a big ledge of black jack quartz on Camp Creek lately and took some of it to Portland for an assay. August Hornecker, an old miner who owns a valuable mine—or an interest in one—on the Greenhorn near Baker City in eastern Oregon, has leased the Morning Light claims which have had a great deal of work done on them in times past and will begin operating there again in the near future. He says these claims are a valuable proposition. They are on Sheeny Creek above Welches.

Oh! Mr. Hughes! Have you heard the news? That's going all around.
