A house to house canvass by the churches of this district reveals the fact that this community is overwhelmingly opposed to the Brewer's Amendment. A majority are in favor of the Oregon Dry Amendment. This, however, does not insure the vote of this community on the right side. Every person in favor of the "wet" law has taken the precaution to register and will be on hand early on the day of election. Many of the "dry" people have not registered. Some women are timid to the extent of refusing to vote. It is of such as these the liquor people count upon to give them what they are asking for.

Take from One, Give to Another

In commenting on the so-called "Land and Loan Measure" (single tax,) the Hillsboro Independent says:

"It is promoted by the same interests which at each election have attempted to thrust single tax upon the state. The proposal has always been overwhelming beaten, but at the succeeding election has reappeared although cunningly disguised. It is in the present bill, and it will be interesting to compare the names in the argument for and against the measure, when it is found that those in favor are by what might be called theorists and dreamers while the arguments against are by practical men of affairs. The bill, like those referred to above, appears to have been drawn on a basis of what its advocates believe it will accomplish. They have little belief to offer, while those with practical experience show that it will have disastrous effects. Boiled down, the law would take from the man who has and give to him who has not. It makes no difference if the man who has acquired it by frugality and industry and he who has not is merely paying the penalty of his lack of effort. The bill is not popular in Washington county, where people have found that industry will do what this law purports to accomplish, and extended argument is perhaps unnecessary."

CHERRYVILLE

Jack Frost put in an appearance in great shape last week.

Old timers say there has not been a killing frost so early in many years.

More dust flying the first of the week than most any time this summer. Remarkable weather for the time of year.

Captain Baty of the Portland Detective force was out Sunday visiting his sister, Mrs. Shank.

Solomon Houser came through town last Saturday with his band of sheep that he has been pasturing on Wild Cat mountain the past summer. He sold the lambs—about 900 in number to a Portland firm (i. e.) most of them for \$4.00 under a contract made last spring but now he could get \$5.00. He says the wheat and sheep men in eastern Oregon are getting rich and the cattle men are not far behind them as well as the horse men. One rancher borrowed \$50,000 two years ago and paid out this year. August Beidenstein went with Mr. Houser over the mountain to help him drive his sheep to Tygh Valley.

Tom Galarneau returned home from a months work in the Government service around Clear Lake last Saturday and upon going up to his claim three miles south of town Sunday, he was amazed and shocked beyond measure to find that some ill-begotten wretch, had in his absence, not only entered his cabin and carried off his three guns and ammunition and about 50 pounds of sugar and other provisions but what they could not carry they had completely destroyed.

The garden and grounds were covered with flour, beans, salt, spices and other groceries. The most malicious action done was the destruction of about ten gallons of mammoth mountain strawberries done up in sugar. It is difficult to believe that there is any one so utterly lacking in honesty and decency in the state. It looks like the act of a maniac or a degenerate without reason or sense.

The Devil must be lonely with one of his chief imps away from home but it is a consolation to the "Old Boy" to know that his work is being done on earth by a prominent emissary from his Satanic Majesty's domains.

Theodore Kopper killed a big black bear last week on Boulder Creek up near Blackberry mountain. He was estimated to weigh nearly 400 pounds and was in a very fine condition.

A couple of old miners are digging a tunnel on Alder Creek about three miles from the auto road and deep canyon. They say they have as fine "float" as they ever saw and are now seeking the mother lode.

Riddle will ship between 40 and 50 carloads of prunes.
