Negotiations are under way by the Oregon Power company to extend its transmission line from Coquille to Bandon, a distance of approximately 28 miles, furnishing electricity for Bandon and all intervening points, including the coal mines at Riverton, the towns of Riverton, Lampa, Parkersburg and Prosper, all of which are on the Coquille river.

Oregon suffered practically no loss from forest fires this year, according to State Forester Elliott, despite the fact that the timbered and brush area owned by the government and private individuals and companies comprises approximately 22,000,000 acres. The entire damage from fires, Mr. Elliott says, will be less than \$500. Last year the loss on privately-owned timber lands totaled \$29,000.

Attorney General Brown has practically completed the taking of testimony in the Hyde-Benson land cases, and as soon as Circuit Judge Gallo-way returns from the east the first case will be tried in Marion county. The cases pending in the other counties will follow, much of the same evidence being applicable to them all. In these cases the state is attempting to recover approximately 46,000 acres of land alleged to have been obtained from the state through fraud. There were reported to the state Industrial accident commission during the week ending Friday, 25c accidents, two of which were fatal. Victims of the fatal accidents were A. Leach, Klamath Falls, killed in a sawmill, and Steve Melch, Black Rock, killed while logging.

Joseph Coach, of Bandon, walked up to G. T. Treadgold, a Bandon attorney, and without a word, shot him dead, stepped a few feet away, and sent a .32-caliber bullet into his own left temple. Coach had said he had been persecuted by the attorney.

Negotiations are on between the Oregon Lumber company, of which D. C. Eccles, of Ogden, Utah, is president, and the Dubois Lumber company, whereby the former company is considering buying 25,000 acres of timber land in the Nehalem country, tributary to the lower Columbia river, preparatory to developing the property and working the timber on a large scale.
