JOHN M. MANN

MEMBER 1917 LEGISLATURE

Business Man's Candidate for COMMISSIONER

He stands for strict economy, sound business principles, protection of the industries we now have and the encouragement of new ones, which means more pay rolls and the development of the natural resources of Oregon, making a bigger, better and more prosperous Portland.

JOHN A. McQUINN

CIVIL ENGINEER
35 Years' Experience

Candidate for CITY COMMISSIONER

Believes in doing that well with one dollar which any bungler can do with two dollars after a fashion. This is the true purport of an engineer.

LOCAL BRIEFS

O. J. Sherman, of Sunnyside, paid The Herald office a call on Monday. Have you subscribed for your local paper? One dollar a year.

Every community needs a local paper. Subscribe for the Herald.

The Kansas Legislature has passed a bill forbidding "the sale, barter, giving away, or advertising of cigarettes, or cigarette papers in Kansas." A fine of \$25 to \$100 is provided in the bill.—The American Press.

The annual conference and camp-meeting of the Seventh Day Adventists will commence on Tuesday of next week, the 29th inst., and will continue to June 11. It will be held at Creston station, on the Mt. Scott car line.

Miss Lona Crandall, of Lents, an employe of the O. W. R. & N., left the first of the week for the home of her parents in Clackamas County, a threatened breakdown necessitating a few days' rest. Her many friends hope to see her back in a short time much improved.

The Northern Pacific Railway Co. have announced that they will discontinue the serving of the "great big baked potato" on their trains until after the war, in the interests of food conservation. Hereafter no passenger will be served with more than he can eat.

Last Wednesday afternoon some burglars gained an entrance through a cellar window into the home of Mr. and Mrs. W. H. Hacker, of 85th street and Woodstock avenue. Fifteen dollars was taken from a purse in a bureau drawer. No clue was left by which to identify the robbers, but it is presumed that it was boys as the cellar window was small.

W.C.T.U. NOTES

A meeting of the state executive of the W. C. T. U. is called for next Tuesday. Mt. Scott union is especially interested as their corresponding secretary is a member of that body.

The work of the sailors' and soldiers' department is being vigorously pushed. The making of housewives' comfort bags, as well as the work for the hospital service is going on rapidly in nearly every locality.

Mrs. Mortrude is the superintendent in the Mt. Scott union.

Mrs. Ella Hoover Thacher, of Washington, D. C., is National leader of this work and for many years has efficiently planned and promulgated the most splendid work among soldiers and sailors. Her printed plans have gone into every section of the country. They include the making and filling of comfort bags, the establishment of rest rooms at training stations and mobilization camps, instructions as to what to do for soldiers and sailors while they entrain and afterwards, how young people and children can help, how to knit vests, mufflers, wristlets, etc.; what supplies to send and where to send them; religious and social work, and how to co-operate with the Red Cross, yet using our own machinery.

The state headquarters is a lively place these days at 607 Dekum Bldg. The Flower Mission department furnishes plans for general relief among families of enlisted men. This department is in charge of Mrs. Albert Fankhauser here.

The labor department of the National is engaged in definite work under the United States Labor Department for the establishment of employment bureaus for women who will have to take the place of the men called to the army. Beside all this the W. C. T. U. has taken up the Americanization work in co-operation with the Federal Bureau of Immigration and Naturalization and the Naturalization of the National Chamber of Commerce.

The part of the W. C. T. U. in the work of Americanization of aliens, made more than ever necessary on account of the war situation, is among the women and children. Mrs. Black, the National superintendent, asks that every white ribboner do at least two things: (1) Establish friendly relations with at least one alien family; (2) induce one non-English speaking woman to learn to speak English. The W. C. T. U. publishes literature in 20 different languages. All the above will show the great activity of the Woman's Christian Temperance Union in answering the call of the country in this hour of dire need. No organization is better equipped for patriotic service and the "Call of patriotism" has been sent out from the National headquarters and is being responded to in the most efficient and practical manner by 20,000 local unions—one-half million women. An urgent appeal is made to all patriotic women to join the union here and help make it a power for great good in this call for patriotic service. Special meetings will be held with an instructor present to get the work for the soldiers and sailors better understood and more earnestly pushed. Again we ask any one having waste paper or books to let us know.

Church Notes.

(Continued from Page 2.)
their monthly meeting at the church on Wednesday evening of next week, the 30th inst. At this meeting Rev. Homer L. Cox, of the First Friends Church, will give an address on "How to Study the Bible." Every one will be welcome.

Large delegations of the Epworth League attended the district League convention at Centenary Church Friday, Saturday and Sunday, greatly enjoying the sessions.

The service Sunday morning was of especial interest. Mr. Brock gave a short address preceding the sermon on the "Value of the Denominational College," paying a high tribute to these schools for the educational advantages which they afforded as well as to the place which they fill in the building up of character, quoting statements made by eminent educators of the country to the effect that presidents of state universities rejoice when students come to them from these denominational schools, knowing that they represent the highest type of character and will wield a wholesome influence in the student body. The sermon by the pastor was on "Christian Education," the thought being emphasized that true education embodied physical, intellectual and spiritual development which should culminate in one harmonious whole. Secular colleges were too materialistic in their tendencies to provide this three-fold education, which could only be found in the denominational school and colleges.

A. L. BARBUR
Candidate for
CITY COMMISSIONER

Has had ten years' experience as City Auditor, and as such he has conducted the affairs of his office in a most economical, efficient and courteous manner.

The general principle of a private business is to promote efficient employes, and as an employe of the city, Mr. Barbur is asking the people who employed him as Auditor to promote him to the higher position of City Commissioner.

He has made good as City Auditor and will continue to make good as City Commissioner

CHARLES P. CHURCH

Who gave the city of Portland 17000 horse power of water, is desirous of a City Commissionership to devise means of breaking the thralldom of light and power the city now endures at the hands of buccaners, who charge more than three times higher than a fair return on honest capitalization. Horse power which costs at rental of \$29.00 in Tacoma is taxed \$102.40 by the Portland Railway Light & Power Co., as one instance.

The telephone is another iniquity, bleeding this city for over one million two hundred thousand dollars annually, of which at least eight hundred thousand dollars is pure extortion; a rate of \$1.00 in the house and \$1.50 in the office will yield over \$200,000 yearly, more than interest on bonds for legitimate cost and upkeep.

Trade Conspiracy Ordinance

Do you realize that we have no move-on ordinance in this city? San Francisco found it necessary to pass an ANTI-PICKET measure, after the bomb outrage during the preparedness parade. Los Angeles waited until some of her buildings were destroyed. Shall we wait until we pay the price in destroyed property and perhaps human lives?
