A most egregious error was committed last week by the omission of the names of Prof. and Mrs. J. Archie Hollingworth, of the Hollingworth Studio of music of Arleta. The co-operation of these music devotees made possible the community sing at the Mt. Scott Park on the Fourth, and they were also instrumental in securing the double male quartette, which gave two delightful selections upon that occasion, dressed in colonial costume. Both the professor and his wife were very effective in striking dress of the period of 1776.

(Received too late for last issue.)

Kendall.

There are many ways of solving the high cost of living problem. Wild Mustard and turnip leaves make splendid greens, especially when they have freshly grown up in a cultivated field. A fine vegetable soup can be made by boiling green pea hulls, afterward removing them from the water, to which should be added new potatoes, carrots, onions, etc. Try it.

The Kendall road is not only a popular auto drive, but it also makes a splendid roller skate course for the youngsters.

George Ham is laid up with an attack of mumps. He says he wouldn't mind it so much if it wasn't for the looks.

There are a number of auto owners in this vicinity. Mr. Sherman being the latest to acquire a car.

Most of the boys and men of this neighborhood are gentlemen, but a few of the younger ones are quite ungentlemanly and if complained of would have to suffer the consequences of their acts. Using vulgar language in the streets and in the presence of girls, and blowing cigarette smoke into people's faces is not an evidence of manhood.

Millard Ave. Presbyterian Church.

The monthly business meeting of the C. E. society was held at the home of Mrs. W. J. Hollingworth on Friday evening, the 8th inst. A lawn social was greatly enjoyed on this occasion.

A patriotic service was held at the church on Sunday evening, the 1st inst. The program for the entire evening was under the direction of the Christian Endeavor society, Chas. E. Tronson leader.

The volley ball team of the Millard Ave. C. E. society held their first practice at Mt. Scott park on Monday evening of last week. There were eight members on hand, with the majority in favor of the girls six to two. Some of the young ladies were very adept at the game and it is evident that a keen interest will be taken in this sport. Any person attending the Christian Endeavor meetings three consecutive Sunday evenings may become a member of the team.

The Workers' Conference was held at

the home of Mr. and Mrs. E. B. Woodyard, 7628 57th Ave. S. E. on Monday evening of last week. The arrangement of Sunday school classes was the principal topic discussed. Refreshments were served by the hostess.

A VISIT TO ARLETA

(continued from page 1.) succeeded a volunteer company. The first Captain was Frank Zellmer, who however was succeeded after a few months by the present officer, Captain R. Canuto. The Lieutenant is R. D. Laisner, and there are five other men. They have a two horse rig with 2500 feet of hose, or over 1000 feet to a load. When this company was first installed there were about 100 hydrants in the territory assigned to them. There are now 250. They are supposed to afford fire protection to the district bounded by 52nd Street, Division Street, and the City limits east and south, although there are four volunteer companies doing their "bit" in certain portions of it. Under such circumstances the Department never counts on saving the house which is burning (although they sometimes manage to do even this) but always figure on saving adjoining property. There is a comprehensive code system from the Portland Headquarters which keeps every sub-station in full touch with the movement of every other piece of apparatus in the city immediately any piece is called out.

Kern Park Hardware Company.

Very courteous and considerate are Wm. Woodham and his son Otis who run the Hardware store at 4624, 67th St. S. E. They have a nice stock of general hardware, in fact such a stock, bought before the rise in prices, as will enable them to do business at less than the wholesale prices at present, for some time to come. They have been in the same store for eight years. When they started up there were stumps in the street and no sidewalks. Mr. Woodham put the first cement sidewalk in the district down in front of his store. They have a fine line of garden tools, lawn mowers, garden hose etc. also carpenter's tools, builders' hardware, tinware and granite ware.

J. A. Teeny, Dry Goods.

These are days when the whole country is inspired by citizens of other countries who have made good here and are a credit to Uncle Sam. At least one such we found at Kern Park—J. A. Teeny. Mr. Teeny came here in January 1911 with the large capital of \$29 and a young wife. A baby boy arrived two weeks later. He started out at common labor to earn a little stake and by September of the same year had \$160 saved up which he invested in a small stock of dry goods. To-day he claims to have the largest stock of dry goods in the district, has four boys in his little family, says they have lived comfortably and well, and a week ago he passed another milestone by purchasing a home of his own. He hails from Mt. Lebanon, in Syria. A short while after he started he took his cousin into partnership with him, but about a year ago they dissolved partnership and are running separate stores. A write-up of the other store appeared a few weeks ago. He carries everything in dry goods and notions for men, women and children, and states that his business is the best it has ever been since he has been in business.

Chisholm's Grocery

The father of the present proprietor, who is C. M. Chisholm, purchased the original Arleta Store started by Chambliss & Griffith. This was twelve years ago, and although Mr. C. M. Chisholm was out of business for a year or so, and the present store is on a different corner, yet the store can still be called the old family store. He carries the staple family lines of groceries, vegetables, fruits, confectionery, etc. The location is 6615 Foster Road just across from Kern Park Station. The original location is now occupied by the Phoenix Pharmacy run by John A. Leach.

Who Killed The Plan?

Who killed the Plan?
 "I," said the Critic.
 "I knew how to hit it,
 I killed the Plan."
 Who killed the Plan?
 "I," the Bore said,
 "I talked it dead,
 I killed the Plan."
 Who killed the Plan?
 "I," said the Sloth,
 "I lagged and was loth,
 I killed the Plan."
 Who killed the Plan?
 "I," said Ambition,
 "With my selfish vision,
 I killed the Plan."
 Who killed the Plan?
 "I," said the Crank,
 "With my nonsense rank,
 I killed the Plan."
 —Amos R. Wells, in Christian Endeavor World.

A select committee of eminent gentlemen has been appointed by the supreme court to devise rules for simplification of legal procedure in Oregon. The supreme court itself can simplify legal procedure in Oregon by throwing out four-fifths of the appeals, and itself cutting out its hair-splitting technicalities that invariably deny justice and encourage litigation. What is needed in Oregon is the simplification of procedure devised by a bunch of farmers armed with a hatchet instead of pens, or possibly newspaper copy makers and editors, armed with several big blue pencils. The proposal in North Dakota to eliminate lawyers entirely from the supreme bench would have an exhilarating effect on justice, but it might put a big army of lawyers to planting spuds.
