Missing Again!

Those pesky spark plugs! You should have bought Stewart V-Rays.

They're ideal for all cars. They put a big, hot, intense Violet flame in every cylinder. Not a miss in months of driving.

Their four sparking points mean absolute dependability — four times the life of ordinary plugs. And they have an oil-proof, heat-proof core that is practically unbreakable.

Tone up your power plant with a set of Stewart V-Ray Spark Plugs, and note the added go and ginger.
