Pinched Again!

—for speeding

Hey, there! You're under arrest! Didn't know you were beating the limit, eh?

Of course not—your Ford hasn't got a speedometer. But that excuse won't go in a police court. You ought to have a Stewart Speedometer on your Ford.

You can get it—alone—for \$10. But we recommend it mounted in the handsome black enameled Stewart Instrument Board. Installed in a few seconds. No screws or brackets. Takes all vibration from steering wheel. \$10 for the Speedometer; \$1.25 for the Instrument Board alone, or the whole combination for \$11.25.

Stewart Speedometer and Instrument Board for Fords \$11.25

A Stewart Speedometer not only tells you how far and how fast you go—but checks up on gas and oil consumption—keeps track of the mileage—helps cut expenses all around.

Don't be without one another day.

Tend to it now.

Cherryville.

The dog star rages.

These are the dog days all right, and they are "dog-goned" hot, but not like they are in New York City, where 1,000 have died with the heat.

The sun spots, they tell us, will be at their worst next week, when it will be

hot sure enough. Now! Ouch! Somebody will be nearest to the fire.

August Beidenstein and Geo. Odell have been called from this place for examination as there were not enough secured on the first call.

Two autos a minute passed through here for three hours consecutively, and after that more or less rapidly one day recently. It is estimated that more than 1,000 went up into the mountains Saturday and Sunday, and yet some writers in Portland papers claim the Marmot road is to be preferred. One thing certain, hardly any one travels that way. This is done in the interest of a big rancher over there who hopes to have the hard surface road laid on that side. Nothing doing! The old Beulon Road, the main auto road, is the right one.

Koy Mitchell, well known here, lately joined the Navy, and was said by the Examining Board to be the finest specimen of a man they had ever examined. Besides being a perfect man physically he is an all around good fellow whom everybody likes.

A big auto truck has secured the job of delivering the planks in this district, of which there are over 150,000, mostly to be laid on the main auto road that runs up into the mountains.

One of our ranchers is building a dam so that he will be prepared to irrigate his garden and produce another year.

Is This Your Boy?

You cannot expect him to be interested in his school work if he cannot see clearly. Properly fitted glasses may be just what he needs. Unless you are positive your boy's eyesight is all right, you should have us examine it at once.

Do not let your children enter school handicapped by defective vision.
