**Oregon A Harbor For Refugees.**  
 Arrangements are practically complete, according to the news bulletins of the State, to place several hundred Belgians upon dairy and truck farming lands in Oregon. Three hundred of these refugees will be placed upon 1,250 acres for dairying and truck farming near Klamath Falls, and 200 on 1,600 acres for diversified farming near Marshfield. Citizens in Coos Bay district will also donate small tracts. There are many thousands of acres in Oregon, as well as millions of acres throughout the United States which might be utilized in the same manner in providing homes for these impoverished citizens of the old world. That they would come to us in a state of mind and heart to make valuable citizens none can doubt.—M. G. H.

**City-Owned Ships.**  
 It is gravely proposed to establish city-owned ships and carry on commercial business in the name of the city of Portland. There is nothing in the charter of the city of Portland to prevent its doing so. The pretense is that a special session of the legislature is necessary; but in fact if the city can run several ferries it can run river steamers; and if it can run river steamers it can send them to sea. It can levy taxes to build ferry boats with; and it can levy taxes to pay bonds with NOW. It can go ahead and contract for the building of any number of ships and if bonds are not voted to pay for them it can pay for them with a direct tax. How not to do it is the problem confronting the city authorities. With a line of steamers connecting Portland with the cities between here and New York, and between here and Australia the railroad trust would have to give Portland and Oregon a square deal.

Our dearly beloved wood trust had great anticipations but it is a l-e-e-t-l-e fearful of Hoover. Having gotten past the innocent George L. so well it has hopes of being able to find a way to placate the Federal government. Just one more good pound of flesh from the people this winter would satisfy it—until next year.

We have water power at our door sufficient to generate electricity in abundance for all heating, lighting and motive power for a million population. Think of a farmer with horses idling in his barn hiring horses from his neighbors! That is what we do as a people, and our neighbors are near-sighted folk, or they would not charge us such prices.

Whenever a soldier seeks rest or quiet he goes into a building or tent conducted by the Y. M. C. A., and whenever his thoughts turn to home and he feels that he should write his old mother, he finds every convenience at the association headquarters whether in training camp or at the front.

The advantage of a municipal light works is becoming better understood as time passes and the mounting cost of the private system brings grief to city officials. Mr. Daly had the correct vision in this matter, but he was ahead of the times for poor privilege-pested Portland—Sunside Gazette.

Shorts are a valuable ingredient in bread, and if the results of the fixing of wheat prices bring down the price of flour, shorts will be found as valuable for human as for stock food.

"We are partners" say a few metal and fuel, oil and timber trusts, and forthwith raise prices 300 percent and shout for everybody to be patriotic. What Uncle Sam has done with the wheat gamblers can be done more with the basic trusts.

Nashville, Tenn., which is bone dry, has \$50,000 worth of contraband booze stored in the death cell in the county jail, and old soaks of that city are wondering if a death sentence would not be a blessing in disguise.

Quite a paradox is noticed in the revenue bill in Congress. It is plain that in the excess profits clause there would be decidedly more profits if the "excess" were eliminated.

**Canada Hits The Kaiser.**  
 Canada has prohibited the use of wheat in the manufacture of alcoholic beverages.

Considering his sightless condition, the blind tiger has remarkable success in eluding the hunters.

By the time everybody gets their winter's fuel in Mayor Baker will find that prices are reasonable.

Kerensky, it seems, has been having a hard time in getting his dictatorship to dictate.

It seems all the colonels are getting promoted except our old friend, Col. John Barleycorn.

Lick the plate and help lick the Kaiser.

Let us draft the steel trust.

**Mr. Walrod Writes From Minn.**  
 Editor "Herald":—I will again pen a few lines for your paper. The weather here is much cooler. There was a light frost on the 25th of August, but no damage was done.

One evening recently the ladies of the different churches here gave a supper to the soldiers encamped here and to the members of the G. A. R. I was given an invitation and as I was never known to refuse a free "hand out" I went. There were about three hundred present. Fifty tables were set on the lawn in front of the Asylum for the Blind. The dinner was served in courses and the courses in front of me vanished like magic. One lady asked me where I was from and when I told her Lents, Oregon, she asked me if they ever had anything to eat out there. I told her that it was so very dry out there I was afraid rations were short. She replied that judging by my reach they must be very short if I could not reach them. I told her that I wanted to eat enough to last me home, but she thought I was trying to eat enough to last me until I returned again in two years. I had no reply to make to this, but merely blushed.

Say, this would be a grand place for Dr. O'Donnell. They have a fine crop of Irish potatoes here.

On Saturday, Sept. 1st, they had a patriotic parade in this city. The Third Regiment and their band, the G. A. R. boys and City Council, civic organizations and citizens marched in the parade. The program at the Park included several fine speeches. They were patriotic from start to finish. This is a time when patriotism should come to the front. Let us find out where every man stands. If he is loyal to the flag and what it stands for let him say so; if disloyal, send him over to Germany and let him serve under the Kaiser. No one can be on the fence. A man is either for or against the United States. In the churches here they hand out a card to every one to pledge allegiance to this country—a very good way to test a man's feelings.

We should do all we can to assist the soldiers now in the field and those who will soon leave for the front in every way we can. I am ready to do my part; ready to go into the Army or anywhere I can be of service to my country. When I think of what it would mean to us should we be defeated it makes me feel as if I wanted to cross the water with the soldiers and take a gun and go on the firing line where I would feel as if I was doing some good.—John Walrod.

**Nonpatriotic.**  
 Gladys—Mother, I don't speak to Jeannette any more.  
 Mother—Why, dearie, what is the matter? And poor little Jeannette has been ill, too.  
 Gladys—That's just it, mother. She went and had German measles.

**Church Notes**  
**Methodist Church.**

Sunday next will witness the culmination of the "Efficiency Campaign" which has been conducted during several weeks past. The topic for the morning sermon will be, "Putting the Spirit Within the Wheels." A consecration service will follow the morning service. In the afternoon the group leaders will make their annual canvass of the entire church constituency with the object in view of having all plans for the coming year well matured before the annual conference which will convene the last of the month. The mixed quartette will provide special music at the morning service. A special musical treat is in store for those who attend the evening service, at which time a quartette from the Millard Ave. Presbyterian Church will furnish special music. Come out and hear them.

The last quarterly conference for this year will occur at the church on Friday evening, the 21st inst. This meeting will be presided over by the District Superintendent, Dr. Youngson.

Commencing with the first Sunday in October the evening services will begin one-half hour earlier than during the Summer months.

A very impressive baptismal service was held on Sunday afternoon at Johnson Creek just beyond Lents Junction. At this time Rev. F. M. Jasper administered the rite of baptism to Misses Velma and Irma Sager and Roy Butte. The services were participated in by a number of the friends and members of the church and congregation.

On Sunday evening last Prof. Richards, of Willamette University, was present and delivered an address, or as he chose to call it, a "heart talk" on the merits of a Christian College. It was a splendid talk and all who heard it were fully convinced that to have young people under the influence of men of Prof. Richards' caliber during that critical period known as the "teen" age would be greatly to their individual advantage, as well as making for the best interests of the country. Presidents of our greatest educational institutions acknowledge that the smaller colleges have the advantage in many ways and young people are the better for at least two years spent in them with perhaps a finish at the larger schools. The young people of the Evangelical Church united with the Methodist young people for this service.

**Anabel Presbyterian Church.**  
 On Friday evening the Anabel Presbyterian Sunday School will give a motion picture entertainment in the church. Four reels of film will be used. Music will be rendered by the Ladies' Kapella Quartette and the Sunday School orchestra.

These entertainments will be given at intervals throughout the winter for the benefit of the members of the Sunday School, and church and their friends. No charge of any kind is made. All members of the congregation and their friends are most cordially invited to these entertainments.

**Millard Ave. Presbyterian Church.**  
 The monthly business meeting of the Y. P. S. C. E. of the Millard Avenue Presbyterian Church met last Friday at the home of the Misses Strang. A large number was present, also several visitors. Election of officers took place and the social hour was enjoyed with ice cream and cake.

The Millard Avenue Presbyterian choir rendered some very beautiful music last Sunday, both morning and evening. They are making some very thorough plans for the winter work and much is to be accomplished.

**Evangelical Church.**  
 Mrs. L. W. Owen, president of the Fathers' Day National Association, will occupy the pulpit of the Evangelical Church on Sunday next, morning and evening. She will take for the topic of her morning address, "Real Life." She will speak in the evening on "The Four M's." Mrs. Owen has been on the lecture platform for 41 years. She has spoken in every penitentiary in the United States. Her addresses abound with human-interest stories which grip her audiences wherever she goes. She is in great demand as a speaker in the various churches, having engagements now for two months to come.

Rev. Hornschuch is taking his vacation, his congregation uniting with the Methodist Church for the service on last Sunday evening.

**Friends Church.**  
 The Quarterly Meeting held last week was well attended and the interest continued good to the close of the last session Sunday night. Besides those mentioned on the program last week Dorothy Lee, a minister from Seattle was in attendance, H. A. Hinshaw, who is general freight agent for the Southern Pacific and the regular clerk of the meeting, presided Saturday evening.

The young peoples meeting Sunday afternoon was under the joint management of Emel Swanson and Kenneth Tamplin. Mrs. C. C. Barker and Mr. K. Tamplin rendered an effective duet. After the address by Rev. H. K. Jackson several were at the altar.

The services next Sunday will be conducted by the pastor, Miss Terrill.

Mr. C. C. Barker, the Superintendent of the Sunday School, is investigating the advisability of putting in a high school Bible course which will enable our high school pupils to obtain credit for such study. The state has provided such a course and many schools are availing themselves of its privilege.

**W.C.T.U. NOTES**

The annual meeting of Mt. Scott union was held on Tuesday at the home of Mrs. J. L. Scheuerman, of 89th St., S. E. An all-day session was held, the members gathering at 10:00 o'clock. A delightful luncheon was served during the noon hour which was greatly enjoyed. The business of the day however, was not completed, so far as the election of officers was concerned, and will be taken up again at the next meeting. The reports of the various departments showed that much good work had been done.

The union has lost seven members by removal from the State. However, many new members are coming in and the gap will soon be filled, while the good-will and blessing of the union will go with those who have left the union.

**SOME GOOD RECIPES FOR WAR PRICES**

The directions for canning corn now say to blanch corn on the cob. Boil from five to fifteen minutes, then plunge in a cold water bath after which remove the corn from the cob and place in the jars. It takes several cobs of corn to fill a jar and after corn enough to fill a boiler of jars has been boiled from five to fifteen minutes in the same kettle of hot water that same water tastes like a jar of canned corn. A thrifty housewife has placed that water in canning jars, adding a tablespoonful of the corn to a pint jar, and has as many soups as it filled jars all ready to serve next winter when it has been heated up, deliciously tempting to the sense of smell and happily satisfying to the sense of taste. In thus canning the blanching water not a thing is thrown away about the corn but the cobs, which were again boiled in the blanching water from five to fifteen minutes after the corn had been grated off. This makes a most satisfying and nourishing soup stock.

With meat prices soaring somewhere in the upper air beyond the reach of the plain people and November swinging around this way with Thanksgiving mince pies to be made, comfortable assurances comes with the statement that green tomato mince meat has been pronounced delicious by beef eaters who thought they were eating the regular beef meat mince. The tomato vines are doing well this year and it will be an easy matter to select out some of the prime green fruit for pies next winter. A tried recipe from an old magazine is as follows:

**GREEN TOMATO MINCE.**  
 "Chop eight pounds of green tomatoes fine and mix with four pounds of light brown sugar. Boil for two hours. Mix in with this a pound of cleaned and seeded raisins and the same of cleaned currants; one-half pint of vinegar, two tablespoonfuls each of cinnamon and cloves, and juice of a lemon. Boil for five minutes after it begins to bubble all over and turn into fruit cans. Seal while hot as you would canned fruit.

This mince meat has been made up into pies after standing in jars for five years; into pies that were pronounced by the uninitiated to be regular meat mince pies. In making up the pies ripe apples chopped fine add to the bulk and add a fine flavor.

**PUMPKIN BUTTER**  
 Pumpkins..... 4  
 Remove the seeds from one pumpkin, cut in small pieces and boil soft. Cut the other 3 pumpkins in small pieces and boil soft, put in a coarse bag and press out the juice. Add this juice to the first pumpkin and boil for 10 hours or more, until of the consistency of butter. Stir often. Frozen pumpkins are best because the juice comes out more easily.

**GREEN TOMATO PICKLE**  
 Green Tomatoes..... 8 lbs.  
 Vinegar..... 1 qt.  
 Brown sugar..... 1 qt.  
 Cloves, mace, cinnamon, 1 teaspoon of each.

Chop the tomatoes fine, add the sugar and boil down in a porcelain lined kettle for three hours, add the vinegar and spices and boil for fifteen minutes longer. After cooling put into glass jars.

**Her Belief.**

"Do you believe in the Darwin theory of evolution?" he asked.  
 "Yes," she replied, "and after the monkey became a man he was given the power of speech that he might again make a monkey of himself at will."

**Let The Kaiser Answer.**

"Mida's Criterion" asks the following question: "Why should whisky be put out of business as a measure of food conservation, with beer paying less revenue and actually using a larger amount of food products in its manufacture?" As an aid to the solution of this problem we suggest an investigation of the nationality of those engaged in the brewing business, then of the political power of pro-German organizations in this country, and finally a consideration of the recorded vote on the question of beer exemption.

Cake can be removed whole from a pan by setting the pan on a wet cloth five or six minutes.

Vinegar or other acidulous substances should not be kept in stone crocks, jugs or similar containers—these acids attack the glazing, which is said to be of a harmful or poisonous nature.

Pure mutton tallow is beneficial for chapped hands, lips or face.

Mix a few pounds of bran or graham with your white flour when making bread. This makes a more healthful and nourishing bread.

Small children can be kept from slipping when taking a bath in a porcelain tub by placing a Turkish towel in the bottom of the tub.

Fresh meat should not be kept in wrapping paper; paper absorbs the juice.

A method of destroying flies.—Boil some quassia chips in a little water, sweeten with molasses and place in plates or saucers near the places the flies seem to gather. Non-poisonous.

A bowl of cold water placed in a room that is strong with tobacco smoke will absorb the odor.
