This Is Our Winter of Test

SERVING food is a local problem for each community. Prices and definite rules for every one cannot be formulated. It is a duty for each one to eat only so much as is necessary to maintain the human body healthy and strong. This winter of 1918 is the period when it is to be tested here in America whether our people are capable of voluntary individual sacrifice to save the world. That is the purpose of the organization of the United States Food Administration—by voluntary effort to provide the food that the world needs.

California has but two species of native trees that are normally of weeping habit. One is Quercus lobata, the valley oak, having its most southerly range near Burbank. The other is Picea Breweriana, the weeping spruce, which is found in a few isolated mountainous sections in the northwestern corner of the state.

There are probably more natural bridges in America than in any other country. Rainbow, the largest in existence, is 308 feet high. Its span is six times as great as that of the natural bridge in Virginia. Utah has three natural bridges that are higher and of greater span than any other natural bridges in the world.

INSPIRING MEETING WOODMERE P. I. A.

One of Most Helpful and Interesting Meetings Held This Year.

The Woodmere Parent-Teacher Association held its regular meeting Thursday afternoon, February 14. This was one of the most helpful and interesting meetings held this year, and was very well attended.

Mrs. G. E. Stoner gave a report of the work that has been done by the Woodmere Red Cross Auxiliary since its organization in October. 300 hospital bed shirts have been made, also several dozens of arm slings and bandages and one dozen fracture pads. The auxiliary meets every Tuesday from 9 a. m., to 4 p. m. in the sewing room of the school house. A hot luncheon is served to the workers at noon.

Very interesting reports were read by other committee chairmen, and Mrs. G. C. Griffith, delegate to the City Federation of Women's Clubs, gave a very complete review of the last meeting of that body. The idea of more adequate censorship for moving pictures to be shown in rural districts was of especial interest.

Mrs. Percy Stowell gave a splendid talk on "War Gardens." She outlined the work of boys and girls garden clubs, as planned by the Oregon Agricultural College, and also told of the advantages of interesting the boys and girls in the raising of poultry and rabbits as an aid in food production.

Mrs. W. M. Abel, who has been attending the Food Conservation demonstrations at First Presbyterian Church, gave some interesting notes on substitutes for wheat flour in bread, cakes and pastry, and conservation of fats in cooking. She also gave some of the new "war" recipes. Saving of sugar and meat will be taken up at the Red Cross Auxiliary meetings on Tuesdays of the next two weeks.

The pupils of the seventh grade furnished the music for the afternoon, consisting of a number of two part songs. Miss Elizabeth MacDonald, music director of Woodmere school, merits great commendation for her splendid work in training the children in musical harmony.

In Keeping With the Big Thought of the Day

The daily press reflects the sentiment throughout the nation which clearly indicates a new condition.

Men are wanted everywhere. The work of this war is being carried on largely by those who never before have been in public office or in public work. Men who have been too busy, too engrossed with their own tasks, are leaving their work to others and giving their time and ability to the cause which is ours, yours, everybody's.

It is a time when politics in the ordinary sense must not be considered. It calls for all the ability that can be mustered.

Oregon to be a successful part in this unit plan for the defense of Democracy, must likewise place the thought of the times before everything.

In another part of this paper appears the announcement of L. J. Simpson as a candidate for the nomination for Governor on the Republican ticket. Mr. Simpson was urged to become a candidate by his many friends in every part of the state, because of his business record, his understanding and knowledge of Oregon's resources, industries and needs; because of his public-spiritedness, which of recent years has led him to tasks which have been more important to him than his own affairs.

J. L. Simpson is clearly the man who can give Oregon the administration necessary to this plan of National Efficiency.

His campaign will be directed straight to you as voters, as individuals who do your own thinking.

We are firmly convinced that you will not allow politics to influence your decision, and that you will vote for the man who is best fit to help the people of Oregon, develop the state's vast resources, and to prepare for, and participate in, the great reconstruction that is to follow.

We believe you will weigh issues more closely than ever before, and that L. J. Simpson will be your choice.

What You Can do

First—Talk over his candidacy with your friends.

Second—If you believe that L. J. Simpson is worthy of your support write a letter to this committee.

Suggest how his cause may be advanced. We, in turn, will tell you how you can help.
