**Kern Park Christian Church.**  
Considerable interest has been aroused in the community by the public discussion of the subject, "War and the Bible," at the former service on Sunday evening at the Kern Park church, 46th Ave. and 69th St.

For Sunday evening, Mar. 3rd at 7:30 p. m., the subject will be "The Needs of Teen' Age Boys and Girls," a subject in which every parent should be interested. The speakers will be Mrs. J. W. Wilkins, formerly State Superintendent of Secondary work in the Bible school, and Evert Baker, former State Superintendent of Christian Endeavor work.

**Laurelwood Congregational Church.**  
At Sunday morning services Rev. Mrs. Handsaker spoke on the life and works of Dr. Washington Gladden. His was a worth-while life and it was told in a worth-while way.

At the Vesper Services Dr. Jos. K. Harthe of Reed College told us that while we are mobilizing our young men for war services we should mobilize the social activities of camp life. He stated further that the American camps were kept in a clean condition and clean wholesome sports were encouraged. The very people who criticize Baker and Daniels are those who would tear down and destroy the moral fibre of the soldier. The ending of this war will mean a new social order among our boys.

At the Social Conference meeting held Sunday John H. Matthews, of Seattle spoke.

The ladies of the Missionary Society will meet at the home of Rev. Mrs. Handsaker this week. The class is studying "The Lure of Africa." The men, not to be left behind are taking up the study of the same book on Thursday nights. There is a rivalry between the men and women as to who gets the most out of the book.

**Laurelwood Methodist Church**  
The Revival Services which are being held in the church are well attended and of interest. The evangelist who is assisting the pastor, Rev. A. C. Brackenbury, is Rev. C. L. Hamilton of Montavilla.

**ARLETA W. C. T. U.**  
The session at Lucky Cottage Tuesday afternoon was an unusually successful one, being in the form of a memorial to Frances Willard. A liberal collection was taken for the Memorial Fund. Mrs. Mattie Sleeth, County President of the W. C. T. U. gave an address on Miss Willard's life which was most inspiring.

She dealt with the history of the W. C. T. U. which is so closely bound up with the life of Miss Willard and especially emphasized that the W. C. T. U. was essentially a patriotic organization. She referred to the pioneer efforts made by the W. C. T. U. to help make our soldiers fit by keeping them away from alcohol, a stand which at that time was considered radical, but is now accepted by the nation. One action taken by the local Union was to send the Union signal to all the preachers of the district.

**Burning Water.**  
Particularly pat, at a time when the shortage of coal has required many emergency regulations of business, is the announcement that a chemist has found a way in which it will, it is claimed, be commercially profitable to use water as fuel. A man who saw the process exemplified describes it to the Christian Science Monitor in these words: "I have seen water burning. I have seen water streaming into a flame of blazing oil, and, instead of putting out the fire, it made the flame rear upward and develop a temperature of 2,000 degrees Fahrenheit, enough to melt copper." It should be said that the water alone will not burn now any more than in the past, but, combined with equal parts of any oil that will flow freely, it becomes excellent fuel. This is the way the observer explains the process technically: "The combustion of water is based upon the fact that when a fine stream of water is put through an intensely hot metal coil, it is not only turned into vapor, but the water molecules are split up into their constituent elements, oxygen and hydrogen."

**Foiled Food Smugglers.**  
Smuggling of foodstuffs into Germany is being practiced in ingenious and unexpected ways. Three weeks ago a party of 50 persons crossed the frontier to take part in a masked ball in a little Swiss town. Toward midnight they returned in automobiles, which were warned to stop at the frontier. No notice being taken of the warning the Swiss sentinels fired and brought the cars to a standstill. The occupants, most of whom were discovered to be German soldiers, succeeded in making their escape, but the cars, in which were found to be hidden large quantities of soap, chocolate, butter, leather and fats, were seized by the authorities.
