"WHERE THE SHOE PINCHES"

This man knows where the shoe pinches, and he lays the blame on no one but himself. "I should have known better." This is the kind of reform that counts. Most people busy themselves trying to reform other people. They think things would be just a little better if somebody else did just a little different. But "where the shoe pinches" is probably with yourself, with myself, with ourselves. When we get to the point of knowing this and acknowledge it, then we have made a start. Let's try this line of reasoning in tackling our Community problems. Where does the "shoe pinch." "Am I doing anything that is keeping back the growth of my community?" "Am I leaving anything undone to advance the growth?" With this spirit we can co-operate. And co-operation wins every time.
