THE CATALOGUE BAIT

Last year in Fresno County, California, there were orders for over one hundred windmills sent to one mail order house alone. In case the man who bought "long distance" had to pay the freight, haul the windmill out to his place and stand the expense of erecting it—when, if he had been wise, he could have bought the same, identical windmill at his local dealer's for the same money, could have had it taken to his place and erected without cost or trouble and without the freight from Chicago to Fresno tacked on. "Fishing for suckers" may be good sport—for the other fellow—but it's hard on the suckers. Let us shun this "out-of-town" bait religiously.
