

HE WILL WIN!

"The Oregonian is able to say on information and knowledge that he (Robert N. Stanfield) is neither a profiteer nor a hoarder. It says it now because it ought to be said now. It would not have him, nor any man, penalized through politics, or partisanship, or newspaper unfairness, for having performed to the state of Oregon and to the Northwest an invaluable service in creating here a great wool depot, and in helping lay the foundation for an important industry in the manufacture of wool products of all kinds. What encouragement can Portland offer to others to invest their capital here, contributing a share to the development of desirable enterprise if they are to be assailed and libeled merely because they happen to be candidates for office?—Oregonian Editorial, May 12.

The foregoing is respectfully referred to the Journal and the Telegram, who complain that Seattle is always taking pay-rolls away from Portland, and then attack Stanfield because he has built up an industry benefiting every citizen of Portland and Oregon.

Do you want to send to Washington a Senator who has initiative and who will strive to obtain recognition for Oregon, or do you want a Senator who simply introduces bills for press agent purposes? Stanfield's opponent does not believe that Oregon has been discriminated against. What do you think? What has been done to develop Oregon's Arid lands? Where are there any cantonments in Oregon, although this state has contributed 20,000 young men to the service? Where are the airplanes being manufactured, for which Oregon supplies the spruce? The list of things Oregon has not received can be continued interminably.

To remedy these conditions and get results, a business man is better equipped than a lawyer. The Government is commandeering business men, not barristers, these days.

Every day the Administration is seeking men who have the "know how" to help win the war. After the war, when the reconstruction period comes, practical men will be required to work out the big problems of the Nation. Stanfield is the type of man needed by the Government. Oregon can again do its bit by nominating and electing Stanfield. Stanfield is not a politician. He has been doing constructive labor for the state all his life. Listen to the following:

"He (Stanfield) was practically unknown in the political affairs of the state prior to his election as Speaker of the House, two years ago."—Oregon Labor Press.

That is true. Stanfield was not playing politics but was developing an industry (see Oregonian quotation above) when his opponent was taking political appointments from Democrats and Republicans whenever he could get them. Stanfield was building himself through his own efforts and creating a pay-roll for the state while his opponent was either holding political jobs, to which he was not elected, or was representing corporations at Salem.

There are two points to be settled by the voters May 17:

The first is whether they want better representation at Washington; representation which will bring results to Oregon, and if so, Stanfield is the man.

The second point is whether the Republicans of Oregon want a 100 per cent Republican or a 50-50 Demo.-Rep.

The nomination of Stanfield is the only thing which will save the Republican party in Oregon from falling into the hands of the Democratic boss, for the protegee, friend and colleague of the Democratic boss is Stanfield's opponent.

It is up to, Mr. and Mrs. Republican voter.

Open Forum

San Francisco, Cal., May 2, 1918.
Dear Mr. Editor:

The new draft is taking boys from your community. Many of these boys are leaving home for the first time. They go into new and strange surroundings. They will be beset by temptation.

You want them to make good for their country's sake and for the sake of your community. So do we.

Wherever they go they will find the Y. M. C. A. It is their club, their friend—the nearest thing to home that they will find in army life. It is open to them always—absolutely free.

Another thing: We want a picture of the most familiar spot in your city—something typical of your community—a picture that the boy from your town will recognize when he sees it thrown on the screen in an Army Y. M. C. A. building.

We want this picture to make into a lantern slide just for that purpose—to remind the boy of home. Will you not see that such a picture is sent to me. My address is F. F. Runyon, 519 First National Bank Building, San Francisco. It should be a clear picture for reproduction purposes.

There is just one other thing: Boys overseas want to see the old home newspaper. There are many persons in your community that would be glad to pay the subscription price to have your paper sent to the American Y. M. C. A. headquarters, 12 Rue d'Aguesseau, Paris, and the Association overseas will see that the paper gets into the hands of soldiers from the Pacific Coast.

We must keep the soldier boy in touch with home. It's the biggest thing in the world to keep him braced up. When he knows the people at home are behind him to a man, he will fight the harder. Home means everything to the soldier. Let's keep him in close touch with it as much as we can.

Again thanking you, believe me, very sincerely,
F. F. RUNYON,
For the National War Work Council of the Y. M. C. A., Western Dept.

Aids Industrial Army.

That other great army, the industrial army, the workers in the shipyards, munition plants and other war activities, are being reached by Y. M. C. A. secretaries. Already 115 industrial Y. M. C. A. buildings are in operation and others are being established as rapidly as possible.

HAVE YOU GOT A PLATINUM TOOTH?

Let Your Teeth Work for Uncle Sam
Platinum Needed.

Dr. O'Donnell wants it known that he will be glad to receive and turn into the hands of the refiners every platinum tooth available, allowing therefor the amount of money paid by the refiners.

Uncle Sam has requisitioned platinum at \$105 an ounce. Let your teeth work for Uncle Sam.

Not His Fault

Father McNally—Shame on ye, O'Leary, ye're half drunk.
O'Leary (apologetically)—Oi know it, yer riverence, but it's not my fault. Oi've spint all the money Oi had.

Twenty-One Meals, However

Her Dad—Why, hang it, girl, the fellow only earns \$15 a week.

Herself—I know, papa, but a week passes so quickly when you're fond of each other.

Chocolate Potato Cake.
One-fourth cup butter or other fat, ¼ cup sugar, ¼ cup dry riced potato, 1 egg, ¼ cup milk, ¼ teaspoon salt, 1 square of chocolate, 2 teaspoons baking powder, ¼ cup white flour. Cream the butter, add the sugar gradually, then the well-beaten egg and warm potatoes. Beat well. Sift the flour, salt and baking-powder, then add to the first mixture with sufficient milk to make a cake dough. Bake about 35 minutes in moderate oven.

Teller Goes to War.

War work proved more attractive than paying teller in the Seaboard National Bank, New York, to Ellsworth Ferreira, so he enlisted in Y. M. C. A., and is serving the soldiers "over there."

Clock German Shells.

American soldiers in Paris clocked the shells from the German long-range gun, according to Albert Ogden, a Y. M. C. A. war work secretary. They found that a shell arrived every fifteen minutes.

Win the War Efficiency

That is what we want in State Government as well as in National Government. We need the sort of efficiency which will reduce the ordinary state expenditures, thereby leaving more money to be put at work winning the war.

REDUCE TAXES and use the MONEY SAVED to buy LIBERTY BONDS.

If elected Governor I will inject business efficiency into state affairs, from the top down. My experience as Secretary of State has given me information about every State Department, which I can use effectively as Governor for the benefit of all the people.

I ASK FOR YOUR FRIENDSHIP AND SUPPORT

BEN. W. OLCOTT

Republican Candidate for Governor

Primary Election May 17
