Have you the same trouble?

### In the Jitney

"I came to town in the same jitney with you this morning."

"It's strange I didn't see you."

"Not at all. Three other passengers were sitting on me."—Birmingham Age-Herald.

### Athletes Going Over.

Fred Jacklitsch, former catcher for Boston Nationals; Fred Quimby, old Yale crack star; Jack Magee, former Bowdoin coach and "Sparrow" Robertson, sporting authority, are Y. M. C. A. physical directors on their way to France.

Germany, which before the United States entered the war was considered enough to inform the government at Washington that American vessels would be permitted once a week to go to Falmouth, has evinced the same liberal spirit once more in notifying King Alfonso's government of its willingness to permit Spanish steamships to resume their transatlantic voyages with mails and passengers, but not to transport general cargoes. The Spaniards are a proud-spirited people, says Milwaukee Wisconsin. They have not forgotten the time when Spanish ships were the pioneers of navigation to unknown lands. In what temper will they greet this demonstration of Teutonic magnanimity?

When we hear people talking about being willing to eat corn bread to help out the country it makes our blood boil to think of the boneheads that are unable to comprehend a glorious privilege when they see it. Confound 'em, they ought to be made to bare their heads and kiss the pone.

The London scientist who tells us that man is the progenitor of the ape causes us to marvel at how well the average ape has done, considering his humble origin and his almost hopeless handicaps.

### HELP WANTED!

KEEP away from the flame of the candle if you don't want your wings singed" is a proverb as old as the hills. So we have almost forgotten to apply it to ourselves. In every community men and women are imitating the moths. How many times have we been singed by fascination of the long distance "bargain"? And how many times have come back, and back again, to the flame? How much money is lost each year to this community by this same singeing process? The flame of the candle mounts higher. The moths crowd closer and closer to the flame. It is our business to put the flame out. Wanted:—A few men and women in our community to apply the snuffer.
