INFORMATION OF INTEREST
TO NEWLY DRAFTED MEN

An elementary knowledge of the unitary system of the United States army may prove of use to Americans who become liable to induction under the pending extension of the draft age limits. The new standardization of the infantry, which forms the major part of the service, is briefly outlined below.

The squad forms the first unit, and consists of seven privates and a corporal. The platoon is next, consisting of two or more squads.

The company consists of four platoons, numbering 183 men.

The battalion is made up of four companies, with 614 men.

The regiment is composed of three battalions or 2088 men.

The brigade has three regiments, with 6193 men.

The division consists of three brigades, with 28,334 men.

The field army consist of two or more divisions.

An army consists of as many field armies as are available.

The American unitary system differs slightly from the European. While the names of the units are practically the same, the United States plan calls for a higher enrollment generally in each. For instance, a German division consists of from 12,000 to 15,000 men, while the American division has practically twice that number.

BAND CONCERT DISTURBED
BY PLAYFUL CHILDREN

The writer enjoyed the band concert of Friday evening, on the Lents Playgrounds. The program was ideal and artistic. We hope the people of Lents may have another such treat, if the band can be prevailed upon to come back.

The musicians had to perform under no little handicap. A good many children were turned loose to do what they liked. These entertained themselves by running, talking and throwing paper spears; some of these spears fell on the platform causing no little annoyance. A few seemed to think that the occasion was given that they might indulge in a gabfest. People can hear a gabfest anytime when they don't care what they hear. Most of the audience was appreciatively quiet.

The parents of the unruly children made no effort to curb them. The directors of the playground were not equal to curbing the disturbers and were no doubt deeply chagrined by the annoyance.

Most of the audience and the musicians had to mutually suffer together. The playground is a splendid asset to the community. The concerts are an artistic means of education and it is hoped that the very few who ignorantly disturbed will learn to appreciate both and if they can't appreciate these delights they will stay away for the benefit of those who do.

A DISTURBED LISTNER.

NOTICE OF SALE

Notice is hereby given that the undersigned will sell at public auction at his place, corner Bar road and Buckley avenue in Multnomah county, Oregon, on Tuesday, the 10th day of September, 1918, at the hour of 10 o'clock a. m., to the highest bidder for cash in hand the following described stock to-wit:

One dark bay mare about 11 years old, weight about 1000 pounds, light spot on right hind foot.

One male (male) about 20 years old, dark brown color, brand on right hip and shoulder, very gray about nose and face and stiff in front legs.

Adv. It T. L. D. THOMAS.

FURNITURE FOR SALE

A good range with water coils and some pipe, satisfactory baker; fancy iron bed, good springs and cotton mattress; oak rocker and cheffonier dresser, sanitary couch with cotton pad; fruit jars, heavy zinc tub, etc. Reasonable. Call Tabor 7824 between 8 a. m. and 6 p. m. week days, or call at Herald office.

Mary O. Clark of Boston, a Y. M. C. A. canteen worker, was under shell fire or seven hours in the Toul sector, in a refuge trench with the soldiers. She showed a fine courageous spirit.

TOMATO SAUCE OR PUREE

If a more economical utilization of space within the jar is desired, a more concentrated mixture of tomatoes can be packed. This also provides for the use of small or broken tomatoes and large tomatoes unsuited for canning.

Cut the tomatoes and add one large-sized onion chopped and one cupful of chopped sweet red pepper to each gallon of cut tomatoes. Cook until tender, put through a sieve and add a third teaspoonful of salt and two-thirds teaspoonful of sugar (mixed) to each quart of pulp. Cook to the consistency of ketchup, stirring constantly. Pack hot in boiled jars and process as for tomatoes.—United States Department of Agriculture.

Eyesight

MANY people who take alarm at the first symptoms of other physical ailments, and hurry off to the doctor or dentist, fail to give second thought to the warning of distress occasioned by defective eyesight. This seems inexcusable in view of the easy access to the services of an eye specialist.

You may have the mistaken idea that your eyes are as strong and clear-sighted as they used to be, but you will perhaps be surprised as to the extent to which properly fitted glasses will improve your vision and help your appearance.

When a man reaches intellectual maturity he refrains from talking about what he is going to do, but merely goes and does it. Lots of men, however, never reach intellectual maturity.

That increase in railroad fares offers another incentive to the man who is going to market the flivver airplane.
