Cuba is to send a force of 20,000 to the war. Cuba has gained freedom herself after years of oppression, and knows what it means to other nations. So she has lined herself up alongside her own liberator and friend to help fight the battles of world liberty.

Most of the movements of the Germans nowadays are "according to orders," so the general staff announces in its bulletins. But it is coming to be agreed that the Bulgarians did not move according to orders.

When the most wasteful nation in the world learns to save pennies and outshells, it's a sign that something important has happened to the world.

Traffic Fines for Babies.

Traffic Officer Bender waves a milk bottle at oncoming traffic at a busy corner of Portland, Ore. He holds impromptu court over transgressors of the rules and the bottle receives the fines. When the offending motorists see the bottle they smile. Bender smiles and the crowd on the corner smiles. The offender pulls out his wallet, drops a coin into the bottle and passes on. On the tin lip of the bottle is printed something about the starving babies in France and Belgium.

SAID TO FEED ON INSECTS

Pitcher Plant Known to Scientists as One of the Wonders of the Vegetable Kingdom.

The pitcher plant is one of the freaks of plant life. It grows in swampy lands and is well known in Canada. The flowers, touched with beautiful, delicate tints, are prized for decorative purposes. But the wonder of the pitcher plant is its leaves. They are green, water-holding pitchers, beautifully veined with red and purple, with considerable variation in form. During rainfalls they are filled with water. This largely evaporates, leaving the receptacle half full. Externally these cups are smooth, while internally they are lined with fine bristles pointing downward. There is also a sticky, sugary sort of semi-fluid substance to be found around the inner margin of the bowl or pitcher. This arrangement not only attracts a large number of tiny insects, but they are so eager to feed on the sugary substance that not a few tumble into the water below and die there. They cannot fly out, for the lines of flight would be practically vertical, while hundreds of little bristles confronting them prevent escape over the surface by walking out. Many believe that the plant, through its leaves, absorbs the digestive parts of these insects, and that they thus contribute to its nutrition; in other words, that the pitcher plant to this extent is one of the carnivores of the vegetable kingdom.

Finicky.

"It's a hard matter to please some of these society leaders," said the society editor.

"What's the matter now?" asked the city editor.

"Mrs. Grabcock says the witeup of her party in this morning's paper wasn't punctuated to suit her."—Birmingham Age-Herald.

"I'm a brother to a scout," said a little boy. This was his explanation for attempting to help up a large woman who had fallen and for picking up her numerous packages which had fallen. "I'm too young to be a scout, but my brother is one." That boy's brother was a walking recommendation of the scouts, and an embodiment of the scout law. The best judges and witnesses of the real character of a boy are his younger brothers and sisters.

Democracy is marching on in Europe, King George has abolished the practice of halting traffic in the streets of London when royalty is taking a drive. He says the people must not be inconvenienced. This is a slight thing in itself, but it shows how the point of view is changing under the stress of war and what reorganization there is going to be when it is over.

The new plan will open up a possibility of an army of 16,000,000 men. That ought to interest the kaiser a little. It also ought to interest the home folks to know that the army of 5,000,000 with which we shall win this war will cost the small and income-sequential sum of \$40,000,000,000 a year to maintain, send over, and repatriate.

Lloyd George says that the women of England are making victory possible. And the tribute paid to the English women can be duplicated in France and in this country, where the women are nobly doing their bit and sharing in every possible way the work and sacrifices of the men to bring the war to a successful conclusion.

Never were the marriage license lists so lengthy, and we have a notion that not a few of these girls are going to be very much disappointed when they find what incompetent bacon retrievers their spouses are.

We observe that the new income tax schedule will take from a \$5,000,000 income the small sum of \$3,527,005. That will leave only \$1,472,995 for the poor devil to live on.

Many people living in Berlin have never seen the American flag, says an exchange. And a lot of Huns along the battle front wish now they never had.

Be it noted that the American word "pep" has been officially used by King George. That admits the word to the roster of the King's English.

If the corsetmakers are not allowed to use steel they will have to devise some other kind of "whalebone."
