MULTNOMAH STATE BANK HOLDS MEETING

Remarkable Increase in Deposits Shown in Past Four Years.

The stockholders and directors of the Multnomah State Bank held their annual business meeting and election of officers January 9. Will T. Wright was re-elected president, F. R. Foster, vice-president, and H. E. Boyd, cashier. Mr. Wright is also president of the Bank of Oregon City, at Oregon City, and of a bank at North Powder, Ore., and one at Cathlamet, Wash. Other stockholders are C. H. Hendricksen, Henry Harkson, First National Bank of St. Johns, and M. T. Murphy, of Grand Forks, North Dakota.

The bank has had a remarkable growth in the last four years, due partly to the business expansion in the Mt. Scott district, but mostly to the able management and popularity of the cashier, Mr. Boyd.

The following figures give some idea of this growth: In January, 1915, the bank deposits totaled \$30,000; in 1918, \$100,000, and January, 1919, \$220,000.

THIRD OREGON BOYS NOW ON WAY HOME

The old Third Oregon, of which many Lents boys are members, is now on its way home, and preliminary steps are under way looking to a fitting reception for the local boys when they arrive. Nothing tangible has thus far developed, but an excellent suggestion has been made the matter be turned over to the G. A. R. and W. R. C. for action. The boys are expected home some time in February and no time should be lost. The Herald offers the use of its columns for other suggestions.

INFLUENZA CASES HAVE BEEN NUMEROUS

Health Boards and School District No. 1 Unite in Issuing Bulletin

Like the rest of the city, the influenza epidemic has been much worse in the Lents district the past week or 10 days, although the deaths resulting from the malady have been remarkably few, considering the number of cases. The increase in the number of cases was probably due in a large measure to the cold east wind prevailing for the most of last week, and it is hoped that since the warm rains have again set in an improvement in the situation may result.

The state, county and city health board, in conjunction with the school board of district No. 1, have issued the following influenza bulletin:

To keep well, keep clean. Wash your hands before each meal. Don't go to crowded places. Avoid the person who sneezes. Smother your cough in your handkerchief. Keep out of dirty restaurants. Warmth is necessary. Be well clothed. Soda is unnecessary. Why run the risk of infection from a dirty glass? Safety lies in boiled dishes. A common towel is only for filthy people. You wouldn't use my tooth brush. Why use my drinking cup? Sleep well. Eat well. Play well. DONT WORRY.

Instructions to Nurses. Practice what you preach, keep clean. Isolate your patients. When in attendance upon patients wear a mask which will cover both the nose and mouth. When the mask is once in place, do not handle it. Change the mask every two hours. Owing to the scarcity of gauze, boil for half an hour and rinse, then use the gauze again.

Wash your hands each time you come in contact with the patient. Use bichloride of mercury, 1-1,000, or Liquor Cresol compound, 1-100, for hand disinfection. Obtain at least seven hours' sleep in each 24 hours. Eat plenty of good, clean food. Walk in the fresh air and sunshine daily, if possible. Sleep with your windows open in all weather.

Insist that the patient cough, sneeze or expectorate into cloths that may be disinfected or burned. Boil all dishes. Keep patients warm. Instructions to Householders. Keep out of the sick room unless attendance is necessary. Do not handle articles coming from the sick room until they are boiled. Allow no visitors, and do not go visiting.

Call a doctor for all inmates who show signs of beginning sickness. The usual symptoms are: inflamed and watery eyes, discharging nose, backache, headache, muscular pain, and fever. Keep away from crowded places. See to it that your children are kept warm and dry both day and night. Have sufficient fire in your home to disperse the dampness. Open your windows at night. If cool weather prevails, add extra bed clothing.

Instructions for Workers. Walk to work if possible. Avoid the person who coughs or sneezes. Wash your hands before eating. Make full use of all available sunshine. Do not use a common towel. It spreads disease. Keep out of crowded places. Walk in the open air rather than go to crowded places of amusement. Sleep is necessary for well-being—avoid over-exertion. Eat good, clean food.

Keep away from houses where there are cases of influenza. If sick, no matter how slightly, see a physician. If you have influenza, stay in bed until your doctor says you can safely get up.

J. C. Bristow, who has been residing on Sixtieth avenue near Ninety-second street, has moved to 1204 East Harrison.
