### W. C. T. U. NOTES

"We are with you, heart and soul," was the response of the mothers.

Rev. Schupp introduced Prof. Hershner as one of his parishioners fifty years ago, in Ohio.

The W. C. T. U. pledged itself to assist in furnishing anti-narcotic literature for use in the schools.

Mt. Scott Union will be expected to help in the million-dollar drive to be launched March 20, as well as many lesser undertakings.

A number of interesting items as to work for the union were brought by the president from the county executive meeting, which was held Monday at the City Library.

Mrs. Scheuerman's reading on "Gather the Little Ones Around Your Knee," was touching, but the thing of particular interest was Prof. Hershner's account of the crusade against cigarettes which the school has been making.

A very successful and interesting meeting of Mt. Scott W. C. T. U. convened at the residence of Mrs. Schupp Tuesday. An unusual number of young mothers with their babies and older little folks were present. Mrs. Schupp's motherly talk was fine.

## Do Figures Lie?

IT'S AN OLD SAYING, "FIGURES NEVER LIE," BUT IS IT TRUE?

\$25 In Rewards Offered by Gary Motor Truck Agency Disproving Contractor's Figures but Approving His Business Judgment

There was a contractor who employed six Irishmen by the year as teamsters, but they kicked, "too much work; teams too slow; too many hours," etc., so the contractor figured it out to them thus:

There are 365 days in a year; eight hours for work, eight hours for sleep and eight hours for leisure each day. Eight hours per day amounts to 122 days in a year, which, taken from 365 days, leaves 243 days. Eight hours leisure per day amounts to 122 days, which, taken from 243, leaves 121 days. From which take the 52 Sundays, leaves 69 days.

Now, there are 52 Saturday afternoons off, which makes 26 days, which, taken from 69, leaves 43 days, from which deduct 15 legal holidays, which leaves 28 working days; but every man gets two weeks' vacation on full pay, which, taken from 28, leaves 14 days; and as every man has an hour each day for dinner, which amounts to 13 days in a year, there is only one day left. This day happened to be St. Patrick's day and the Irishmen refused to work on St. Patrick's day, so the contractor arranged for a couple of GARY TRUCKS to take the place of the six teams and drivers and so settled his labor troubles and solved his hauling problems without a strike or lockout and to the entire satisfaction of all concerned.

If you want to know more about MOTOR TRUCKS and SOLVING HAULING PROBLEMS, and want proof that "figures don't lie," drop a card requesting catalogues, terms and prices on GARY MOTOR TRUCKS to the

To the second best answer we will award an \$8 order, and to the third a \$7 order.
