## 77TH STREET TO BE MACADAMIZED

Improvement of Seventy-seventh street S. E. has been authorized by the city council and unless a remonstrance is filed signed by the required 50 per cent of the taxpayers interested the contract will be awarded to Hetrick & Cline, the lowest bidders. The probable cost of the improvement amounts to \$14,518, and will consist of:

Grading the street to the proper subgrade.

Constructing concrete curbs.

Constructing concrete driveways where requested by property owners.

Laying vitrified pipe for sidewalk drain and concrete gutter pipe for surface drain.

Laying gravel macadam in the roadway and by planking that portion of the street occupied by the tracks of the street car company with planks of sufficient thickness to bring the finished street surface flush with the top of the rails.

The section of the street to be improved lies between Fifty-fifth avenue and Sixty-fifth avenue. The cost will be assessed upon the property bounded as follows:

Beginning at a point in the north line of Sixty-fifth avenue S. E. 300 feet east of the east line of Seventy-seventh street S. E., thence north, parallel with the east line of Seventy-seventh street and 300 feet distant therefrom, to a point in the south line of Fifty-fifth avenue S. E.; thence west to a point 200 feet west of the west line of Seventy-seventh street; thence south, parallel with the west line of Seventy-seventh street and 300 feet distant therefrom, to a point in the north line of Sixty-fifth avenue; thence east along the north line of Sixty-fifth avenue to the place of beginning.

The itemized amounts of the lowest responsible bid were as follows:

Clearing and grubbing, \$150; excavation, earth, per cubic yard, \$1; concrete sidewalk, per square foot, 16c; concrete curb, per lineal foot, 50c; wood crosswalks, three feet wide, per lineal foot, \$1; three-inch sewer pipe for sidewalk drain, per lineal foot, 30c; concrete driveway six inches thick, per square foot, 30c; concrete gutter pipe, per lineal foot, \$2; five-inch plank in track, per M feet, \$60; gravel macadam pavement in roadway eight inches thick, per cubic yard, \$3.25.

This improvement as well as the paving of Seventy-second street will in all probability be completed within the next four to six weeks, it is said. This work is being pushed ahead of the sidewalk construction on Ninety-second street because street paving practically ceases when the fall rains set in, while sidewalks may be laid in the early fall before the extreme bad weather sets in. It is stated by Commissioner Barbur's office that the walks on Ninety-second street will probably be put in some time in October or the first part of November.

**Mother**  
Close the dear eyes gently,  
Sightless now and dim,  
O'er the peaceful bosom  
Fold the hands so thin;  
Weary hands that labored  
Us from want to keep,  
Now they rest forever;  
Poor, tired Mother, sleep.  
Smooth the snowy garments—  
Whiter ones she wears  
In the far off mansions  
Where she rests from cares.  
Lay upon her bosom,  
O, so tender, true,  
These pure, fragrant blossoms,  
Fragrant with the dew,  
Ah, our hearts are heavy  
With their dew tears,  
Mother, thus to see thee,  
Cold and silent here,  
O, the darkened sunlight in the lonely room,  
Where no more your presence  
Comes to chase the gloom.  
"There'll be few to love you,  
Many more to chide;"  
So our mother told us  
Just before she died.  
But she also murmured  
O, with such a smile,  
"Jesus will be with you,  
Darlings, all the while,  
If you only love him."  
Dear ones we will keep  
These sweet words in memory,  
Though our mother sleeps.

**ESTIMATED 500 LENTSITES ARE AWAY ON VACATIONS**

It is estimated by some of the business men that there are at least 500 residents of Lents out of town on vacations at the present time. Some have gone to the coast where they are enjoying the salt breezes. Others have gone to the mountain resorts where they are inhaling the pure mountain air. A few have journeyed to the Cotton farm near Gresham where they have pitched their tents and seemingly are having the time of their lives. On this farm it is said there are about 200 tents set up in the Orchard and more are being added each day. However, it is presumed the present cool weather will cause them to fold their tents as well as bedding and return to the comforts of home.

## WOODCRAFT LADIES ENJOY AN OUTING AT EAGLE CREEK

A merry party of ladies of the Neighbors of Woodcraft enjoyed a picnic at Eagle Creek Thursday of last week. They left town about 9 o'clock in Tussey's big auto truck and reached Eagle Creek at 1:30. They started for home about 4, stopping at Bonneville where they visited the fish hatchery, then continued on to the Sandy River where they ate supper and arrived back in town about 10 o'clock. No serious accidents are reported other than one lady losing her shoes, which caused quite a commotion for a time. They were recovered, however, and each lady got a piece of the shoe string as a souvenir of the happy day. Following are the ladies who were included in the party: Mesdames Mary Ward, Lizzie Paul, Addie Allen, Cora Wright, Wester, Mamie Walker, Yost, Mattie Reed and two daughters, Rose Huebner and two sons, Lucile Essig and baby, Ella Marshall, Edith Rayburn and Drost, and the Misses Loretta Rayburn, Frances Tobin and Doris Marshall.

## THIEVES ATTEMPT TO ROB STORE AT EIGHTY-SECOND

Someone tried to break into the Panama grocery store, owned by H. O. Hickox, on Eighty-second street, a short distance from Grays Crossing, last Thursday night about 11 p. m. The store had been closed for the night and Mr. and Mrs. Hickox had gone to their home nearby, leaving their dog in the store. The thieves first cut the plate glass near the front entrance, but the window did not break in the manner they evidently expected on account of the heavy glass. This aroused the dog and frightened the prowlers away, giving them no time to get anything but a watermelon which happened to be in the window. It is thought it may have been some young boys, judging by the size of the hole which they had outlined to cut. It was not large enough to permit an average-sized man to get through.

This is the fourth time in five years that the store has been visited in this manner. On one occasion the panel was taken out of the door and goods taken amounting to \$120.

Charlie Christensen, 5236 Ninety-sixth street, had the misfortune to have the ends of the two middle fingers of his left hand cut off in a joiner at the Albina shipyards last Thursday. The accident came at a very inopportune time as Mr. Christensen had recently disposed of his residence property and purchased a ranch near Sherwood and was going to complete his work at the shipyard Saturday and make preparations to move. It will be a month or more before he will be able to use his hand.

Axel Kildahl and wife left last Sunday morning for Tillamook and other coast points in a classy Dorte. They expect to return Saturday evening.

## JENTIA HUSTON WAS LAID TO REST MONDAY

Jentia Mae Huston, the little daughter of Mr. and Mrs. F. W. Huston of 5721 Foster road died Saturday, July 28, at 1 p. m. She had been an intense but patient sufferer for more than six months. All that advice, medical skill and loving care could do was done for the sweet little sufferer, but she quietly and peacefully faded into the beauty of the other world to which she belonged. A little more than six months ago she developed a rheumatic tendency which developed into a tubercular condition which affected her heart. She was an only daughter, and the parents have the sympathy of the whole community. Grandfather Huston, her every day chum and companion, is a lonely figure as he goes around without his little comrade.

Jentia was born in Portland and was eight years old the 22nd of last March. She was a favorite with all who knew her, patient and affectionate beyond one of her years and was exceedingly thoughtful and kind to old people. She leaves besides her father and mother a brother, Randall, Grandfather Huston and Grandfather and Grandmother Coyle.

Funeral services were held at Kenworthy's undertaking parlors Monday, July 28, Rev. E. A. Smith of the Baptist church, where she attended Sunday school, officiating. Luella, Edward and Elizabeth Smith, her little classmates in Sunday school, sang "Jesus Loves Me." Mrs. Koller and Mrs. Smith sang "Abide With Me" and "Precious Jewels." The whole service was very beautiful and touching. Six little boys were pallbearers: Clyde Huntington, Fred Hancock, Robert Huck, Lester Smith, Frank Woodenbaugh, Calvin Julian. The little casket was literally covered with beautiful flowers. She was laid to rest in Mt. Scott cemetery.

## Mrs. Freeburg Enjoys Mountain Climbing In the Far North

The Ketchikan Times, Ketchikan, Alaska, under date of July 18, contains the following items relative to Mrs. Pearl Freeburg, well-known resident of Lents who is spending the summer in Alaska. That Mrs. Freeburg is well and enjoying herself is evidenced by the kind of exercise she is indulging in:

"Yesterday Mrs. Pearl V. Freeburg of Portland, Ore., Miss Mary Payne of Seattle, Wash., and Miss Alice Kincaid, of Nevada, made the ascent of Deer Mountain and have the distinction of being the first women to reach the top this season. They say that the first half of the climb was made in the mud and the last half on the snow. They reached home drenched but without having any other mishap."

In the column entitled "Who's Who," by "Bill," the incident is written up in humorous strain as follows:

"I have always been an admirer of the feminine sex and I see no reason why they should not be introduced in this column once in a while. I am going to tell of three ladies who climbed to the top of Deer mountain yesterday. I'll call one Faith, one Hope and the other Charity because one of the ladies had hope in making the ascent and the other depended upon a little assistance. Am I right? The going up was not made in record time but coming down the record was broken. They report that a good trail has been made as they were compelled to grab onto shrubbery and trees on the way down and the sliding was good. I do not intend to mention any names but Mrs. Freeburg, Miss Mary Payne and Miss Alice Kincaid believe in outdoor exercise and delight in telling of their experiences."

## POULTRY PLANT STARTED HERE

Articles of incorporation were filed Monday by the Northwest Poultry corporation, with a capital stock of \$25,000. Dr. C. S. Ogsbury is president of the company, B. L. Ogsbury is vice-president and H. C. Luhr is secretary-treasurer.

This concern it is said will be the largest poultry plant in Oregon. Five acres of ground on Eighty-second street between Seventy-third and Seventy-fourth avenues were purchased some time ago and construction work on the first unit of a series of five buildings has already commenced. These buildings are to be 16x100 feet, for housing purposes, and each will have runs on one side enclosed by netting. After the first building of this class is completed work will be started on a building 100x100, built in the form of a quadrangle, which will have an open space in the center for the chicken runs. This building will have a capacity of 4000 birds. By December 1 the company expects to have their incubator cellar completed, which will have a capacity of 10,000 baby chicks per week.

They are already engaged in buying and selling poultry and have in the neighborhood of 3000 chickens on hand at present. They are shipping in high-class hens from the east at the rate of 250 per week to secure their eggs for hatching. After their hatching equipment is ready for operation they will discontinue buying birds and hatch their own stock.

Dr. Ogsbury and Mr. Luhr are experienced chicken breeders of many years' experience. Both will build residence at the ranch and give their personal attention to the details of the business.
