EXCELLENT OPPORTUNITIES FOR MEN IN MARINE CORPS

The aviation section of the Marine Corps is urgently in need of four year enlisted men for gas engine mechanics, machine shop mechanics, electricians, wireworkers, welders, blacksmiths, etc. Men of good character and mechanically inclined are satisfactory. Those enlisting for this duty will be sent to Mare Island, California for the regular recruit training and after completing that, will be transferred to the regular Navy mechanics' school at Great Lakes, Illinois, and receive a thorough education in all or part of the above trades. They will be sent to the flying stations and receive a thorough practical training in mechanical work.

This is a wonderful opportunity for young men to learn a profitable trade at the expense of the government. A large percentage of men on aviation duty are non-commissioned officers and most of these receive in addition to their regular pay, 50 per cent increase. Mechanics who entered at the beginning of the war with qualifications allowing them to earn only \$2.00 or \$3.00 per day in civil life are now expert mechanics and are securing upon discharge, positions paying \$10.00 to \$12.00 per day.

Further information regarding this unusual offer may be obtained by writing to the U. S. Marine Recruiting Station, Third and Alder streets, Portland, Oregon.

SCOUT CAMP FINE OUTING FOR BOYS

Scout troop 21 of Arleta has already been represented at Watum Lake, where the Scout lodge is located. Among those who have returned, reporting a splendid time, are Jolly Pratt, Kenneth Ames, Fern Kelley and Gordon Lambert.

The trip is made up the Highway to Eagle Creek, from which point the way is made by trail for 14 miles, pack horses being sent down to carry the luggage. At Indian mountain is the half-way station where lunch is served to the travelers. The camp itself is practically a training school, the boys being required to go to bed at taps, to rise at reveille, exercise, breakfast, exercise again, take swimming lessons, observe the quiet hour, and then take swimming lessons again. After each time devoted to swimming the boys are given liberty for a time. During the quiet hour they may write letters or read. Danger in the swimming zone is guarded against by allowing only swimmers of a certain grade to use certain swimming places, thus limiting the poor swimmers to the safer and shallower water. Fishing is allowed in the deep water of the lake only by those who have passed a certain swimming test. Those who are below that grade must fish from the shore.

The boys are taken in and out by the scoutmasters or by Messrs. Kent and Oaks, assistants to James E. Brockway, scout executive.

FILM COMPANY TO OPEN LENTS STUDIO

The Herald has received several inquiries the past month as to the location of the Cloverio Film company. No information could be secured as to the location of the studio and some doubt was expressed as to such an enterprise being located in the neighborhood. We are glad to print below a letter received Monday from Mr. Cloverio regarding the activities of the company:

"Mt. Scott Herald:

"I heard there have been several people at your office inquiring for us. According to what the paper said recently about studio ready for first take at Lents, it was a mistake. We have started to film, but not out at Lents as yet. We will have a big open air stage built on the Cloverio property, which is one block north of Mt. Scott cemetery entrance, in a week or so, as soon as we are ready to take the inside scenes of our first comedy. Our main office is 514 Eilers building.

The reason, as you plainly see, that I am writing to you is that you may have thought there was no such a thing as a movie company in Lents. If anyone should ask you how to find us I wish you would tell them to see me daily between 4 and 4:30 p. m. at our downtown office, or see my folks at the studio grounds there.

Sincerely,
HECTOR CLOVERIO.

COUNTY FAIR TO BE HELD SEPT. 15 TO 20

Now is the time if you have not already begun to make arrangements for your exhibit at the Multnomah County Fair this fall. Grains and grasses should be selected before they get too ripe so as to shatter, and the livestock which you are going to exhibit should be decided upon now and be given a little special attention during the next two months so as to keep them up in condition and properly fitted to stand a strong competition in their class.

This year the Multnomah County Fair and the Manufacturers' and Land Products' Show are combined and will be held at Gresham from September 15th to 20th inclusive. The premium lists are now out and ready for distribution and can be had by writing to Mr. C. D. Minton, Manager, 701 Spalding Building, Portland, or Mr. A. F. Miller, Secretary, Gresham, Oregon, or the County Agent.

The premium list has been much enlarged this year taking in several new departments and the premiums have been increased so that if the people of this county respond to the support of their local fair as should reasonably be expected by way of making exhibits of their farm products and livestock Multnomah County Fair will be surpassed by only the State Fair.

There have already been promised a large number of exhibits from outside of the County. If people attending the fair see exhibits from other parts of the State exceeding those from our own County they will wonder if anything can be produced in this section.

If you have never exhibited at the County Fair before, you will find it worth while to make an exhibit this year. If you look around you will find something on your farm that is mentioned in the premium list. The premiums which are offered as an inducement to you are liberal.

The County Fair is one of our best means of building up our community by letting the thousands of people from outside know what we can produce. So it becomes the duty of every live, progressive citizen to do his part.

IN MEMORY OF MRS. ARMSTRONG

The following poem was composed by a member of the M. E. church Ladies' Aid, and dedicated to the memory of our dear sister worker, Mrs. William H. Armstrong, now asleep in Jesus:

It is finished, another life has ended,
With what it held, of hopes and fears,
We stand beside the silent casket
And pay the tribute of our tears.

We look in vain in those calm features
To find a trace of care or pain,
For God has set his seal upon her
And washed her face from earthly stain.

O Spirit, just released from sorrow,
Whisper a message, e'er you leave,
Give us a glimpse of heaven's beauty,
Send comfort to the hearts that grieve.

But all is still, there comes no answer;
No human tongue the tale could tell,
We only know that Christ is with her
And that he doeth all things well.
