The real value of a shoe is not so much what you pay for it as how it fits. For ill-fitting shoes are injurious to feet, health, mentality and disposition. Therefore we fit every foot perfectly.

The Latest Styles

This is our second aim—first perfect fit, then the newest lasts and materials. Just as soon as the fashion changes are announced we order new stock and give you the latest creations while they are new.

A Dry Cellar—Yet a Cool One

A warm cellar is a poor storehouse. That's why vegetables and other foodstuffs cannot usually be kept in the basements of homes heated by the old style pipe furnaces, or the more costly systems. The

Home Ventilator Furnace

The Original PATENTED Pipeless Model Manufactured only by the HOMER FURNACE CO., Homer, Mich. will radiate enough heat to keep the cellar free from dampness, but will not detract from its natural coolness. Vegetables can be stored with perfect safety.

Heat is not wasted with the "Home Ventilator." The scientific principle of design and operation sends all heat units through the combination hot- and cold-air register, and from there it is evenly distributed throughout the house.

Clean, simple and safe. Doesn't waste space and doesn't necessitate a big installation cost. We can equip your residence with a "Home Ventilator" in a few hours, for a little more than you would pay for a good base burner. Ask us for more information.

Freshest Eggs and Finest Butter

Butter and eggs have a highly nutritive value and should have a prominent place on every table. But quality is an important feature to watch.

Rich, delicious butter adds greatly to the tastiness of the meal, and we always have plenty, both creamery and country made. Cheaper grades for cooking.

Our eggs come in fresh every day—right from the poultry farms. And we charge no more than you would pay elsewhere for inferior quality.
