

SEND IN NEWS ITEMS

The Herald asks the co-operation of all its readers and friends in securing news items throughout the Mt. Scott district. It is our aim to publish all the news regardless of a person's station or affiliations, but we realize it is impossible to do so without assistance. If you know of items of interest in your neighborhood send or telephone them in, or give us a tip so we may get them. It will be appreciated.

How We Sell The New Edison

"The Phonograph with a Soul"

As dealers in the New Edison, we have obligated ourselves to a service.

Thomas A. Edison perfected the New Edison at a cost of three million dollars. He entrusted us with the duty of bringing its Re-Creative art into as many homes as possible.

On this principle, therefore, we have organized our store and our selling policy. We earnestly ask you to take this purpose literally—and use this store as your aid to the enjoyment of music—even to the matter of payment.

We are not an installment house, but as part of our service, we arrange payments to suit your convenience. Let us help you in some way—any way.

A Dry Cellar—Yet a Cool One

A warm cellar is a poor storehouse. That's why vegetables and other foodstuffs cannot usually be kept in the basements of homes heated by the old style pipe furnaces, or the more costly systems. The

Home Ventilator Furnace
The Original PATENTED Pipeless Model
Manufactured only by the HOMER FURNACE CO., Homer, Mich.

will radiate enough heat to keep the cellar free from dampness, but will not detract from its natural coolness. Vegetables can be stored with perfect safety.

Heat is not wasted with the "Home Ventilator." The scientific principle of design and operation sends all heat units through the combination hot- and cold-air register, and from there it is evenly distributed throughout the house.

Clean, simple and safe. Doesn't waste space and doesn't necessitate a big installation cost. We can equip your residence with a "Home Ventilator" in a few hours, for a little more than you would pay for a good base burner. Ask us for more information.
