### ROOSEVELT'S 9 REASONS FOR ATTENDING CHURCH

Mrs. C. H. Blanchard submits the following nine reasons urged by Theodore Roosevelt for a man's attendance at church:

1. "In this actual world a churchless community, a community where men have abandoned and scoffed at or ignored their religious beliefs, is a community on the rapid down grade."
2. "Church work and church attendance mean—the cultivation of the habit of feeling some responsibility for others."
3. "There are enough holidays for most of us; Sundays differ from other holidays in the fact that there are 52 of them every year. Therefore on Sunday go to church."
4. "Yes, I know your excuses. I know one can worship the Creator in a grove of trees or by a running brook or in a man's own house just as well as in a church; but I also know as

a matter of cold fact that the average man does not thus worship.

5. "He may not hear a good sermon at church; he will hear a sermon by a good man who with his good wife is engaged all the week in making hard lives a little easier."

6. "He will listen to, and take part in, reading some beautiful passage from the Bible, and if he is not familiar with the Bible he has suffered a loss."

7. "He will take part in singing some good hymns."

8. "He will meet, nod or speak to, quiet neighbors; he will come away feeling a little more charitable toward those excessively foolish young men who regard church-going as a soft performance."

9. "I advocate a man's joining in church work for the sake of showing his faith by his works."

These nine reasons were men-

tioned by Mrs. Blanchard, pastor of the Fourth United Brethren church, in connection with the united enlistment movement, which is an activity in co-operation with the church federation plan for getting everyone in a community interested in the welfare and the community value of a church. In the United Brethren church there will be "captains chosen over bands who will call throughout the neighborhoods stimulating the people's interest."
