OIL and GASOLINE

POOOR grade of fuel is false economy. The money you seem to save on cheap grade oils and gasoline is later spent on motor repairs and shortened life of your motor.

Poor food means poor health—and poor fuel means poor service.

Best Quality at Low Prices

Considering the high quality of our gasoline and oils, our prices are the lowest that you can find.

Scores of auto owners have found that they can get more mileage and better motor performance by always using the same grade oils and gasoline—and that grade *ours*.
