F. W. MULKEY URGED TO BECOME CANDIDATE

F. W. Mulkey is being seriously considered by his friends as a candidate for the republican nomination for the United States senate that will be open for contest at the coming state primary election.

In advocacy of his candidacy, it is recalled that he has twice represented the state of Oregon in the senate of the United States, the first time having been selected by the state legislature and again by the voters of the state at a general election, and while in each instance his service was of short duration it was with honor to the state and himself.

As chairman of the Portland dock commission for a series of years his work showed him to be possessed of sound judgment and excellent executive ability. At the present time he is chairman of the soldiers and sailors commission of the state of Oregon, which has been accomplishing such good results in caring for our young men who have been released from their war duties.

It is understood that Senator Mulkey has not up to the present moment consented to be a candidate, but his friends believe that he will be persuaded to see that it is his duty to the state and the republican party to permit his name to be used.

LENTS GRANGE PASSED RESOLUTION AGAINST ENTRY INTO POLITICS

At the Grange meeting last Saturday the following resolution was adopted:

Whereas, There seems to be a general impression abroad that the Grange is allied with the labor unions and other organizations in fostering the idea of and bringing into actual existence a political party known as the "Land and Labor Party" and the names of some of our head officers have been linked through the public press with this proposed political party; and our whole order is thus involved; and,

Whereas, The principles of our order do not recognize any political party nor permit any discussion either pro or con in connection therewith, and in spirit at least forbids any officer to use or permit his office to further any such political party; and,

Whereas, We believe that the future welfare and very existence of our order demands that we steadfastly adhere firmly and fully to our basic principles above mentioned, now therefore, be it

Resolved, By Lents Grange; that we are unalterably opposed to in any way linking the Grange with any others in the formation or fostering of any political party, and we hereby demand that the master of the State Grange publicly and through the press make clear and plain his position as such in reference to this so-called Land and Labor Party, and that he make plain the position of the Grange with reference thereto, to the end that the public mind may be fully advised as to the true position of the Grange in this all-important matter.

He is here on furlough, but soon expects to return to Constantinople and his Armenian bride.
