

The State University Agricultural College and the State Normal

have for many years spent less money per student per year in training Oregon boys and girls than is spent at any other state institution. The present cost at the State University is \$203 a year. At the College it is \$180. But even before the war, when money would buy twice as much as it buys now, the average cost at all other state institutions was \$325 a year. In addition

THEIR BUILDING INVESTMENT IS ALSO VERY LOW

At the State University it is at present \$322 per student. At the College, \$300. But in state institutions elsewhere, statistics show the average to be \$995. These are convincing proofs of economical administration, but the three institutions can no longer give satisfactory training to the vast number of Oregon boys and girls (5400 in fulltime courses alone), unless they receive more support. On May 21 the Higher Educational relief measure will appear on the ballot. You are urged to preserve the quality of higher education by voting for it.

The ladies of the Laurelwood Congregational church held their thank-offering meeting Wednesday at the residence of Mrs. W. A. Pratten, 4530 65th street. The chief business of the afternoon consisted in opening the boxes and in voting a monthly contribution to the Rehabilitation home supported by the Federation of Churches through the women's organizations. This home is a sequel to the Cedars, the purpose of its founders, the social welfare department of the church federation, being to afford a home for the girls after they have been started in the reconstruction way and during the time that they are trying to find work that they may become independent. Prof. Coleman is chairman of this welfare committee.

Millard Avenue Presbyterian Church

At the Millard Avenue Presbyterian church next Sunday morning Rev. Lee Gray, pastor, will speak on "God's City." At 7.30 p. m. his subject will be, "The Rainbow." Next Sunday the people of this church will add their efforts to those of the thousands of church workers who take part in the unique and unparalleled world-wide drive for the local and general budget of the 31 denominations which have federated in this movement. As a straight business proposition the friends of the churches and congregations who, though not members, have been the beneficiaries of the presence of the churches in their communities, will be asked to contribute. And even now they are acknowledging their debt and are showing a willingness to assist in forwarding the mammoth project.
