THE SPIRIT OF CLEAN UP AND PAINT UP

In a tenement district lived a family surrounded by filth and dirt. The whole atmosphere of the little room which they called "home" was one of hopeless depression and squalor. To prove the power of suggestion, a good woman placed on the table a miniature statue of the Venus of Milo. Against this grimy background of dirt and wretchedness, the Venus shone out in all her beauty and purity, elevating and brightening her strange surroundings.

The good woman called a week later and found that the place had been cleaned up, the dirt had been scrubbed away and a pathetic but sincere attempt at decoration had been made—the subtle influence was effective.

If the homes in a neighborhood become weather-beaten and shabby, living conditions and property values in the whole neighborhood deteriorate. But if some house owner paints and beautifies his home, it radiates its attractiveness in every direction and soon the whole neighborhood is made bright and attractive.

THE VISITING NURSE

One of the most commendable organizations in the city is the Visiting Nurses' Association. The nurses of the association are graduate, registered nurses who have had special post-graduate training in public health work. She knows the best modern ways to do bedside nursing. She has been taught the most recent scientific ways to prevent disease.

She doesn't stay in the sick person's home. She makes nursing visits. She goes into the home, does whatever bedside nursing the sick person needs, teaches some member of the family what to do for the patient in her absence; then she goes away. If the patient is very sick she makes more than one visit during the day.

The visiting nurse is for the benefit of the entire community. Any doctor can call her for any patient of his. She will go to any person in the community who needs her and who calls her. The calls are taken down as they come in. The nurse goes to the sickest person first. The fee is nominal, only 50 to 75 cents.

FULLER PAINT

THE life, the value, the beauty of your home, depend on the care you give it. Weather-beaten and warped siding, cracks and open joints are forerunners of decay. Many property owners neglect to look for such signs, judging their houses and buildings by general appearances only. It is good business to make regular inspection of your property, and to use paint of good quality, which is the surest preventive of decay. Through the varying conditions of weather in all their extremes, FULLER Paint has proved both its preserving and beautifying qualities—a Pacific Coast Product for Pacific Coast requirements. 71 years of paint manufacturing experience are back of every brushful of FULLER Paint.

Some of the FULLER Products

Freshest Eggs and Finest Butter

Butter and eggs have a highly nutritive value and should have a prominent place on every table. But quality is an important feature to watch.

Rich, delicious butter adds greatly to the tastiness of the meal, and we always have plenty, both creamery and country made. Cheaper grades for cooking.

Our eggs come in fresh every day—right from the poultry farms. And we charge no more than you would pay elsewhere for inferior quality.
