## MICKIE SAYS

OBOY! OBOY! I'M ALL IN! WHY CAN'T FOLKS LOOK OVER THEIR STOCK OF ENVELOPES 'N PAPER 'N STATEMENTS 'N ORDER WHAT THEY'RE GOIN' TO NEED INSTEAD OF WAITIN' UNTIL THEY'RE ALL OUT 'N THEN RUSHIN' TH' POOR PRINTERS 'N POOR OL' MICKIE 'T PIECES 'N OH, BOY! 'S A CROOL 'N WORLD!

## AMERICAN WOMEN.

Blasco Ibanez, the noted Spanish writer, now in this country, startled a woman's meeting in Paris recently by saying that American women were tired of the abject devotion of men, and longed for their particular man to show something of the cave man in his characteristics. It is said that Senor Ibanez must have got his impression of American married life from the comic artists, one favorite picture of this class being that of the athletic wife waiting at the door with a rolling pin for her errant husband. One of the traditions of comic opera is the condition of terror in which men live with their wives, and probably this has been taken as an actual fact by many Europeans besides Senor Ibanez. Now no less a person than William Allen Neilson, president of Smith college, makes his voice heard by declaring that one of the main defects in woman's education at the present day is the "too exclusive cultivation of the receptive attitude." He warns students that the greatest womanly fault is excessive docility, and urges them to seek to arouse doubt, objection and resistance.

The success of growers of Egyptian cotton in the Southwest, particularly in Arizona, has been so great that the acreage to be planted this year probably will greatly exceed that of last year, which was approximately 90,000. The Egyptian cotton now being grown so extensively is a long staple variety which has come to be distinct from any long staple cotton grown in Egypt by reason of scientific plant breeding conducted by federal specialists. With the exception of Sea Island, now practically destroyed by the boll weevil, and the Mendocino, not yet established on a large scale, there is said to be nothing in this country to compare with this American Egyptian cotton. Because of its superior quality and especial fitness for making thread, automobile tire fabric, and other products, a strong demand for it has developed.

Credit must be given Trotsky as an organizer. He is now applying to industry the same stern methods by which he whipped his armies into shape. With the aid of a new executive department of the soviet, the chief committee for general compulsory labor, he is conscripting the male population, organizing it on military lines into a labor army, and actually making the lazy Russians work at his speed for twelve hours a day, says San Francisco Chronicle. The discipline is said to be precisely the same as in his army: in other words, the firing squad is the magento of his labor engine. What a joke it all is on the proletariat, that thought it was going to work now, when and as little as it pleased.

Two years ago I made a study of the heads of the one hundred leading industries of America, remarks Roger W. Babson in Independent. Those men are all multimillionaires and the leaders in their industry. Five per cent of them are the sons of bankers, 10 per cent of them are sons of merchants and manufacturers, 25 per cent of them are the sons of teachers, doctors and country lawyers, and over 30 per cent of them are the sons of preachers whose salaries didn't average \$1,500 a year.

The housewives will, in cleaning out the house, throw away or burn great quantities of waste. The lessons learned during the war should not be forgotten; let it be borne in mind that the reclamation of waste is a problem which is not only fitted for war times but for the times of peace as well. The argument which may be advanced from time to time that the utilization of waste material in times other than war is not necessary is fallacious, because it is essential that some means of offsetting the high cost of living be found. Do not waste, but turn it back into the channels of commerce, says Indianapolis News. You will be surprised at the money that can be derived by turning over all character of old papers, rags, rubber, metals and other odds and ends to the junk dealers, who will in turn start this waste back into useful trades.

Excited people who gather about city shops and talk parlor bolshevism should not entertain the delusion that they constitute or even represent the United States. Ninety-nine out of a hundred Americans now regard bolshevism as a bad joke, and they object to having any joke—particularly a bad one—carried too far.

Both men and women in Russia are being compelled to register for work without distinction of class. This is not the paradise which was expected from the workingman's rule, says Baltimore American. The people may wake to the realization that the soviets are more autocratic than the czar.

The National Geographic society announces that the United States is consuming more oil than it is producing, and it might have added that the supply of Americans willing to die in an attempt to keep the American holdings in the Mexican oil fields is also running a little low.

That year of thirteen months, each month of equal length, is hopeless. When such a row is stirred up over a single hour from April to October, what kind of a social earthquake would result from seeking to alter the month?

Propaganda never made a corn crop. That still remains the job of the sunshine, the man, the mule and the plow.

The ouija board is a sort of census enumerator of fools.

A. Leo Stevens, a balloon expert at Fort Omaha, says that in order to help Prof. David Todd communicate with Mars he will endeavor to pilot his balloon to an altitude of 50,000 feet, or somewhat less than ten miles. At that great height he will be practically next door to Mars, which is only about 48,000,000 miles from the earth. Communication ought to be easy.

"Man's time is what he makes it worth by work," observes the Toledo Blade. And it may be added that without work a man's time is worth less than nothing, since it is devoid of usefulness and extracts from his life his only excuse for living.

A soldier lately applied for treatment at a Philadelphia hospital bearing an official certificate that he died with honor in the service of his country. The best treatment for him is that recommendation ought to have been a dead certainty.

Bolshevism follows up its political and industrial poison gas with bullets and flame projectors. Democratic nations cannot be blamed for sticking to the ballot as a means of changing government.

A Frenchman has invented a gun that will shoot 120 miles. When artillery like that begins to operate on cities the world may stage a real back-to-the-farm movement.

What could the state do with all the money if every automobilist who exceeds the speed limit, parks on the wrong side of the street and does any of the many other forbidden things were to be arrested and fined?

The United States wants, in settlement of the Turkish question, to protect the Armenians. Something will have to be done about it promptly or there will be no Armenians left to protect.

Children's meeting Wednesday on lawn of parsonage right after school. Prayer meeting Thursday 7:45 p. m. Business meeting at the close.

We would like to urge, not only Friends, but those of other churches, who are interested, to come to our bible study class in the annex on Wednesday evenings at 7:45.

## A LIBRARY ON WHEELS.

The public library is planning a weekly book delivery on two rural routes beginning in June, one to the eastern part of the county and one to the western. The library Ford has been equipped with shelves which will hold, on one side books for grown people and on the other, books for children—a miniature library on wheels. The book wagon will make regular weekly trips stopping at certain places according to schedule when patrons will be on hand to select their books, and order books on special subjects.

Tuesday will be delivery day on the eastern route, the first trip was made on June 2nd, according to the following time table.

Gilbert school 10 a. m.  
Powell Valley and Buckley avenue, 11 to 11:30 a. m.  
Lynch school, 11:30 to 12:30  
Rockwood, 1 to 2  
Pleasant Valley school 3 to 3:30  
Melrose, 3:40 to 4:10

## FRIENDS CHURCH NOTES

Beginning at the regular time, 9:45, Sunday, our Sunday school opened with increasing interest. The responsive lesson reading was led by Mr. Erskin. Miss Terrell spoke with unusual power at 11 a. m. The meeting of ministry and oversight was held at the parsonage at 5 o'clock. Brother and Sister Irby, of Greenleaf, Idaho, sang two or three selections previous to this meeting, which was an agreeable surprise.

Immediately following Christian Endeavor, which begins at 7 p. m., Prof. Melody spoke of the summer vacation bible school to be held at the Millard Avenue Presbyterian church, beginning June 16.

Miss Terrell was called from the evening service to the bedside of Mrs. Mann, who is seriously ill. At 8 p. m. Miss Spann delivered the message. We hope all Friends will plan to go to the yearly meeting at Newberg, which begins June 10.

Regular quarterly meeting begins at First church, East 35th and Main streets, Sunnyside, June 3.

Friends Sunday school program Friday evening at 8 p. m., June 4. Also at Sunnyside.

Children's meeting Wednesday on lawn of parsonage right after school. Prayer meeting Thursday 7:45 p. m. Business meeting at the close.

We would like to urge, not only Friends, but those of other churches, who are interested, to come to our bible study class in the annex on Wednesday evenings at 7:45.

ANNOUNCEMENT  
Mrs. Richardson will close the Parlor Millinery at 6004 88th street from July 1 to September 1. In the meantime all summer hats will be closed out regardless of cost.

Any size, from 2 rooms up. First payment \$100 or more. Balance easy. See Kennedy and Wilcox, Tabor 4811. m14-j14

## ARLETA BAPTISTS GO OVER TOP IN CHURCH DRIVE

The Arleta Baptist church was allotted the sum of \$50,000 as its quota in the world movement and for its own church. It responded by raising \$81,000, and additional pledges are still coming in. The young people have started a weekly paper named "The Peptimist." It is designed to take the place of the church calendar, and will give the pastor and workers a medium of expression. Miss Gladys Turner is the editor, and Geo. T. Jennings assistant editor. Each department of the church is represented by a reporter. Rev. Owen T. Day has returned from Colfax, Wash., where he went to assist his father in dedicating a new Baptist church.

## ARLETA BAPTIST CHURCH

The Arleta Baptist church will have a special service in honor of the class completing the grades at the Arleta school, at the morning service, June 5. The class will attend in a body. The pastor of the church, Owen T. Day,

will speak upon the youth of Jesus. The subject, "Growing Up."

In the evening at 8 p. m., Mr. Day will deliver the first of four addresses on "Fools and Their Fate." The first will be, "The Egotistical Fool." The address will be short but forceful.

The chorus choir, led by Prof. J. A. Finley, will give several choral numbers. The concert will be welcome to those who have heard the preceding concerts. Mr. Finley is unparalleled as a leader and his choir are willing workers as well as cheerful and enthusiastic.
